

Moulage Training Registration Form

(Please Print)

Registration Options:

- Online at <http://www.sjgov.org/ems> on the main page under "what would you like to do" find upcoming events
- Mail this registration form to:
San Joaquin County EMS Agency
PO Box 220
French Camp, CA 95231
- E-mail the information on this form to ctuala@sjgov.org with the class title as the subject matter

Agency/Organization Name:

First Name:

Last Name:

Address:

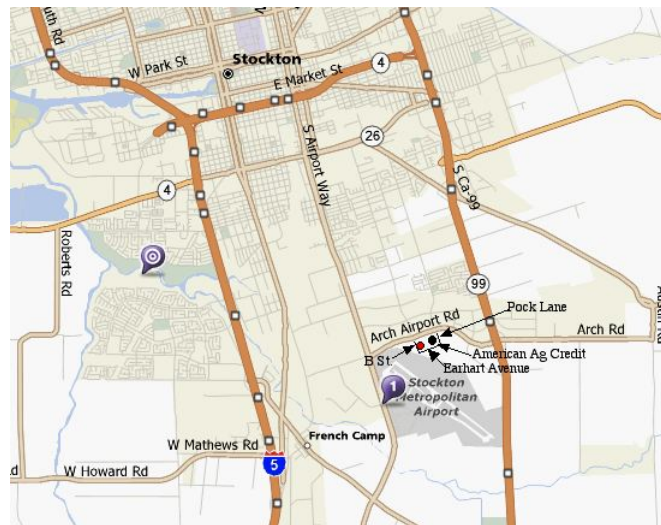

Phone Number:

E-Mail:

In compliance with the Americans with Disabilities Act, individuals needing special accommodations should notify the meeting organizers at least two weeks prior to the workshop.

Location

San Joaquin County
Agricultural Center
Calaveras Room
2101 E. Earhart Ave.
Stockton, CA 95206

San Joaquin County
Emergency Medical
Services Agency
Presents

**"Moulage– The Art of Injury
Simulation" Course
By
Image Perspectives
"The Injury Simulation People"**

May 3-7, 2010

8:00 AM to 5:00 PM

At:

**San Joaquin County
Agricultural Center
Calaveras Room
2101 E. Earhart Ave.
Stockton, CA 95206**

This course is **FREE** to all San Joaquin
County HPP Participating Healthcare
Facilities & Organizations

**Funded by the 09/10 FY
Hospital Preparedness Program (HPP)
Grant.**

Agenda

DAY ONE: Monday, May 3, 2010

- ◆ **Introduction to moulage materials and tools.**
- ◆ **Working with Effects gel/geleffects and skin-tone makeup:**
Create the basic simulation piece. Application of the basic piece to the skin; blending edges. Application of makeup to match skin tone; tricks and techniques. "Setting" the makeup. Removal of the simulation.
- ◆ **Create minor wounds using Effects Gel/geleffects:**
Scratches. Minor lacerations. Abrasions. 3D abrasions, closed fractures (angulation, swelling, hematoma).
- ◆ **Latex & geleffects:** blood tumor hematoma.
- ◆ **Sculpy:** Creating bones.

DAY TWO: Tuesday, May 4, 2010

- ◆ **Advanced Soft-tissue wounds:** Fat and muscle tissue, using Effects Gel/geleffects, deep lacerations, open fractures, large open wounds, gunshot entrance/exit wounds, sucking chest wound with demonstration.
- ◆ **Using makeup:** Shock (cyanosis, diaphoresis). Contusions/peripheral

DAY THREE: Wed., May 5, 2010

- ◆ **Using Effects Gel/geleffects:** Avulsion with skin flap. Blisters for 2nd degree burn.
- ◆ **W M D Simulations: Biological** - Rash (erythema), smallpox, anthrax, plague, etc. **Chemical** - Vesicants (blistering agents), nerve agents, chemical burns, etc.
- ◆ **Burns:** Using "DermaCrisp" to create full-thickness fire/explosion burns with crisp, black skin. Second degree burns using effects gel blisters and creation of broken blisters and peeling skin. Makeup to create first degree burns.

DAY FOUR: Thursday, May 6, 2010

- ◆ **Impaled Objects**
- ◆ **Amputation of arm at elbow/leg at knee**
- ◆ **Discussion demonstration:** amputation of arm at shoulder, partial amputations, using prosthetics
- ◆ **Special effects discussion:** Salivation, rhinorrhea, diaphoresis, tearing, vomit, etc. Bleeding injuries using blood pumps. Mouth and dental trauma.
- ◆ **Special effects demo including:** "real time" bleeding. Smoke and electrical simulation.

DAY FIVE: Friday, May 7, 2010

- ◆ **Moulage—Enhances Techniques:** MCI moulage set up and orchestration, additional moulage tips, tricks and shortcuts, and use of prosthetics to create advanced injuries.

Image Perspectives' Moulage Process

The basic material we use to create our soft tissue injuries is **very inexpensive**, it costs only pennies per simulation. If someone walks off with a simulation **it can be recreated in a matter of minutes!** You are not limited to mass-produced latex or plastic "one-size-fits-all injuries". You determine the type, scope and size of the injuries and **create as many as you wish, in whatever size you need.** Our simulations **can be handled and bandaged**, with care, as you would a real injury. The simulations will not shift and/or be damaged. When bandages are removed, the injury simulation will remain intact. The simulations can be made **liquid-proof**, and with care - **reusable!**

Target Audience

This training course is intended for the hospital and pre-hospital care providers.

Register Early
Space is limited to 12 people
