

ZONING COMPLIANCE REVIEW STOCKTON METROPOLITAN AIRPORT

SAN JOAQUIN COUNTY COMMUNITY DEVELOPMENT DEPARTMENT
1810 E. HAZELTON AVENUE, STOCKTON CA 95205
BUSINESS PHONE: (209) 468-3121
Business Hours: 8:00 a.m. to 5:00 p.m. (Monday through Friday)

APPLICATION PROCESSING STEPS

STEP 1 CHECK WITH STAFF - Development Services Staff will explain the requirements and procedures to you.

STEP 2 SUBMIT YOUR APPLICATION - When you apply, file all of the following:

- **FEE** The staff will let you know the current cost of filing a Site Improvement Plan. Make checks payable to the San Joaquin County Treasurer.
- **FORM** Ten (10) copies of the completed information forms (attached) which all owners must sign.
- **IMPROVEMENT PLAN** Ten (10) copies of a Site Improvement Plan, 24" x 36" (see attached checklist and sample). This is an engineered plan showing drainage, grading, access, on- and off-site service and utility facilities, landscaping, circulation/parking details, etc.
- **HAZARDOUS MATERIALS** One copy of a completed Hazardous Materials Disclosure Survey form (a copy of the form is attached).
- **PLAN COMPLETE** Staff will check your Site Improvement plan. If anything is missing, you will be notified. (Your plan cannot be processed until it is complete.)

STEP 3 PROCESSING

- **REVIEW AND ACTION** Staff will route the Site Improvement Plan to the Stockton Metropolitan Airport Design Review Committee (SMADRC). At the end of a review period the SMADRC will approve your Site Improvement Plan if the plan conforms to the adopted Airport Special Purpose Plan. If the plan needs to be modified, you will be so informed.
- **FINAL ACTION** The action of the staff is final. If the Site Improvement Plan is found inconsistent with the Airport Special Purpose Plan, you have three options;
 1. Correct the inconsistencies and resubmit the application;
 2. Apply for an Amendment to the Special Purpose Plan; or
 3. Appeal the denial to the Planning Commission.

STEP 4 REQUIREMENTS AND ADDITIONAL PERMITS

- **REQUIREMENTS** The staff will advise you of the final action and list requirements, by department, that must be met before you can start your project.
- **DRIVEWAY PERMITS** Driveway Permits must be acquired from the Public Works Department for any work performed within the road right of way. If the project fronts on a state highway these permits are obtained from Caltrans.
- **BUSINESS LICENSES** If the project involves a business, a Business License must be approved prior to starting operation. Business License applications can be processed concurrently with the Site Improvement Plan.
- **BUILDING PERMITS** If the project involves construction a building permit must be approved prior to commencement of work.

STOCKTON METROPOLITAN AIRPORT

SAN JOAQUIN COUNTY COMMUNITY DEVELOPMENT DEPARTMENT

FILE NUMBER: PA-_____

AUTHORIZATION SIGNATURES

ONLY THE OWNER OF THE PROPERTY OR AN AUTHORIZED AGENT MAY FILE AN APPLICATION

I, the Owner/Applicant/Agent agrees to indemnify, defend (with counsel reasonably approved by County), and hold harmless the County and its officers, officials, employees, agents, boards and commissions (collectively "County") as follows:

1. INDEMNITY:

- A. From and against any and all claims, demands, actions, proceedings, lawsuits, losses, damages, judgments and/or liabilities arising out of, related to, or in connection with the application and applied for project or to attack, set aside, void, or annul, in whole or in part, an approval of the applied for project by the County, the adoption of environmental review documents related to the applied for project, and any related development approvals or project conditions for the applied for project (hereinafter "Claim");
- B. For any and all costs and expenses incurred by the County on account of any Claim, except where such indemnification is prohibited by law, including but not limited to damages, costs, expenses, attorney's fees, or expert witness costs that may be asserted by any person or entity, private attorney general fees claimed by or awarded to any party against the County, and the County's costs incurred in preparing an administrative record which are not paid by the petitioner.
- C. Except as to the County's sole negligence or willful misconduct.

2. DEFENSE:

- A. The County may participate or direct the defense of any Claim. The County's actions in defense of any claim shall not relieve me of any obligation to indemnify, defend, and hold harmless the County.
- B. In the event of a disagreement between County and me regarding defense of any Claim, the County shall have the authority to control the litigation and make litigation decisions, including, but not limited to, the manner in which the defense is conducted.
- C. If the County reasonably determines that having common counsel presents such counsel with a conflict of interest, or if I fail to promptly assume the defense of any Claim or to promptly employ counsel reasonably satisfactory to the County, then County may utilize the Office of the County Counsel or employ separate outside counsel to represent or defend the County, and I shall pay the reasonable attorneys' fees and costs of such counsel.

I, further, certify under penalty of perjury that I am (check one):

- Legal property owner (owner includes partner, trustee, trustor, or corporate officer) of the property(s) involved in this application, or
- Legal agent (attach proof of the owner's consent to the application of the properties involved in this application) and have been authorized to file on their behalf, and that the foregoing application statements are true and correct.

ZONING COMPLIANCE REVIEW

STOCKTON METROPOLITAN AIRPORT

SAN JOAQUIN COUNTY COMMUNITY DEVELOPMENT DEPARTMENT

FILE NUMBER: PA-_____

The applicant is a tenant at the Stockton Metropolitan Airport and has sufficient interest in the subject property to file this application. I have reviewed the intended use and approve the operation subject to approval of the design review committee.

Print Name: _____ Signature: _____

Airport Director

Date: _____

SITE PLAN CHECK LIST

Purpose: The purpose of the Community Development Department application approval process is to provide a single coordinated approval process for single or multi-building proposals in conformance with the Stockton Airport Special Purpose Plan.

Process: The specified plans, diagrams and documents are submitted to the San Joaquin County Community Development Department (CDD) to begin the review and approval process. The CDD will review the application for completeness, and forward it to additional required approving bodies, including the Stockton Metropolitan Airport Design Review Committee, the Federal Aviation Agency, and any additional required agencies. If the submittal is found to be consistent with the Special Purpose Plan and meets the additional approving agency requirements, it will be approved and the applicant may apply for a building permit. If the Application is found to have significant inconsistencies with the Special Purpose Plan or other agency codes and regulations, the CDD will deny the application and inform the applicant in writing of the specific inconsistencies. The applicant may then, a) correct the inconsistencies and resubmit the application, b) apply for an amendment to the Special Purpose Plan, or, c) appeal the denial to the Planning Commission, and ultimately the County Board of Supervisors.

Submittal Requirements:

- Plans, diagram and documents including but not limited to the following:

Vicinity Map

- Indicate the vicinity and location of the project site in south Stockton.

Context Maps

- Indicate the site plan area within the overall context of the Stockton Metropolitan Airport development area, showing all major streets, major pedestrian amenities, major open spaces, and visual corridors.
- Define the context including wind and solar orientation, access points, and edge conditions.
- Transit facilities.

Development Site Plan

- Delineate and dimension all property lines.
- Location, configuration, and setback of all existing and proposed buildings including the location of primary and secondary entries.
- Identify all intended uses for the buildings and the site (and all uses within the building), including occupancy classification, and type of construction as identified in the Uniform Building Code. For multiple use or flex buildings, indicate the range of expected uses.
- Layout and dimension and number all onsite parking (including surface and structured handicap spaces, and loading/unloading zones).
- Identify and dimension all vehicle circulation areas including driveways, curb cuts, service areas and dock facilities. Identify all delivery and truck routes.
- Identify and dimension all public and private pedestrian ways and open spaces.
- Locate all areas and types of fencing as appropriate.
- Identify any restrictions or easements on the property.
- Show the location of all proposed fire hydrants within 500 feet of the project site.
- Show the location of all proposed detached loading and storage facilities including areas for temporary storage of air cargo containers.
- Provide all site statistics including floor area ratios, building coverage, open space area, percentage of landscape to lot area, and types of uses (retail, office, R&D, air cargo, distribution, etc.).
- Indicate street widths and lane configurations conforming to the traffic analysis.

Open Space Diagram/Landscape Plan

- Provide a detailed conceptual landscape plan showing all open spaces, plazas, trails, pedestrian routes, street landscaping, site landscaping, and other distinctive landscaping features and amenities.
- Provide plant palette for trees, shrubs, groundcover, and grasses including a character image board.
- Provide a hardscape, feature, and amenity palette including a character image board.

Phasing Diagram

- Provide a phasing program and plan delineating the buildings, associated parking, open spaces, features and amenities, landscape, and infrastructure development as appropriate.
- Provide proposed square footage per phase as a percentage of the overall square footage.

SITE PLAN CHECK LIST

SITE PLAN CHECK LIST (Continued)

Architectural Drawings

- Provide dimensioned floor plans indicating all areas of intended use, all projections and overhangs, and finish floor elevations.
- Provide building sections and dimension floor-to-floor heights and overall building heights. Show relationships between single and multiple height spaces as appropriate.
- Provide elevations showing each side of all proposed buildings. Dimension window, door, and dock heights as well as all projections and overhangs. Identify all materials.
- Provide a material and color sample board showing all proposed materials and colors and their juxtaposition.
- Provide one or more color rendering(s) indicating the overall building and site composition, open spaces, as well as building and Landscape materials and character.

Elements should show variety and diversity relating to:

- Building floor plates, architectural form, fenestration, materials, color, height, and massing
- Design of pedestrian-oriented outdoor spaces relating to the buildings
- Design of individual building entries
- Design of landscape amenities

Statement of Conformity

- Identify and communicate the approach to each aspect of the design and how it addresses the goals and objectives of the Special Purpose Plan Development Standards and Design Guidelines including but not limited to:
 - Overall site planning
 - Off-site and on-site vehicle circulation
 - Building size, location, footprint and character
 - Parking
 - Pedestrian pathways, sidewalks and access
 - Bicycle pathways, access and storage
 - Landscaping hardscape, softscape and amenities
 - Utilities
 - Service, loading and storage areas
 - Transit stops/connections to alternative transportation
 - Signage
 - Lighting
 - Street and site furnishings
- Describe any exceptions requested from the Development Standards and Design Guidelines and why it is warranted by the design and amenities incorporated.
- Include special project goals, such as dedication of open space or unique development or design concepts.

Grading/Drainage/Utility Plans

- Provide a preliminary grading plan showing rough grading of the project site, street curb grades and high and low points, and an estimate of earthwork quantities.
- Provide a preliminary drainage plan showing overland release routing and detention facilities.
- Provide water, sewer, and storm drainage master plans showing sizes and inverts of storm drain and sanitary sewer lines.
- Provide electrical, telephone and data cabling master plans indicating the proposed levels of service.
- Provide all street widths and lane configurations of streets impacted by the proposed development.

SITE PLANS MUST BE COMPLETE AND LEGIBLE

- Before applying, check your Site Plan to make sure that it contains all of the information cited above. You are encouraged to have one of our counter staff review your draft Site Plan prior to having copies run.
- Faint prints and light blue lines will not be accepted because they cannot be reproduced or microfilmed.

HAZARDOUS MATERIALS DISCLOSURE SURVEY

Please read the information on the reverse side before completing this survey form. A separate survey for each business name and/or address in San Joaquin County is required.

Business Name: _____

Business Owner(s) Name: _____ Telephone: _____

Business Address: _____

Mailing Address (if different from above): _____

Nature of Business: _____ Fire District: _____

Q1. Yes No Does your business handle a hazardous material in any quantity at any one time in the year? See the definition of hazardous material on the back of this form. If your answer is No," go to Question 4.

Q2. Yes No Does your business handle a hazardous material, or a mixture containing a hazardous material in a quantity equal to or greater than 55 gallons, 500 pounds, or 200 cubic feet at any one time in the year?

If "Yes," how long have you handled these materials at your business? _____

If "Yes," check any of the following conditions that applies to your business.

- A. The hazardous materials handled by this business is contained solely in a consumer product, packaged for direct distribution to, and use by, the general public.
- B. This business is a health care facility (doctor, dentist, veterinary, etc.) and uses only medical gases.
- C. This business operates a farm for purposes of cultivating the soil, raising, or harvesting an agricultural or horticultural commodity.

Q3. Yes No Does your business handle an **acutely hazardous material**? See definition on reverse side of this form.

Q4. Yes No Is your business within 1,000 feet of the outer boundary of a school (grades K-12)?

I have read the information on this form and understand my requirements under Chapter 6.95 of the California Health and Safety Code. I understand that if I own a facility or property that is used by tenants, that it is my responsibility to notify the tenants of the requirements which must be met prior to issuance of a Certificate of Occupancy or beginning of operations. I declare under the penalty of perjury that the information provided on this disclosure survey is true and accurate to the best of my knowledge.

SAN JOAQUIN COUNTY HAZARDOUS MATERIALS PROGRAM

This survey form is intended to identify businesses, which need to comply with the hazardous materials emergency planning and reporting requirements of Chapter 6.95 of the California Health and Safety Code. This statute requires businesses, which handle hazardous materials to prepare emergency plans for their employees' use in an emergency. Businesses must submit a copy of this plan, along with annual inventory of their hazardous materials, to public agencies for use in protecting emergency responders and the public. In San Joaquin County, the Office of Emergency Services (OES) has been designated to administer this program. Should you have any questions on this program or this form, please call that office at (209) 468-3969.

Please consider the following guidelines when completing the questions on the front of this form.

Question 1:

The law defines "**hazardous material**" for purposes of this program as any material that, because of its quantity, concentration, or physical or chemical characteristics, poses a significant present or potential hazard to human health and safety or to the environment if released into the work place or the environment. This includes, but is limited to, fuels, petroleum products, paints, propane, oxygen, ammonia, chlorine, pesticides, fertilizers, and hazardous wastes. Answer "Yes" if you use a material that meets that definition in any quantity at least once in the year. If you are unsure, contact our office at (209) 468-3969 for assistance. If you answer "No" and at a later date your business, or a tenant on your property, begins handling hazardous materials, you must inform the Office of Emergency Services within 30 days.

Question 2:

If you answer "Yes," you must meet the requirements of Chapter 6.95 of the California Health and Safety Code. Our office will be contacting you to provide assistance. These requirements must be met prior to issuance of a certificate of occupancy. If you answer "No," our office may conduct an inspection after you begin operations to verify your exemption.

The statutes establish some modified requirements or program exemptions for certain uses of hazardous materials. If you answered "Yes" to questions 1 and 2, determine whether your business meets one of the following conditions. Then mark the appropriate boxes on the front of this form. Our office will contact you to make a final determination of these exemptions.

- A. Retail Exemption: Products packaged for direct distribution to the general public are exempt from the program. This exemption may not apply if 1) the quantity handled creates an unacceptable public hazard; 2) the material is being used directly by the business as part of its operations in addition to being sold to the general public; or 3) the general public does not have ready access to the product as it is stored by the business, e.g., in a warehouse.
- B. Medical Exemption: Medical offices which use only oxygen and/or nitrous oxide in quantities less than 1,000 cubic feet are required to meet modified requirements.
- C. Farm Exemption: Farms, as defined in the question, must meet modified program requirements. The definition of farm in the law does not include businesses providing commercial pest control services, fertilizer application services, product processing services, or packing shed services for farmers. Farms qualifying for exemption are still required to submit an annual chemical inventory and fee to the County Agricultural Commissioner's Department along with other requirements. Please contact the County Agricultural Commissioner's Department for further information. Businesses operating a commercial business in addition to a farm as defined must comply with the HMMP program for those materials associated with the commercial business.

Question 3:

The Federal and State governments have defined approximately 366 chemicals as "Acutely Hazardous Materials" (AHM). The most common "AHMs" used in the County include chlorine, ammonia, sulfuric acid, methyl bromide, acrolein, sulfur dioxide, formaldehyde, nitric acid, vinyl acetate monomer, hydrogen peroxide, and many types of pesticides. Answer "Yes" if you use any of these specific chemicals in any quantity at any one time of the year. Call our office for assistance if you are unsure.

Question 4:

Answer "Yes" if the boundary of your property or facility will be within 1,000 feet of the boundary of a school (K thru 12).
