

SPEED HUMP/CUSHION PETITION

Supervisorial District _____

Petitioner requests the installation of speed humps / speed cushions on

_____ (street), between the streets of _____ and _____.

Petitioner

I will act as the petitioner between the neighborhood residents and county staff. Duties of the petitioner include the collection of signatures from all homes on the street and possibly parallel streets, and to serve as the point person throughout the process.

By signing this Petition, I acknowledge that I have read the Speed Hump Policy and the Frequently Asked Questions and I fully understand the process.

I understand that speed humps may result in a slower response time for emergency vehicles. I understand that speed humps increase noise levels due to:

- Acceleration and deceleration of vehicles
- Trucks with loads that bounce

Name: _____

Address: _____
House Number and Street Name, City, Zip Code

Phone Number: _____

Email: _____

Date: _____

Return signed Speed Hump Petition to:
San Joaquin County Department of Public Works
Transportation Engineering Division
1810 East Hazelton Avenue, Stockton, CA 95205
Telephone: (209) 468-3028
Email: speedhump@sjgov.org

Your petition will be reviewed by traffic engineering staff and you will be notified whether or not your street segment meets the minimum qualifications for a speed hump.
