San Joaquin County Registrar of Voters Certifies 2020 Election Results
County Attains a Record 80.04 Percent Voter Turnout

STOCKTON, CA – The San Joaquin County Registrar of Voters (ROV) office officially certified the November 3, 2020 General Election results. The final turnout for this election totaled 292,818 ballots cast, representing 80.04 percent of the 365,839 registered voters in San Joaquin County.

“Over 80 percent of registered voters exercised their right to vote and made their voices heard. This level of participation is extraordinary in San Joaquin County and easily eclipsed both the March Primary Election at 34 percent and the 2016 Presidential General Election at 68 percent,” said San Joaquin County Registrar of Voters, Melinda Dubroff. “Voters were particularly engaged this election – not only by casting their ballots in record numbers, but also through volunteering locations for Official Ballot Drop Boxes, serving at Voter Service Centers, contacting our office for trusted information, and by observing at the ROV offices.”

The official tally of certified ballots provides a good cross section of what methods of voting were preferred during the November 2020 General Election:

- 264,693 Vote-by-Mail ballots
- 5,985 In-person ballots cast 3-days prior to Election Day Voter Service Centers
- 13,925 In-person ballots cast on Election Day
- 8,215 Conditional Voter Registration and Provisional Ballots (includes same-day registration)

Total: 292,818

"It’s absolutely astounding and gratifying to see so many people turn out, especially during a worldwide pandemic. I hope it is a trend that will continue for years to come,” Dubroff concluded.

With the certification of the results of the 2020 Presidential General Election complete, the ROV will present the certified results to the Board of Supervisors on Tuesday, December 8th.

The certified election results can be viewed on the County's ROV website.
