## APPENDIX A: CONSULTATION SUMMARIES

From June through August 2022, staff consulted six stakeholders that provide services in the San Joaquin County region to obtain input on housing needs and programs. All stakeholders provided feedback via one-on-one interviews or with email responses. Representatives from the following organizations were interviewed:

- The Housing Authority of San Joaquin County
- The Building Industry Association (BIA) of the Greater Valley
- Central Valley Low Income Housing Corporation
- San Joaquin Fair Housing, Inc.
- STAND
- Visionary Home Builders of California

In each consultation, the stakeholders were asked the following questions, with variations, depending on the type of organization interviewed:

- Opportunities and Concerns: What three top opportunities do you see for the future of housing in this jurisdiction? What are your three top concerns for the future of housing in this jurisdiction?
- Housing Preferences: What types of housing do your clients prefer? Is there adequate rental housing in this jurisdiction? Are there opportunities for home ownership? Are there accessible rental units for seniors and persons with disabilities?
- Housing Barriers/Needs: What are the biggest barriers to finding affordable, decent housing? What are the unmet housing needs in this jurisdiction?
- Housing Conditions: How would you characterize the physical condition of housing in this jurisdiction? What opportunities do you see to improve housing in the future?
- Equity and Fair Housing: What factors limit or deny civil rights, fair housing choice, or equitable access to opportunity? What actions can be taken to transform racially and ethnically concentrated areas of poverty into areas of opportunity (without displacement)? What actions can be taken to make living patterns more integrated and balanced?
- How has COVID affected the housing situation?

Summaries of each consultation are on the following pages.

### **Housing Authority of San Joaquin County**

A consultation with a representative from the Housing Authority of San Joaquin County (HACSJ) was conducted on July 21, 2023. HACSJ works to connect low-income working families, the elderly, and residents with disabilities in San Joaquin County with affordable housing solutions. HACSJ provides educational resources for tenants and landlords, provides safe and affordable rental housing, and keeps an inventory of landlords that accept Section 8 Housing Choice Vouchers (HCVs).

The HCV program, formerly known as the Section 8 program, is a federal program that assists eligible residents with affording housing in the private market. A housing subsidy is paid to the landlord directly by the HACSJ on behalf of the participating household. The household then pays the difference between the actual rent charged by the landlord and the amount subsidized by the program, which is generally 30 percent of their adjusted income. As of 2023, there are 4,980 households/individuals on the HCV waiting list. According to the HACSJ, these are 5,181 households/individuals in San Joaquin County using HCVs. Approximately 4,102 households and/or individuals in San Joaquin County receive rental assistance annually. Of the 4,102 households, 69 are in the unincorporated county. Furthermore, HACSJ owns and manages over 1,000 public housing units.

In consultation with the HACSJ, it was expressed that residents are having a hard time finding affordable rental units in 'good' or 'livable' condition. There seem to be many single-family housing units that need rehabilitation. It should also be noted that financial grants (Emergency Fund Grants) made available during COVID have started to disappear.

HACSJ stated that there are 800 landlords that accept HCVs in San Joaquin County and that partnerships with the County, developers, and the public can help bring about positive change surrounding the HCV program. The region is working on developing a Housing Trust Fund that could greatly improve housing affordability opportunity.

HACSJ acknowledged that there is a high demand for multifamily units, senior housing, and veteran housing in the unincorporated area of San Joaquin County, and for multifamily housing units in areas near agricultural land. According to the HASJC, one-bedroom units are very hard to find and therefore are often in high demand. Once a tenant moves into a one-bedroom unit, the unit stays occupied for a long duration of time. Additionally, there is a need for the construction of newer housing units. Since the majority of the housing stock was built between 1950 and 1980, there is a need for the construction of newer units. Additionally, there has not been much rehabilitation or updates on the existing older housing units.

### **Building Industry Association of the Greater Valley**

The Building Industry Association (BIA) works with the building industry (e.g., title companies, insurance companies, banks, architects, engineers) to meet the housing needs of the communities the BIA serves. The BIA advocates for responsible development, land use, and building policies, and works to protect stable and livable-wage jobs.

In consultation with the BIA, barriers to providing affordable housing were expressed. This included that typically the public does not perceive new housing as positive; the cost to construct new affordable housing is too high; and that for affordable housing to be built, especially for lower-income households, incentives need to be offered to offset costs.

During consultation, it was noted that if more education was given regarding how new housing helps with increased revenue for local government, maybe it wouldn't be seen so negatively.

BIA also expressed opportunities for affordable housing. Stating that there is an opportunity for local organizations and government entities to incentivize the construction of housing, by reducing regulations on land development and providing substantial additional funding to assist in the development of more housing.

When it comes to density and housing type, it was acknowledged that there is not one specific density that works best for building affordable housing. Overall, the housing preferences with the highest demand are single-family detached housing; however, low-density development is the most expensive to purchase or develop. Even though higher-density projects, such as multifamily units, are more affordable to develop, they are not as high in demand as low-density, single-family housing. Recently, building housing has become more expensive. As a result, this cost has been passed along to homeowners, making it more expensive for median-income households to acquire or rent high-density projects.

## **Central Valley Low-Income Housing Corporation**

The Central Valley Low-Income Housing Corporation (CVLIHC) provides permanent housing opportunities to homeless households in San Joaquin County. Through their rapid rehousing, CVLIHC provides tenant-based support by working with landlords, homeless prevention, and permanent housing through Project Homekey. CVLIHC is also the Homeless Management Information System (HMIS) lead agency. As part of a memorandum of understanding (MOU) with the Continuum of Care program, CVLIHC trains users and participating agencies, negotiates data agreement, conducts the Point-in-Time (PIT) homeless count, reports the number of beds available, and conducts Homeless Housing Assistance and prevention reporting to the state.

The CVLIHC has several funding sources for their programs: Continuum of Care Program from the United States Department of Housing and Urban Development (HUD), Emergency Solutions Grant, Mental Health Services Act Fund, and Homekey Funding. More specifically, funding coming from the CARES Act and the Emergency Solutions Grant is used for Rapid Re-Housing and Homeless Prevention rental assistance for those who meet the eligibility criteria.

In consultation with CVLIHC, it was expressed that the housing market in San Joaquin County is unaffordable for residents looking to own and rent and high levels of unaffordability in the county are directly correlated with increasing homelessness. Addressing homelessness has become an important issue in San Joaquin County, although there seems to be a disconnect between the public's understanding of how to address homelessness and current programs readily available to address homelessness. CVLIHC says there is insufficient staffing for homeless facilities, programs, and organizations that work to address homelessness. Furthermore, there may be a scattered focus when choosing which projects to fund, which may lead to non-strategic efforts for addressing homelessness issues. One approach CVLIHC would like to attempt is to own more single-family units to address the needs of persons in need of low-barrier and permanent housing. Owning the units does away with the need to negotiate with any landlords.

CVLIHC expressed that there needs to be more investment in coordinated entry efforts that can provide individuals and families with quick access to seeking assistance through a coordinated referral and housing placement. There also needs to be collaboration with other community organizations to better serve greater parts of the community. CVLIHC would like the County and other jurisdictions to implement adaptive reuse in communities where residential and

## San Joaquin County General Plan

---

nonresidential uses are present. This could happen in the way of rehabilitation of motels to housing units, which also assist in the quality of neighborhoods. CVLIHC looks to own a variety of housing units as well as continuing to partner with landlords to maintain an adequate inventory of affordable housing options.

During COVID, financial and nonfinancial resources that went towards preventing homelessness were effective in keeping people from becoming newly homeless. However, it was difficult to move people into supportive housing. Post-COVID, the housing market has opened slightly and moving people off the streets has just started. The Emergency Solutions Grant and the CARES Act, specifically ESG-CV funds, were made available during COVID and are still available and are being used to continue Rapid Re-Housing and Homeless Prevention programs. The expenditure deadline for these funds is September 2023 and because of the ESG Rules and Regulations, there are limitation on how those funds can be spent.

### **San Joaquin Fair Housing, Inc.**

A consultation with two representatives from San Joaquin Fair Housing (SJFH) was conducted on August 10, 2023. SJFH works to eliminate discrimination in housing and to ensure that residents of San Joaquin County have equal access to safe, affordable housing. The services SJFH provide include educating tenants and landlords on their rights and responsibilities. SJFH tracks all fair housing complaints by jurisdiction and by type of complaint into a database. Furthermore, the database is organized by household type, income level, tenure, and city.

Based on conversations with SJFH, repair issues, discrimination, illegal notices, and retaliation from landlords were the most common fair housing complaints. For example, there often are cases where a tenant reports a repair issue and a landlord attempts eviction. In these cases of retaliation, SJFH first contacts the landlord to remind them of their rights and responsibilities. In the cases where the landlords refuse a repair, SJFH contacts code enforcement. One of the most common complaints received by SJFH is landlord negligence regarding repairs. Often, a change in weather conditions brings increasing complaints, including leaking roofs in the winter or a broken heating, ventilation, and air conditioning (HVAC) system in the summer. Complaints are not limited to one specific jurisdiction and occur countywide. SJFH identified that due to costs associated with making repairs, landlords do not always keep rental units in safe and livable conditions. Currently, the City of Stockton has an inspection of rental units where landlords self-report the condition of their units and as of 2023, the City has checked about 10 percent of the reported units. Additionally, other service providers identified that some housing providers are reluctant and resistant to accepting Housing Choice Vouchers (HCV) (Section 8), despite legal requirements. This, paired with a shortage of HCVs to meet demand, has created barriers for lower-income households seeking affordable housing options. SJFH maintains an inventory list of rentals where HCV vouchers are accepted by private owners in San Joaquin County. This list has decreased from 20 private owners to only 3 private owners.

According to the SJFH, the rise of housing prices due to people moving to San Joaquin County from the Bay Area has contributed to the decrease of available housing stock. During the pandemic, lower-income families who needed access to affordable housing were especially challenged because the expenses associated with utilities were at an all-time high. According to SJFH, current rental prices do not match the income of the region, resulting in overpayment for housing and a growing need for financial assistance for lower-income families. SJFH also works to bring attention to the increasing number of unhoused families who are beginning to make up a large demographic of the current homeless population in San Joaquin County.

SJFH has identified the housing needs for seniors and large families. Since seniors are often on a fixed income and subsidized rent remains stable, subsidized senior housing is often full and has minimal turnover. SJFH said that subsidized housing has a two to three year waiting list and there does not seem to be any available alternatives for seniors. It has also become increasingly difficult for lower-income large families to find and afford rental homes with three to four bedrooms.

## **STAND**

A consultation was conducted with a representative of STAND on July 12, 2023. STAND works to make minority and low-income neighborhoods safer and more desirable places to live. STAND has been able to extend resources throughout Stockton city limits and adjacent unincorporated county neighborhoods. STAND also buys, builds, and rehabilitates homes before selling them to low- and moderate-income households. Additionally, STAND works to connect residents with First-Time Homebuyer Loans. As of August 2023, STAND has four apartment buildings available for low-income households, three single-family rentals, and three shared homes for homeless individuals. STAND has no rehabilitated properties in the unincorporated county but has several single-family homes.

In consultation with STAND, the stakeholder identified recent home flipping activity as a barrier for families hoping to become homeowners. Home flipping is leaving little to no stock of affordable housing and has become a competing entity for lower-income families who want to purchase homes. Furthermore, market factors have also affected access to homeownership for lower-income families. For example, during the pandemic, the federal reserve lowered interest rates to zero, which increased competition in the housing market. Fast forwarding to the current housing market, interest rates for loans have become too high for homebuyers. Another theme that emerged was the cost of constructing affordable housing and the impact of increasing cost of housing on financial assistance programs. Currently, the cost of constructing affordable units has increased due to prevailing wages and increasing cost of material. Furthermore, housing has continued to become increasingly unaffordable to residents who have access to assistance programs and Section 8 HCVs.

Accessible housing was also identified as a barrier to housing. Instances of landlords declining to modify homes to include ramps or other compliance measures has lessened housing options for individuals with disabilities. Additionally, STAND shared that ADA compliance is expensive to install for developers, landlords, and homeowners. STAND expressed that many single-family homes suffered from blight and there is a need for rehabilitation. Strategies for addressing housing condition included collaborative partnerships between STAND and the Housing Authority of San Joaquin County to identify funds and other partnerships to fix up the units. STAND also acknowledged that all housing types are in demand; however, housing units for large families are especially needed. Specifically, affordable rental units with three to four bedrooms.

## **Visionary Home Builders of California**

Visionary Home Builders of California (VHB) work to rehabilitate and develop affordable housing units for low-income households, farmworkers, and seniors. VHB has implemented adaptive reuse strategies to increase the affordable housing stock within the City of Stockton. Adaptive reuse is the process of reusing an existing building for a purpose other than which it was originally built or designed for. Between 2015 and 2022, VHB rehabilitated 50 single-family homes and 75 multifamily units within city limits. The typical construction costs of rehabilitation construction are

## San Joaquin County General Plan

---

between \$60,000 and \$100,000, while the typical cost of new construction is \$600,000 a unit. Therefore, the costs associated with rehabilitation are more affordable than constructing new housing.

In consultation with VHB, it was mentioned that barriers to providing affordable housing included cost of living, construction costs, funding sources, and collaborative relationships. VHB identified that the cost of living is only increasing and causing home affordability to be more difficult. The costs associated with constructing housing units are too high. VHB says that banks are hesitant to loan large amounts of money to affordable housing developers and says there needs to be alternative funding sources identified or created. There also needs to be a supportive relationship between affordable housing organizations and the local council of government.

VHB identified a Regional Housing Trust Fund and adaptive reuse strategies as opportunities to expand and increase the affordable housing stock. A regional housing trust fund is needed so funding is no longer a constraint to building affordable housing. The success of the trust fund is founded on full participation of the County and neighboring jurisdictions. The trust fund would result in the development of more affordable housing by providing financial assistance to participating jurisdictions. Additional opportunities to build affordable housing include adaptive reuse principles of County- or City-owned buildings that are now abandoned. Using government-owned buildings allows for development costs to be lowered because the existing facility connections are already there. VHB expressed that adaptive reuse and rehabilitation have been the most cost-effective solution, including mixed-use housing opportunities.

VHB also cited the importance of educating the public on the difference between affordable housing and housing that addresses homelessness. For example, housing that addresses homelessness often has medical staff and security that are required to be present to address the different needs of that population. Affordable housing for lower-income households does not require the same wrap-around services but rather childcare or enrichment programs. Overall, perceptions of affordable housing have slowly shifted among the community. The pandemic changed how the community perceived access to affordable housing, especially as housing affordability became a noticeable problem. Recently, the community has recognized that access and availability of affordable housing is an issue that needs to be addressed.

## APPENDIX D: Glossary

**Accessory Dwelling Unit:** an attached or a detached residential dwelling unit that provides complete independent living facilities for one or more persons and is located on a lot with a proposed or existing primary residence. It shall include permanent provisions for living, sleeping, eating, cooking, and sanitation on the same parcel as the single-family or multifamily dwelling is or will be situated. An Accessory dwelling unit also includes the following 1) An efficiency unit, 2) A manufactured home, as defined in Section 18007 of the Health and Safety Code.

**Acre:** a unit of land measure equal to 43,650 square feet.

**Acreage:** Net: The part of a site exclusive of existing or planned public or private road rights-of-way.

**Affordability Covenant:** A property title agreement which places resale or rental restrictions on a housing unit.

**Affordable Housing:** Under State and Federal statutes, housing which costs no more than 30 percent of gross household income. Housing costs include rent or mortgage payments, utilities, taxes, insurance, homeowner association fees, and other related costs. TRPA defines affordable housing as deed-restricted housing to be used exclusively for lower-income households (income not in excess of 80 percent of the county's median income) and for very low-income households (income not in excess of 50 percent of the county's median income), and with costs that do not exceed recommended State and Federal standards.

**Affordable Units:** Units for which households do not pay more than 30 percent of income for payment of rent (including monthly allowance for utilities) or monthly mortgage and related expenses. Since above moderate-income households do not generally have problems in locating affordable units, affordable units are often defined as those that low- to moderate-income households can afford.

**Annexation:** The incorporation of land area into the jurisdiction of an existing city with a resulting change in the boundaries of that city.

**Assisted Housing:** Housing that has been subsidized by Federal, state, or local housing programs.

**Assisted Housing Developments:** Multifamily rental housing that receives governmental assistance under Federal programs listed in subdivision (a) of §65863.10, State and local multifamily revenue bond programs, local redevelopment programs, the Federal Community Development Block Grant Program, or local in-lieu fees. The term also includes multifamily rental units that were developed pursuant to a local inclusionary housing program or used to a quality for a density bonus pursuant to §65915.

**At-Risk Housing:** Multifamily rental housing that is at risk of losing its status as housing affordable for low and moderate-income tenants due to the expiration of Federal, State or local agreements.

**Below-Market-Rate (BMR):** Any housing unit specifically priced to be sold or rented to low- or moderate- income households for an amount less than the fair-market value of the unit. Both the State of California and the U.S. Department of Housing and Urban Development set standards for determining which households qualify as "low income" or "moderate-income." The financing of housing at less than prevailing interest rates.

## San Joaquin County General Plan

---

**California Department of Housing and Community Development - HCD:** The State Department responsible for administering State-sponsored housing programs and for reviewing housing elements to determine compliance with State housing law.

**California Environmental Quality Act (CEQA):** A State law requiring State and local agencies to regulate activities with consideration for environmental protection. If a proposed activity has the potential for a significant adverse environmental impact, an environmental impact report (EIR) must be prepared and certified as to its adequacy before taking action on the proposed project.

**California Housing Finance Agency (CHFA):** A State agency, established by the Housing and Home Finance Act of 1975, which is authorized to sell revenue bonds and generate funds for the development, rehabilitation, and conservation of low- and moderate-income housing.

**Census:** The official United States decennial enumeration of the population conducted by the Federal government.

**Community Development Block Grant (CDBG):** A grant program administered by the U.S. Department of Housing and Urban Development (HUD) on a formula basis for entitlement communities, and by the State Department of Housing and Community Development (HCD) for non-entitled jurisdictions. This grant allots money to cities and counties for housing rehabilitation and community development, including public facilities and economic development.

**Compatible:** Capable of existing together without conflict or ill effects.

**Condominium:** A building or group of buildings in which units are owned individually, but the structure, common areas and facilities are owned by all owners on a proportional, undivided basis.

**Consistent:** Free from variation or contradiction. Programs in the General Plan are to be consistent, not contradictory or preferential. State law requires consistency between a general plan and implementation measures such as the zoning ordinance.

**Contract Rent:** The monthly rent agreed to, or contracted for regardless of any furnishings, utilities, or services that may be included.

**Dedication, In lieu of:** Cash payments that may be required of an owner or developer as a substitute for a dedication of land, usually calculated in dollars per lot, and referred to as in lieu fees or in lieu contributions.

**Density:** The number of dwelling units per unit of land. Density usually is expressed "per acre," e.g., a development with 100 units located on 20 acres has density of 5.0 units per acre.

**Density, Residential:** The number of permanent residential dwelling units per acre of land. Densities specified in the General Plan may be expressed in units per gross acre or per net developable acre.

**Density Bonus:** The allocation of development rights that allows a parcel to accommodate additional square footage or additional residential units beyond the maximum for which the parcel is zoned. Under Government Code Section 65915, a housing development that provides 20 percent of its units for lower income households, or ten percent of its

units for very low-income households, or 50 percent of its units for seniors, is entitled to a density bonus and other concessions.

**Developable Land:** Land that is suitable as a location for structures and that can be developed free of hazards to, and without disruption of, or significant impact on, natural resource areas.

**Development Impact Fees:** A fee or charge imposed on developers to pay for a jurisdiction's costs of providing services to new development.

**Development Right:** The right granted to a land owner or other authorized party to improve a property. Such right is usually expressed in terms of a use and intensity allowed under existing zoning regulation. For example, a development right may specify the maximum number of residential dwelling units permitted per acre of land.

**Dwelling, Multifamily:** A building containing two or more dwelling units for the use of individual households; an apartment or condominium building is an example of this dwelling unit type.

**Dwelling, Single-family Attached:** A one-family dwelling attached to one or more other one-family dwellings by a common vertical wall. Row houses and town homes are examples of this dwelling unit type.

**Dwelling, Single-family Detached:** A dwelling, not attached to any other dwelling, which is designed for and occupied by not more than one family and surrounded by open space or yards.

**Dwelling Unit:** A room or group of rooms (including sleeping, eating, cooking, and sanitation facilities, but not more than one kitchen), that constitutes an independent housekeeping unit, occupied or intended for occupancy by one household on a long-term basis.

**Elderly Household:** As defined by HUD, elderly households are one- or two- member (family or non-family) households in which the head or spouse is age 62 or older.

**Element:** A division or chapter of the General Plan.

**Emergency Shelter:** An emergency shelter is a facility that provides shelter to homeless families and/or homeless individuals on a limited short-term basis.

**Emergency Shelter Grants (ESG):** A grant program administered by the U.S. Department of Housing and Urban Development (HUD) provided on a formula basis to large entitlement jurisdictions.

**Environmental Impact Report (EIR):** A report that assesses all the environmental characteristics of an area and determines what effects or impacts will result if the area is altered or disturbed by a proposed action.

**Fair Market Rent:** The rent, including utility allowances, determined by the United States Department of Housing and Urban Development for purposes of administering the Section 8 Existing Housing Program.

**Family:** One or more persons living together in a dwelling unit, with common access to, and common use of all facilities.

## San Joaquin County General Plan

---

**First-Time Home Buyer:** Defined by HUD as an individual or family who has not owned a home during the three-year period preceding the HUD-assisted purchase of a home. Jurisdictions may adopt local definitions for first-time home buyer programs which differ from non-Federally funded programs.

**General Plan:** The General Plan is a legal document, adopted by the County Board of Supervisors, setting forth policies regarding long-term development, also known as General Plan 2035 for San Joaquin County California law requires the preparation of nine elements or chapters in the General Plan: Land Use, Housing, Circulation, Conservation, Open Space, Noise, Safety, Environmental Justice and Air Quality. Additional elements are permitted, such as Economic Development, Urban Design and similar local concerns.

**Goal:** The ultimate purpose of an effort stated in a way that is general in nature and immeasurable.

**Green Building:** Any building that is sited, designed, constructed, operated, and maintained for the health and well-being of the occupants, while minimizing impact on the environment.

**Gross Rent:** Contract rent plus the estimated average monthly cost of utilities (water, electricity, gas) and fuels (oil, kerosene, wood, etc.) To the extent that these are paid for by the renter (or paid for by a relative, welfare agency, or friend) in addition to the rent.

**Group Quarters:** A facility which houses groups of unrelated persons not living in households (U.S. Census definition). Examples of group quarters include institutions, dormitories, shelters, military quarters, assisted living facilities and other quarters, including single-room occupancy (SRO) housing, where 10 or more unrelated individuals are housed.

**Home Mortgage Disclosure Act (HMDA):** The Home Mortgage Disclosure Act requires larger lending institutions making home mortgage loans to publicly disclose the location and disposition of home purchase, refinance and improvement loans. Institutions subject to HMDA must also disclose the gender, race, and income of loan applicants.

**HOME Program:** The HOME Investment Partnership Act, Title II of the National Affordable Housing Act of 1990. HOME is a Federal program administered by HUD which provides formula grants to States and localities to fund activities that build, buy, and/or rehabilitate affordable housing for rent or home ownership or provide direct rental assistance to low-income people.

**Homeless:** Unsheltered homeless are families and individuals whose primary nighttime residence is a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings (e.g., the street, sidewalks, cars, vacant and abandoned buildings). Sheltered homeless are families and persons whose primary nighttime residence is a supervised publicly or privately operated shelter (e.g., emergency, transitional, battered women, and homeless youth shelters; and commercial hotels used to house the homeless).

**Household:** All those persons—related or unrelated—who occupy a single housing unit.

**Household Income:** The total income of all the persons living in a household. A household is usually described as very low income, low income, moderate-income, and upper income based upon household size, and income, relative to the regional median income.

**Households, Number of:** The count of all year-round housing units occupied by one or more persons. The concept of household is important because the formation of new households generates the demand for housing. Each new household formed creates the need for one additional housing unit or requires that one existing housing unit be shared by two households. Thus, household formation can continue to take place even without an increase in population, thereby increasing the demand for housing.

**Housing and Community Development, Department of (HCD):** The State agency that has principal responsibility for assessing, planning for, and assisting communities to meet the needs of low- and moderate-income households.

**Housing and Urban Development, U.S. Department of (HUD):** A cabinet-level department of the Federal government that administers housing and community development programs.

**Housing Authority, Local (LHA):** Local housing agency established in State law, subject to local activation and operation. Originally intended to manage certain Federal subsidies, but vested with broad powers to develop and manage other forms of affordable housing.

**Housing Problems:** Defined by HUD as a household which: (1) occupies a unit with physical defects (lacks complete kitchen or bathroom); (2) meets the definition of overcrowded; or (3) spends more than 30% of income on housing cost.

**Housing Subsidy:** Housing subsidies refer to government assistance aimed at reducing housing sales or rent prices to more affordable levels. Two general types of housing subsidy exist. Where a housing subsidy is linked to a particular house or apartment, housing subsidy is “project” or “unit” based. In Section 8 rental assistance programs the subsidy is linked to the family and assistance provided to any number of families accepted by willing private landlords. This type of subsidy is said to be “tenant based.”

**Housing Unit:** The place of permanent or customary abode of a person or family. A housing unit may be a single-family dwelling, a multifamily dwelling, a condominium, a modular home, a mobile home, a cooperative, or any other residential unit considered real property under State law. A housing unit has, at least, cooking facilities, a bathroom, and a place to sleep. It also is a dwelling that cannot be moved without substantial damage or unreasonable cost.

**Impact Fee:** A fee, also called a development fee, levied on the developer of a project by a city, county, or other public agency as compensation for otherwise-unmitigated impacts the project will produce.

**Inclusionary Zoning:** Provisions established by a public agency to require that a specific percentage of housing units in a project or development remain affordable to very low-, and low-, or moderate-income households for a specified period.

**Implementation Program:** An action, procedures, program, or technique that carries out general plan policy. Implementation programs also specify primary responsibility for carrying out the action and a time frame for its accomplishment.

**Income Category:** Four categories are used to classify a household according to income based on the median income for the county. Under State housing statutes, these categories are defined as follows: Very Low (0-50% of County median); Low (50-80% of County median); Moderate (80-120% of County median); and Upper (over 120% of County median).

## San Joaquin County General Plan

---

**Infill Development:** Development of vacant land (usually individual lots or left-over properties) within areas that are already largely developed.

**Jobs/Housing Balance; Jobs/Housing Ratio:** The availability of affordable housing for employees. The jobs/housing ratio divides the number of jobs in an area by the number of employed residents. A ratio of 1.0 indicates a balance. A ratio greater than 1.0 indicates a net in-commute; less than 1.0 indicates a net out-commute.

**Jobs/Housing Linkage Fee:** Fee that local governments place on new employment-generating development to offset the impact that new employment has on housing needs within a community.

**Large Household:** A household with 5 or more members.

**Lease:** A contractual agreement by which an owner of real property (the lessor) gives the right of possession to another (a lessee) for a specified period of time (term) and for a specified consideration (rent).

**Low-income Housing Tax Credits:** Tax reductions provided by the Federal and State governments for investors in housing for low-income households.

**Manufactured Housing:** Housing that is constructed of manufactured components, assembled partly at the site rather than totally at the site. Also referred to as modular housing.

**Market-Rate Housing:** Housing which is available on the open market without any subsidy. The price for housing is determined by the market forces of supply and demand and varies by location.

**Mean:** The average of a range of numbers.

**Median:** The mid-point in a range of numbers.

**Median Income:** The annual income for each household size within a region which is defined annually by HUD. Half of the households in the region have incomes above the median and half have incomes below the median.

**Mitigate, v.:** To ameliorate, alleviate, or avoid to the extent reasonably feasible.

**Mixed-use:** Properties on which various uses, such as office, commercial, institutional, and residential, are combined in a single building or on a single site in an integrated development project with significant functional interrelationships and a coherent physical design. A "single site" may include contiguous properties.

**Mobile Home:** A structure, transportable in one or more sections, built on a permanent chassis and designed for use as a single-family dwelling unit and which (1) has a minimum of 400 square feet of living space; (2) has a minimum width in excess of 102 inches; (3) is connected to all available permanent utilities; and (4) is tied down (a) to a permanent foundation on a lot either owned or leased by the homeowner or (b) is set on piers, with wheels removed and skirted, in a mobile home park.

**Mortgage Revenue Bond (MRB):** A state, county or city program providing financing for the development of housing through the sale of tax-exempt bonds.

**Multifamily Dwelling Unit:** A building or part thereof designed for or occupied by two or more families living independently of each other, including duplexes, triplexes, quadplexes, apartments, and condominiums.

**Overcrowding:** Households or occupied housing units with 1.01 or more persons per room.

**Parcel:** A lot in single ownership or under single control, usually considered a unit for purposes of development.

**Physical Defects:** A housing unit lacking complete kitchen or bathroom facilities (U.S. Census definition). Jurisdictions may expand the Census definition in defining units with physical defects.

**Poverty Level:** As used by the U.S. Census, families and unrelated individuals are classified as being above or below the poverty level based on a poverty index that provides a range of income cutoffs or "poverty thresholds"

varying by size of family, number of children, and age of householder. The income cutoffs are updated each year to reflect the change in the Consumer Price Index.

**Project-Based Rental Assistance:** Rental assistance provided for a project, not for a specific tenant. A tenant receiving project-based rental assistance gives up the right to that assistance upon moving from the project.

**Public Housing:** A project-based low-rent housing program operated by independent local public housing authorities. A low-income family applies to the local public housing authority in the area in which they want to live.

**Quantified Objective:** The housing element must include quantified objectives which specify the maximum number of housing units that can be constructed, rehabilitated, and conserved by income level within a five- year time frame, based on the needs, resources, and constraints identified in the housing element (§65583 (b)). The number of units that can be conserved should include a subtotal for the number of existing assisted units subject to conversion to non-low-income households. Whenever possible, objectives should be set for each particular housing program, establishing a numerical target for the effective period of the program. Ideally, the sum of the quantified objectives will be equal to the identified housing needs. However, identified needs may exceed available resources and limitations imposed by other requirements of State planning law. Where this is the case, the quantified objectives need not equal the identified housing needs, but should establish the maximum number of units that can be constructed, rehabilitated, and conserved (including existing subsidized units subject to conversion which can be preserved for lower- income use), given the constraints.

**Redevelop:** To demolish existing buildings; or to increase the overall floor area existing on a property; or both; irrespective of whether a change occurs in land use.

**Regional Housing Needs Plan (RHNP):** The Regional Housing Needs Plan (RHNP) is based on State of California projections of population growth and housing unit demand and assigns a share of the region's future housing need to each jurisdiction within the AMBAG (Association of Monterey Bay Area Governments). These housing need numbers serve as the basis for the update of the Housing Element in each California city and county.

**Regional Housing Needs Share:** A quantification by a COG or by HCD of existing and projected housing need, by household income group, for all localities within a region.

## San Joaquin County General Plan

---

**Rehabilitation:** The repair, preservation, and/or improvement of substandard housing.

**Residential, Multifamily:** Usually three or more dwelling units on a single site, which may be in the same or separate buildings.

**Residential, Single-family:** A single dwelling unit on a building site.

**Rezoning:** An amendment to the map and/or text of a zoning ordinance to effect a change in the nature, density, or intensity of uses allowed in a zoning district and/or on a designated parcel or land area.

**Second Unit Dwelling:** Means a detached or attached dwelling unit, not including a mobile home, that is located on the same parcel as a primary single-family dwelling, is clearly subordinate in size to said primary single family dwelling, and is subject to the requirements in Chapter 9-830M (San Joaquin Development Title).

**Section 8 Rental Assistance Program:** A Federal (HUD) rent-subsidy program that is one of the main sources of Federal housing assistance for low-income households. The program operates by providing "housing assistance payments" to owners, developers, and public housing agencies to make up the difference between the "Fair Market Rent" of a unit (set by HUD) and the household's contribution toward the rent, which is calculated at 30 percent of the household's adjusted gross monthly income (GMI). Section 8 includes programs for new construction, existing housing, and substantial or moderate housing rehabilitation.

**Seniors:** Persons age 65 and older.

**Service Needs:** The particular services required by special populations, typically including needs such as transportation, personal care, housekeeping, counseling, meals, case management, personal emergency response, and other services preventing premature institutionalization and assisting individuals to continue living independently.

**Site:** A parcel of land used or intended for one use or a group of uses and having frontage on a public or an approved private street. A lot.

**Small Household:** Pursuant to HUD definition, a small household consists of two to four non-elderly persons.

**Special Needs Groups:** Those segments of the population which have a more difficult time finding decent affordable housing due to special circumstances. Under California Housing Element statutes, these special needs groups consist of the elderly, handicapped, large families, female-headed households, farmworkers and the homeless. A jurisdiction may also choose to consider additional special needs groups in the Housing Element, such as students, military households, other groups present in their community.

**Subdivision:** The division of a tract of land into defined lots, either improved or unimproved, which can be separately conveyed by sale or lease, and which can be altered or developed.

**Subdivision Map Act:** Section 66410 et seq. of the California Government Code, this act vests in local legislative bodies the regulation and control of the design and improvement of subdivisions, including the requirement for tentative and final maps.

**Subsidize:** To assist by payment of a sum of money or by the granting of terms or favors that reduce the need for monetary expenditures. Housing subsidies may take the forms of mortgage interest deductions or tax credits from Federal and/or State income taxes, sale or lease at less than market value of land to be used for the construction of housing, payments to supplement a minimum affordable rent, and the like.

**Substandard Housing:** Residential dwellings that, because of their physical condition, do not provide safe and sanitary housing.

**Substandard, Suitable for Rehabilitation:** Substandard units which are structurally sound and where the cost of rehabilitation is economically warranted.

**Substandard, Needs Replacement:** Substandard units which are structurally unsound and for which the cost of rehabilitation is considered infeasible, such as instances where the majority of a unit has been damaged by fire.

**Supportive Housing:** Housing with a supporting environment, such as group homes or Single Room Occupancy (SRO) housing and other housing that includes a supportive service component such as those defined below.

**Supportive Services:** Services provided to residents of supportive housing for the purpose of facilitating the independence of residents. Some examples are case management, medical or psychological counseling and supervision, child care, transportation, and job training.

**Tenant-Based Rental Assistance:** A form of rental assistance in which the assisted tenant may move from a dwelling unit with a right to continued assistance. The assistance is provided for the tenant, not for the project.

**Transient Occupancy Buildings:** Buildings that have an occupancy of 30 days or fewer, such as boarding houses, hospices, hostels, and emergency shelters.

**Transitional Housing:** Transitional housing is temporary (often six months to two years) housing for a homeless individual or family who is transitioning to permanent housing. Transitional housing often includes a supportive services component (e.g. job skills training, rehabilitation counseling, etc.) to allow individuals to gain necessary life skills in support of independent living.

**Universal Design:** The creation of products and environments meant to be usable by all people, to the greatest extent possible, without the need for adaptation or specialization.

**U.S. Department of Housing and Urban Development (HUD):** The cabinet level department of the Federal government responsible for housing, housing assistance, and urban development at the national level. Housing programs administered through HUD include Community Development Block Grant (CDBG), HOME and Section 8, among others.

**Vacant:** Lands or buildings that are not actively used for any purpose.

**Zoning:** The division of a city or county by legislative regulations into areas, or zones, which specify allowable uses for real property and size restrictions for buildings within these areas; a program that implements policies of the General Plan.
