The Project site is located on Assessor Parcel Numbers (APNs) 213-06-012 and 213-06-013. The Project site is not included on the lists of sites enumerated under Section 65962.5 of the Government Code (Hazardous Waste and Substances Site List maintained by the Department of Toxic Substances Control).

**PROJECT DESCRIPTION:** The Project site includes three distinct planning boundaries defined below. The following terms are used throughout this document to describe the planning boundaries within the Project site: (1) Project Site – totals 52.7 acres and includes the whole of the Project, including the Remediation Area and the Development Area. (3) Remediation Area – includes approximately 10.2 acres along the southern site boundary which contains soils that will be removed and remediated as part of the Project. Following remediation, the Remediation Area will be developed as part of the Development Area with two industrial warehouse type uses; and a portion of the Remediation Area will be dedicated to the City of Tracy for the future extension of Chrisman Road.

The proposed project would include development of two general light industrial warehouse buildings totaling 718,165 square feet (sf). Building A would be 466,977 sf and Building B would be 251,188 sf. One-hundred-and-six dock doors would be located along the east and west sides of Building A (38 dock doors on each side) and the east side of Building B (30 dock doors).

Parking would be provided throughout the Development Area, including 322 automobile stalls, 247 trailer stalls, and 22 bicycle parking stalls. Landscaping, including trees, street frontage plantings, accent shrubs and groundcover plantings, native shrub and grass mixes, and screening shrubs would be provided throughout the Development Area. Temporary landscaping would be placed between Building B and Chrisman Road. An exterior amenity area for employees would be included in the northern portion of the Development Area between the proposed warehouse buildings. The amenity area would include outdoor seating, picnic areas, bike parking, and landscaping. The eastern-most corner of the Project site will continue to be utilized as agricultural land until future roadway improvements are completed (by others).
