Maps depicting Williamson Act enrollment are produced by the California Department of Conservation, Division of Land Resource Protection, in cooperation with participating local jurisdictions. Data reflects the most recent Geographic Information Systems (GIS) or hardcopy maps submitted to the Department by county planning agencies and/or assessor offices. While most data reflects enrollment status as of January 2016, actual dates vary by county. As the status of enrolled lands may change throughout the year, please contact the local jurisdictions directly to obtain current site specific information.

Cultural base information was derived from public domain data sets, based upon design of the U.S. Geological Survey, with updates generated by digitizing over current imagery.
