INDEPENDENT AUDITORS' REPORT

Honorable Board of Supervisors
County of San Joaquin
Stockton, California

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of San Joaquin, California (the County) as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County, as of June 30, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the Health Plan of San Joaquin (a discretely presented component unit) or the San Joaquin County Employees' Retirement Associate (pension trust fund), which represent the following percentages of the assets, fund balance or net position, and revenues of the opinion units listed below as of June 30, 2023.

Opinion Unit	Assets	Fund Balance / Net Position	Revenues
Aggregate Remaining Fund Information	50%	50%	1%
Aggregate Discretely Presented Component Unit	99%	99%	99%

Those statements were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as it relates to the amounts included for the Health Plan of San Joaquin and the San Joaquin County Employees' Retirement Associate, are based solely on the report of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

Change in Accounting Principle

As discussed in Note 1B of the financial statements, effective July 1, 2022, the County adopted new accounting guidance for subscription-based information technology arrangements (SBITA). The guidance requires entities to recognize a right-to-use subscription-based asset and corresponding SBITA liability for all SBITAs with terms greater than twelve months. Our opinion is not modified with respect to this matter.

Prior Period Adjustment

As discussed in Note 17 of the financial statements, prior period adjustments were recorded for the correction of errors in prior year financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedules of the County's proportionate share of the net pension liabilities, schedules of the County's contributions to the pension plans, schedule of the changes in the total other postemployment benefits (OPEB) liability, and budgetary comparison schedules for the General Fund and each major special revenue fund be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County’s basic financial statements. The combining and individual statements for the General Fund and internal service and nonmajor governmental funds are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the combining and individual statements for the General Fund and internal service and nonmajor governmental funds are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the statistical section but does not include the basic financial statements and our auditors’ report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 10, 2024, on our consideration of the County’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County’s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County’s internal control over financial reporting and compliance.

**COUNTY OF SAN JOAQUIN
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2023**

This section of the County of San Joaquin's (the County) annual financial report represents a discussion and analysis of the County's financial performance during the fiscal year ended June 30, 2023. Please read it in conjunction with the County's basic financial statements following this section.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of the County exceeded its liabilities and deferred inflows at the close of the 2022-23 fiscal year by \$1,434 million, which is referred to as net position. Of this amount, \$819.6 million was invested in capital assets, \$1,026 million was restricted and limited to specific purposes, with the remaining amount unrestricted as a deficit in the amount of \$412.8 million.
- The County's total net position increased by \$372.8 million during the year. Governmental activities increased the County's net position by \$341.7 million, while business-type activities increased the County's net position by \$31.1 million.
- As of June 30, 2023, the County governmental funds reported combined fund balances of \$1,629 million, which is an increase of \$269.6 million from the prior year's fund balance, including restatements. Of the combined fund balances, \$992.9 million is nonspendable or restricted, while \$637 million is unrestricted funds that may be used to meet the County's current and future needs (committed, assigned, and unassigned fund balances).
- As of June 30, 2023, the unrestricted fund balance for the General Fund was \$458.4 million, or approximately 45.7% of the total General Fund operating expenditures.
- The County's total long-term liabilities that are due beyond one year at June 30, 2023, were \$1,954 million, which is an increase of \$502.8 million from the prior year. The increase is primarily due to an increase of \$436.4 million in net pension liability.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components: 1) Government-wide financial statements; 2) Fund financial statements; and 3) Notes to the basic financial statements. Required Supplementary Information is included in addition to the basic financial statements.

Government-Wide Financial Statements are designed to provide readers with a broad overview of County finances, in a manner similar to a private-sector business. Therefore, the statements are reported using the accrual basis of accounting. Please refer to Note 1, section (C) for further information on the accrual basis of accounting.

The statement of net position presents information on all County assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

**COUNTY OF SAN JOAQUIN
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2023**

The statement of activities presents information showing how net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that may result in cash flows in future fiscal periods.

Both of these government-wide financial statements distinguish functions of the County that are principally supported by intergovernmental revenues and property and sales taxes (governmental activities) from other functions that are intended to recover all or in part a portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government; public protection; public ways and facilities; health and sanitation; public assistance; education; and recreation and culture. The business-type activities of the County are the San Joaquin County General Hospital (Hospital), the San Joaquin County Airport (Airport), CSA 31 Sewer Enterprise Fund, and the San Joaquin County Solid Waste Enterprise (Solid Waste).

Component units that are discretely presented in the County's basic financial statements consist of legally separate entities for which the County is financially accountable or whose nature and significant relationship with the County are such that exclusion would cause the County's financial statements to be misleading or incomplete. The discretely presented component units include the Health Plan of San Joaquin and First 5 San Joaquin. Separate financial statements of these component units are available at the County Auditor-Controller's Office.

The government-wide financial statements can be found on pages 19-21 of this report.

Fund Financial Statements are groupings of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other State and local governments, uses fund accounting to ensure and demonstrate finance-related legal compliance. All the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a county's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

**COUNTY OF SAN JOAQUIN
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2023**

The County reports four major individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances. Data from the nonmajor governmental funds, including the debt service funds, are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The County adopted an annual appropriated budget for all its major governmental funds except for the Coronavirus Relief Fund. Budgetary comparison schedules have been provided for the General Fund and the major special revenue funds to demonstrate compliance with this budget and are included in the required supplementary section of this report.

The governmental funds financial statements can be found on pages 23-26 of this report.

Proprietary funds are reported in two ways: enterprise funds and internal service funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for the Hospital, the Airport, CSA 31 Sewer and Solid Waste whose revenues are primarily from external user fees. Internal service funds are used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for its insurance programs, fleet maintenance, telephone and radio communication programs, office automation equipment replacement program, and general office supply and services programs. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail with the inclusion of cash flow statements. The County considers all of its enterprise funds as major funds to the County. The internal service funds are combined into a single, aggregated presentation in the proprietary funds financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report.

The proprietary funds financial statements can be found on pages 27-30 of this report.

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The fiduciary funds financial statements can be found on pages 32-33 of this report.

Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes can be found on pages 34-109 of this report.

**COUNTY OF SAN JOAQUIN
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2023**

Required Supplementary Information provides the comparison of the budgetary information with the actual budget results for the General Fund and the Mental Health and Substance Abuse Fund. The Board of Supervisors revises the budget throughout the year as it attempts to deal with unexpected changes in revenues and expenditures. The final amendment to the budget was actually adopted at year-end, which is not prohibited by State law.

Supplementary Information provides the combining and individual fund statements and schedules referred to earlier for nonmajor governmental funds, internal service funds, and fiduciary funds immediately following the required supplementary information.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the County, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$1,433 million at the close of fiscal year 2022-23.

Condensed Statement of Net Position (in 000's)

A significant portion of the County's net position in the amount of \$819.6 million, approximately 57% of the total, represents its investment in capital assets (e.g., land, land improvements, buildings, equipment, infrastructure, and construction in progress), less any related debt used to acquire those assets that are still outstanding. The County uses these capital assets to provide services to citizens and to internal County departments. Consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The second largest portion of the County's net position, in the amount of \$1,027 million, approximately 71.6% of the total, represents resources that are subject to external restrictions on how they may be used.

The remaining balance of the County's net position is unrestricted in the amount of -\$412.8 million, approximately -28.8% of the total, which may be used to meet the County's ongoing obligations to citizens and creditors.

As shown on the next page, the County's total net position increased by \$372.8 million compared to fiscal year 2021-22. Included in that increase is a combination of a \$150.1 million increase in revenues, and a \$145.8 million increase in expenses from the prior year.

**COUNTY OF SAN JOAQUIN
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2023**

Governmental Activities. Governmental activities increased the County's net position by \$341.7 million.

Revenues

Total revenues for the County's governmental activities increased by \$135.9 million, or 8.8%, over the previous year. Of the total increase, \$22.3 million from operating and capital grants and contributions, \$62.1 million from property and sales taxes and \$5.9 million decrease from tobacco settlement revenues, and an increase of \$54.2 million in investment earnings.

Expenses

Total expenses for the County's governmental activities increased by \$132.3 million, or 10.6%, from the previous year. Of the total increase, \$91.8 million is for public protection, \$4.3 million for public ways and facilities, \$21.5 million for health and sanitation, \$48 million for public assistance, \$8.6 million for debt service, offset by a decrease of \$43.5 million for general government.

Business-Type Activities. Business-type activities increased the County's net position by \$31.1 million. The increase consisted of change in net position of \$8.8 million for the General Hospital Enterprise Fund (Hospital), \$8.7 million for the Solid Waste Enterprise Fund (Solid Waste), \$8.0 million for the Airport Enterprise Fund (Airport), and \$0.3 million for the CSA 31 Flag City Sewer Enterprise Fund (Flag City).

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The general government functions are contained in the General, Special Revenue, Debt Service, and Capital Projects Funds. Included in these funds are the special districts governed by the Board of Supervisors. The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financial requirements. In particular, unrestricted fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At June 30, 2023, the County's governmental funds reported total fund balances of \$1,629 million, an increase of \$269.6 million, or 19.8%, over the prior year. Approximately \$637 million, or 39.1%, of the total fund balance constitutes unrestricted fund balance (committed, assigned, and unassigned) which is available to meet the County's current and future needs. The remainder of the fund balance, \$992.9 million or 60.9%, is restricted or nonspendable to indicate that it is not available for new spending because it: 1) reflects inventories, interfund advances, and loans receivable that are long-term in nature and thus do not represent available spendable resources, (\$5.4 million) and 2) reflects constraints placed on the use of resources by external creditors, grantors, contributors, laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation, (\$987.5 million).

**COUNTY OF SAN JOAQUIN
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2023**

The General Fund is the main operational fund of the County. At June 30, 2023, it had an unrestricted fund balance of \$458.4 million, while its total fund balance was \$768.8 million, an increase of \$158.1 million over the prior year. As a measure of the General Fund's liquidity, it may be useful to compare both unrestricted fund balance and total fund balance to total fund expenditures less transfers. Unrestricted fund balance represents 45.7% of total fund expenditures, while total fund balance represents 76.6% of the same amount.

The Mental Health and Substance Abuse Fund, a major fund, was established to account for the mental health and substance abuse prevention and treatment services' activities. Therefore, the fund balance is restricted for these designated services. At June 30, 2023, of its \$202.7 million fund balance, \$0.1 million is nonspendable and the remaining balance of \$202.6 million is available for the next fiscal year's appropriation.

The Coronavirus Relief Fund, a major fund, was established to account for Federal and State funding received in advance to cover expenditures incurred in response to the COVID-19 pandemic. Funds received in advance and not obligated are presented as unearned revenue.

The County Capital Outlay Fund was created to account for the expenditures related to the new acquisition, construction, major maintenance, and/or additions and renovations of the County's facilities. Completion time for a capital project is often longer than a single fiscal year, depending on complexity and magnitude. Funds for projects still in progress at the end of a fiscal year are encumbered and carried forward in order to complete the work. At June 30, 2023, it had a fund balance of \$168.8 million.

Revenues for governmental funds totaled \$1,666 million in fiscal year 2022-23, which represents an increase of \$124.6 million, or 8.1%, from fiscal year 2021-22. The largest increase in revenues was in use of money and property (\$56.2 million), primarily due to increases in fair market value of investments and interest earned. Other increases were in taxes (\$57.7 million) and aid from other government agencies (\$21.8 million). These increases were offset by minor decreases in revenue from other sources.

Expenditures for governmental funds totaled \$1,425 million in fiscal year 2022-23, which represents an increase of \$15.3 million, or 1.5%, from the prior year. The largest increase was in public assistance (\$22.2 million) and public protection (\$45.9 million). This was offset by decrease in general government (\$53.7 million).

Proprietary Funds. The County's proprietary funds provide similar information found in the business-type activities financial statements, but in more detail.

The General Hospital Enterprise Fund had \$82.5 million in net position at June 30, 2023, of which \$25.0 million was unrestricted. The net position increased by \$14.1 million during the year, primarily due to a \$9.1 million decrease in operating expenses compared to the prior year.

**COUNTY OF SAN JOAQUIN
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2023**

The Stockton Metropolitan Airport Enterprise Fund had \$56.4 million in net position at June 30, 2023, of which \$.4 million was unrestricted. The net position increased by \$8.1 million during the year.

The Solid Waste Enterprise Fund had \$27.9 million in net position at June 30, 2023, of which -\$16.7 million was unrestricted. The net position increased by \$8.7 million during the year, up from a prior year increase of \$7.5 million, primarily due to a \$3.7 million decrease in operating expenses compared to the prior year.

The CSA 31 Flag City Sewer Enterprise Fund had -\$1.2 million in net position at June 30, 2023, of which \$1.6 million was unrestricted. The net position increased by \$0.3 million during the year.

The internal service funds had -\$5.6 million in net position at June 30, 2023, with -\$22.9 million as unrestricted. Of the unrestricted net position, -\$18.8 million is designated for future claims under the County's self-insurance programs.

GENERAL FUND BUDGETARY HIGHLIGHTS

- Differences between the 2022-2023 fiscal year's original budget and the final amended budget for the general fund resulted in a \$30.7 million net increase to appropriations. The major increases in the final amended budget for the general fund can be briefly summarized as follows:
- The public assistance budget increased by \$15.1 million due to an increase in services and supplies expense and other charges during the current year.
- The general government budget increased by \$2.4 million due to additional ARPA funding and additional appropriations for housing and building mitigation projects.
- The public protection budget increased by \$9.3 million due to an increase in pharmaceutical costs, increased backfill amounts from the State, increased Homeland Security funding and in increase in Prop 172 funding.
- The health and sanitation budget increased by \$2.5 million due to increased funding for fentanyl awareness and additional funding from CDPH, grants and ARPA funding.

During the year, actual revenues were less than budgetary estimates by \$68.8 million. The net under-budget revenues reflect the combination of over-budget and under-budget of various revenue sources. The major under-budget revenue was \$86.9 million in transfers-in.

Actual expenditures were less than final amended budgetary estimates by \$155.8 million. A majority of the difference is attributable to below budget expenditures in transfers out (\$86.7 million), public assistance (\$44.8 million), public protection (\$31.0 million) and health and sanitation (\$7.5 million). The net effect of under-realization of revenues and under-utilization of appropriations resulted in a favorable variance of \$87.0 million, thus eliminating the need to draw upon existing fund balance.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The County's net investment in capital assets, net of accumulated depreciation, for its governmental and business-type activities as of June 30, 2023, amounted to \$981 million. This investment in capital assets includes land, buildings and improvements, equipment, and construction in progress. The total increase in the County's investment in capital assets for the current period was 6.4%.

Major capital asset events during the current fiscal year included the following:

- Investments in infrastructure of \$38.8 million for the completion of various bridge and road projects.
- Structure and improvements additions of \$14.6 million which represented additions or improvements to various County buildings.

All depreciable assets, except infrastructure, are depreciated from the mid-month of the acquisition month to the end of the current fiscal year. Infrastructure acquired since June 30, 1980 is depreciated, using the composite method, over the life of 25 years.

Long-Term Debt

At June 30, 2023, the County had total long-term debt of \$152.8 million, excluding issuance premiums. This total was comprised of \$54.9 million of certificates of participation, \$6.8 million of revenue bonds, \$12.7 million in finance purchase obligations, \$1.0 million in notes payable, \$51.1 million in lease liability, and \$26.2 million of SBITA liability. The County also had long-term liabilities for compensated absences of \$47.3 million, estimated self-insurance claims liabilities of \$72.3 million, landfill closure/postclosure of \$38.9 million, total OPEB liability of \$55.9 million and net pension liability of \$1,591 million.

For additional information related to long-term debt, see Notes 7 and 8 on pages 79-85.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

- Property and sales taxes are the two major local discretionary revenues for the County. Combined, they represent approximately 91.2% of the County's ongoing discretionary revenues. The 2023-2024 net property tax roll increased 9.17% from the prior year. This followed an increase in 2022-2023 of 9.38% and in 2021-2022 of 6.73%. The Assessor's property tax assessment roll establishes the property tax base for all local government agencies in the County, including cities, special districts, and school districts. Currently, the County collects over \$1.40 billion for these agencies. The total tax roll for 2023-2024 is \$108.3 billion.
- Under Proposition 8, passed in 1978, property values are temporarily reduced when their market value falls below their Proposition 13 Factored Base Year Value (FBYV) – the original market value at time of purchase plus up to a 2% annual increase based on an inflation factor published by the State Board of Equalization. These properties are reviewed annually to determine market value until the market value is equal to or greater than the FBYV.
- The overall 2023-2024 County budget increased by \$370.8 million, or 16.7%, from the 2022-2023 adjusted budget. The increase was primarily due to salary and benefit increases, investments in capital projects, increases in State and Federal funding, and General Fund transfers to reserves.
- The Unfunded Pension Liability Reserve has been in place for nine years to address the County's unfunded retirement contribution liabilities. The most recent actuarial valuation identified an Unfunded Actuarial Liability totaling \$1.5 billion, with San Joaquin County's share of this at approximately \$1.4 billion. In May 2022, the Board approved the establishment of a 115 Trust – Pension Rate Stabilization Program and the transfer of \$51 million into the Trust from the Unfunded Pension Liability Reserve. In addition to the 115 Trust, the County still maintains a significant balance in its Unfunded Pension Liability Reserve. The balance of the Reserve as of June 30, 2023 was \$53.0 million and the 2023-2024 budget added an additional \$16.6 million, for a total of \$69.6 million in the Reserve. Additionally, the 2032-2024 budget included funding for the full 5% contribution toward the unfunded retirement.

**COUNTY OF SAN JOAQUIN
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2023**

- Approximately 41.0% of the County's budget is funded by State and Federal resources. As such, the State's economic condition and financial situation have a significant impact on the County's budget and programs. The constitutional amendment (Proposition 1A) approved by California voters in November 2004 protects, to some extent, local government revenues from reductions by the State. However, State funding for programs and services administered by the County on behalf of the State continues to be at risk. Programs that are most susceptible to State budget reductions include public safety grants, and health and human services programs. Outstanding State SB90 claims at June 30, 2023 were approximately \$2.5 million.
- The 2023-2024 Adopted Budget included \$3.0 million for 12 months' cost of a Management Services Agreement with Dignity Health, approved by the Board on May 3, 2022. The initial 18-month term became effective July 1, 2022, and runs through December 31, 2023, with an option to extend if agreed upon by the County and Dignity Health. MSA initiatives that have begun include revenue cycle improvements, Leapfrog Purchasing Program score improvement, Group Purchasing Organization affiliation, and electronic time clocks. Other goals in 2023-2024 for SJGH include a reduction in nursing turnover and reducing the pandemic-related increase in contract nursing.
- The CalWORKs program is administered by the Human Services Agency and is the largest cash assistance program for families. It provides financial help to support the needs of families, such as shelter, food, and clothing. CalWORKs clients received a 22% benefit increase in 2022-2023. As a result, the 2023-2024 Adopted Budget included an appropriations increase of \$20.2 million. This program receives 97.5% of its funding from State and Federal sources.
- In 2021-2022, staff developed a five-year Capital Improvement Program (CIP) that includes a prioritized listing of capital projects for the next five fiscal years. In June 2023, staff updated the CIP to report accomplishments and to add fiscal year 2027-2028 projects. A total of \$137.8 million was included in the 2023-2024 Adopted Budget for the following capital improvement projects:
 - 6 S. El Dorado St. Tenant Improvements
 - Behavioral Health Services Adult Residential Treatment Modular Campus
 - Sheriff's Office – County Detention and Program (SB 1022) Facility
 - Medical Examiner's Office – Morgue/Medical Examiner Facility Replacement
 - Sheriff's Office – Classroom Facility
 - Sheriff's Office – Training Facility
 - Sheriff's Office – Evidence Facility
 - Emergency Medical Services Warehouse
 - South County Park Planning
 - Other Existing Facilities Costs

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND
CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE
GOVERNMENT-WIDE STATEMENT OF ACTIVITIES
GOVERNMENTAL ACTIVITIES
YEAR ENDED JUNE 30, 2023**

NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS \$ 235,808,189

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Expenditures for General Capital Assets, Infrastructure, and Other Related Capital Assets Adjustments	64,181,035
Depreciation and Amortization Expense	(46,922,390)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental funds.

Unavailable Revenues	4,625,287
----------------------	-----------

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position.

Lease Financing	(1,581,068)
SBITA Financing	(49,094)
Certificates of Participation	5,460,000
Notes Payable	7,000
Amortization of Premium on Certificates of Participation	1,036,690
Amortization of Deferred Refunding of Debt	(14,167)

Lease principal payments on long-term debt use current financial resources, but have no effect on net position.

3,848,580

SBITA principal payments on long-term debt use current financial resources, but have no effect on net position.

823,956

Some expenses reported in the Statement of Activities do not require the use of current financial resources, and therefore, are not reported as expenditures in the governmental funds.

Change in Accrued Interest Payable	38,189
Change in Compensated Absences	(1,955,010)
Change in OPEB Liability and Related Deferred Outflows/Inflows of Resources	5,982,293
Change in NPL Liability and Related Deferred Outflows/Inflows of Resources	41,410,924

Internal service funds are used by management to charge the costs of certain activities to individual funds. The net expense of certain activities of the internal service funds is reported with governmental activities.

COUNTY OF SAN JOAQUIN
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2023

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The County of San Joaquin (the County) is a political subdivision created by the state of California and, as such, can exercise the powers specified by the Constitution and laws of the state of California. The County operates under the general laws of the state and is governed by an elected five-member Board of Supervisors (the Board).

The governmental reporting entity consists of the County (Primary Government) and its component units. Component units are legally separate organizations for which the Board is financially accountable or other organizations whose nature and significant relationship with the County are such that exclusion would cause the County's financial statements to be misleading or incomplete. Financial accountability is defined as either (A) the appointment of a voting majority of the component unit's board, and (i) either the County's ability to impose its will on the organization or (ii) there is potential for the organization to provide a financial benefit to or impose a financial burden on the County; or (B) an organization is fiscally dependent on the County and there is a potential for the organization to provide specific financial benefits to or impose financial burdens on the County, regardless of whether the organization has (i) a separately elected governing board, (ii) a governing board appointed by a higher level of government, or (iii) a jointly appointed board.

The basic financial statements include both blended and discretely presented component units. The blended component units, although legally separate entities are, in substance, part of the County's operations and so data from these units are combined with data of the primary government. The discretely presented component units, on the other hand, are reported in a separate column in the government-wide financial statements to emphasize they are legally separate from County government.

For financial reporting purposes, the County's basic financial statements include all financial activities that are controlled by or are dependent upon actions taken by the County's Board. The financial statements of the individual component units are available through the County Auditor-Controller's Office, 44 N. San Joaquin Street, Suite 550, Stockton, California 95202.

Blended Components

Special Districts Governed by the Board of Supervisors. The special service districts governed by the Board are established for the purposes of providing special services to various County areas. However, the outstanding special assessment debts and the debt service of these special districts governed by the Board are excluded from these financial statements in accordance with Governmental Accounting Standards Board (GASB) Statement No. 6, described below. The special districts do not issue separate financial statements.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A. Reporting Entity (Continued)

Blended Components (Continued)

The special service districts governed by the Board include a flood control agency, three water and power authorities, a waterworks district, 30 lighting districts, 28 maintenance districts, 40 county service areas, and 5 improvement districts as follows:

San Joaquin County Flood Control Agency. The Agency was formed by the County and the County of Stockton in 1995 to study, plan for, develop, finance, acquire, construct, maintain, repair, manage, operate, and control water control works and facilities for the protection of the public.

Mokelumne River Water and Power Authority. The Authority was formed by the County and San Joaquin County Flood Control and Water Conservation District in 1990 to finance the acquisition and construction of a dam, reservoir, generating facilities, and conveyance facilities in order to benefit the County and the San Joaquin County Flood Control and Water Conservation District.

Eastern San Joaquin County Groundwater Authority. The Authority was formed by the County and local groundwater sustainability agencies in February 2017, to develop a groundwater sustainability plan for the sustainable management of groundwater for the portion of the groundwater basin underlying the members of the authority.

Northeastern San Joaquin County Groundwater Banking Authority. The Authority (previously, East San Joaquin Parties Water Authority) was formed by the County, the San Joaquin County Flood Control and Water Conservation District, cities, and other water conservation and irrigation districts in 1996. This JPA was formed to plan, along with other public entities, projects to meet the water deficiencies of Eastern San Joaquin County.

The San Joaquin Area Flood Control Agency, Mokelumne River Water and Power Authority, Northeastern San Joaquin County Groundwater Banking Authority, and Eastern San Joaquin County Groundwater Authority, are either controlled by the Board or fully funded by a County controlled district and, therefore, blended with the County's financial statements.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A. Reporting Entity (Continued)

The accounting principles established for reporting transactions of special districts are as follows:

GASB Statement No. 6, *Accounting and Financial Reporting for Special Assessments* requires transactions of service-type special districts and of the construction phase related to capital improvements financed by special assessment to be reported within the general, special revenue, or capital projects funds, as appropriate. Revenues and expenditures are recognized on the same basis of accounting as described in Note 1-C. Any capital assets constructed or acquired, other than infrastructure, are reported in the government-wide financial statements on the same accounting principles as described in Note 1-H.

The In-Home Supportive Services (IHSS) Public Authority maintains a registry and referral system to assist consumers in finding qualified IHSS personnel as well as training of, and support for, providers and recipients of IHSS. The IHSS Public Authority is solely funded by Federal and State grants passed through the County's Human Services Agency. The County's Board is the governing body for the IHSS Public Authority. Therefore, this entity has been blended with the primary government. The entity's net activities are reported in the IHSS Public Authority fund as presented in the statements of nonmajor special districts governed by the Board of Supervisors.

The San Joaquin County Public Facilities Financing Corporation (the Corporation) is included as part of the primary government. The sole purpose of the Corporation is to finance, for the benefit of the County, the acquisition and construction of the County's major capital projects. The debts associated with the Corporation are as described in Note 8-B. The Corporation has assigned and transferred, without recourse, to the US Bank Trust Corporation for the benefit of the owners of the certificates each and all of its rights under the Site Lease and the Project Lease. With the exception of bonds issued for the Solid Waste System Project and the San Joaquin General Hospital Expansion Project, debt service, outstanding debts and the related capital projects are reported in the government-wide financial statements. The bonds issued for the Solid Waste System Project and the San Joaquin General Hospital Expansion Project, and the related construction are reported in the Solid Waste Enterprise Fund and General Hospital Enterprise Fund, as applicable. The Corporation's financial statements are available through the County Administrator's Office.

San Joaquin County Economic Development Association (the Association), a nonprofit corporation, promotes, publicizes, encourages, and coordinates economic development of the County. The Association is governed by a five-member board appointed by the County Board of Supervisors and is operationally funded solely by the County.

Fiduciary Component Unit

The San Joaquin County Employees' Retirement Association (SJCERA) is governed by the Board of Retirement. The Board of Retirement consists of nine regular members and one alternate. Four are elected by participating members, four are appointed by the Board of Supervisors, and one is the County Treasurer. Although it is legally separated from the County, SJCERA is reported as a pension trust fund because The County appoints a majority of the SJCERA Retirement Board and is considered to have a financial burden as it is legally obligated to make contributions to the plan. SJCERA uses the calendar year as its fiscal year; therefore, the financial information related to the pension trust fund represents the year ended December 31. The financial statements of the pension trust fund are available through SJCERA.

Discretely Presented Component Units

The component units column in the basic financial statements includes the financial data of the County's other component units. They are reported in a separate column to emphasize that they are legally separate from the County. The County has chosen to report all of the discretely presented component units as major component units.

The First 5 San Joaquin (previously, the Children and Families Commission) was established under the authority of the California Children and Families First Act of 1998 and Sections 130100, et seq. of the Health and Safety Code. The County Board appoints all members of the agency. The Board can remove appointed members at will.

Health Plan of San Joaquin, created by the County Board in 1995, provides medical care and health services to Medi-Cal recipients and other groups of persons pursuant to various statutes specified in the Welfare and Institutions Code. The Board of Supervisors appoints all of the members of the Board of Directors for the Health Plan. The Board can remove appointed members at will.

Separate financial statements of these individual component units have been issued and are available from their respective administration office or the County Auditor-Controller's office.

Related Organizations

The County's Board is also responsible for appointing the members of the boards of other organizations, but the County's accountability for these organizations does not extend beyond making the appointments; therefore, these organizations are not included in these financial statements. These organizations are Tracy Public Cemetery District, Escalon Cemetery District, San Joaquin Regional Transit District, New Mariposa Drainage District, San Joaquin County Housing Authority, and Colledgeville Fire District.

Joint Powers Agreements

The County participates in three Joint Powers Agreements (JPA).

1. San Joaquin Valleywide Air Pollution Study Agency was formed by the County and other counties in 1990 for the purpose of designing, planning, programming, and implementing an ozone and air pollution study in the geographical territory encompassed by the member counties.
2. San Joaquin Regional Rail Commission was formed by the County, certain incorporated cities within the County, and the San Joaquin Council of Governments in 1995 to resolve issues relating to the rail passenger services and facilities for the purpose of transporting passengers within and outside their respective boundaries.
3. San Joaquin Council of Governments was formed by the County and incorporated cities within the County in 1983 to manage the area-wide issues requiring multi-jurisdictional cooperation.

With the exception of the responsibilities borne by the participating parties during the JPA start-up period, the County does not retain any ongoing financial interest or responsibility in these JPAs.

B. Basis of Financial Presentation

During the fiscal year ending June 30, 2023, the County implemented the following standards:

GASB Statement No. 91 – In May 2019, GASB issued Statement No. 91, *Conduit Debt Obligations*. The objective of this Statements is to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement is effective for reporting periods beginning after December 15, 2021.

GASB Statement No. 94 – In March 2020, the GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. The objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). The Statement is effective for reporting periods beginning after June 15, 2022.

B. Basis of Financial Presentation (Continued)

GASB Statement No. 96 – In May 2020, the GASB issued Statement No. 96, *Subscription-based Information Technology Arrangements*. The objective of this Statement is to provide guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (Governments). The Statement is effective for reporting periods beginning after June 15, 2022. The County adopted the requirement of the guidance effective July 1, 2022, and has applied the provisions of this standard to the beginning of the period of adoption. Additional disclosures required by this standard are included in Note 7-C.

GASB Statement No. 99 – In May 2022, the GASB issued Statement No. 99, *Omnibus 2022*. The objectives of this Statement is to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements, and (2) accounting and financial reporting for financial guarantees. This Statement is effective for reporting periods beginning after June 15, 2022.

Recently released standards by GASB affecting future fiscal years are as follows:

GASB Statement No. 100 – In June 2022, the GASB issued Statement No. 100, *Accounting Changes and Error Corrections—An Amendment of GASB Statement No. 62*. The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The requirements of this Statement are effective for accounting changes and error corrections made in fiscal years beginning after June 15, 2023, and all reporting periods thereafter. The County has not determined the effect on the financial statements.

GASB Statement No. 101 – In June 2022, the GASB issued Statement No. 101, *Compensated Absences*. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The requirements of this Statement are effective for fiscal years beginning after December 15, 2023, and all reporting periods thereafter. The County has not determined the effect on the financial statements.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Basis of Financial Presentation (Continued)

Government-Wide Financial Statements

Information relating to the primary government (the County) and its components is displayed in the statement of net position and statement of activities. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the governmental and business-type activities of the County and between the County and its discretely presented component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which are primarily supported by fees charged to external parties.

The statement of activities presents a comparison between direct and indirect expenses and program revenues for each segment of the business-type activities of the County and for each function of the County's governmental activities. Direct expenses are those that are specifically associated with a program or a function and, therefore, are clearly identifiable to a particular function. Indirect expenses are those that are allocated to a program or a function from the County's centralized general service function based on the cost allocation principles established by 2 CFR 200 (Uniform Guidance). Program revenues include 1) charges paid by the recipients of goods or services offered by the programs, 2) fines and penalties ordered by the courts, 3) licenses and permits charged by the programs, and 4) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented instead as general revenues.

When both restricted and unrestricted net position is available, it is County policy to use restricted net position first, and then use the unrestricted resources as needed.

Fund Financial Statements

The fund financial statements provide information about the County's funds, including fiduciary funds and blended component units. Separate statements for each fund category – governmental, proprietary, and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds each displayed in a separate column. All remaining governmental and enterprise funds are separate columns in the fund financial statements.

Fund Financial Statements (Continued)

The County reports the following major governmental funds:

- General Fund – The General Fund is the general operating fund of the County. It is used to account for all financial resources and transactions except those required to be accounted for in another fund. It includes certain special accounts that are under the control of various General Fund departments and those that are used to accumulate resources for designated purposes.
- Mental Health and Substance Abuse Fund – The Mental Health and Substance Abuse Fund is used to account for the proceeds of specific sources with its expenditures legally restricted for mental health and substance abuse services.
- Coronavirus Relief Fund – The Coronavirus Relief Fund is used to account for Federal and State funding received to reimburse for expenditures related specifically to the COVID-19 pandemic.
- County Capital Outlay Fund – The County Capital Outlay Fund is used to account for financial resources to be used for the major maintenance, acquisition, and/or construction of major capital facilities, other than those financed by business-type funds.

The County reports three of its enterprise funds as major funds:

- The San Joaquin County General Hospital Enterprise Fund (the Hospital) – accounts for hospital operations involved in providing health services to County residents. Revenues are primarily fees for patient services and payments from Federal and State programs such as Medicare, Medi-Cal, realignment revenues, and subsidies from the General Fund.
- The Stockton Metropolitan Airport Enterprise Fund (the Airport) – accounts for commercial, corporate business, and general aviation activities of the County. Revenues are primarily landing fees, rental fees, and concessionary fees generated from the Airport owned facilities, capital grants from the Federal Aviation Administration, and unsecured property taxes within the Airport's boundaries.
- The San Joaquin County Solid Waste Enterprise Fund – accounts for the County's solid waste transfer and disposal activities, acquisition, design, development, and closure and post-closure maintenance of landfill sites, refuse collection franchise management, and other recycling programs. Revenues are primarily the gate and franchise fees.

Fund Financial Statements (Continued)

The County reports the following additional fund types:

- Internal Service Funds – Internal Service Funds are used to account for the financing of goods or services provided by one department to other departments or agencies of the County on a cost recovery basis. These services include the County’s fleet maintenance, telephone and radio communications, office automation, information systems, County owned water system, purchasing, and centrally managed insurance programs – workers compensation; employee medical, dental, and unemployment benefits; and casualty and medical malpractice liabilities.
- Pension Trust Fund – This is used to account for the SJCERA’s retirement system assets and changes in net position. The retirement system is a separate entity, and its financial operations are controlled by the Board of Retirement. The financial statements of the retirement system are included as a fiduciary fund. The postretirement health benefit plan is also included in the Pension Trust Fund, as it is managed by SJCERA.
- Investment Trust Fund – This is used to account for the external portion of pooled investments of numerous self-governed school and special districts who are legally required (trust equivalent) to pool their resources with the County or who have a trust agreement with the County to their resources.
- Private Purpose Trust Funds – These funds are used to account for the assets held for the public guardian and a minor pursuant to a liability claim settlement.
- Custodial Funds – These funds are used to report fiduciary activities that are not required to be reported in pension (and other employee benefit) trust funds, investment trust funds, or private-purpose trust funds.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basis of Accounting

The government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the County gives (or receives) value without directly receiving (or giving) equal value in exchange, include property and sales taxes, grants, entitlements, and donations. On the accrual basis of accounting, property tax revenues are recognized in the fiscal year for which the taxes are levied. Sales taxes are recognized when the underlying transactions take place. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from non-exchange transactions or ancillary activities. Proprietary fund operating expenses, such as salaries and benefits or services and supplies, result from providing services and producing and delivering goods related to the proprietary fund's primary operations.

Expenses that are not directly related to the proprietary fund's primary operations are reported as nonoperating expenses.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, expenditures are recorded when the related liability is incurred except that the unmatured interest on long-term debt and expenses related to compensated absences and claims and judgments are recorded only when payment is due. General capital assets acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and capital leases are reported as other financing sources. Revenues are recorded when they are both measurable and available to finance expenditures during the fiscal period. Property and sales taxes, interest, state and federal grants, and charges for services are accrued when their receipt occurs within sixty (60) days after the end of the accounting period so as to be both measurable and available. Revenues earned but not received within 60 days after the end of the accounting period, on the other hand, are recorded as receivables and deferred inflows of resources – unavailable revenues.

COUNTY OF SAN JOAQUIN
NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Interfund Transactions

Interfund transactions are reflected as either loans, services provided, reimbursements, or transfers.

- Loans are reported as receivables and payables as appropriate and are subject to elimination upon consolidation and are referred to as either “due to/due from other funds” (the short-term interfund loans) or “advance to/from other funds” (the long-term interfund loans). Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as “internal balances.” Advances between funds are reported in the fund financial statements, and are classified as nonspendable component of fund balance as they are not available financial resources.
- Services provided, deemed to be at market or near market rate and are the core business of the function, are treated as revenues or expenditures/expenses in the funds involved. The related accounts payable and accounts receivable are eliminated upon consolidation and are referred to as “due to/due from other funds” on the fund statements.
- Reimbursement transactions are treated as reductions of expenditures/expenses in one fund and corresponding increases in the other fund.
- Operating/Capital transfers are reported as “transfers in” or “transfers out” under other financing sources and netted as part of the reconciliation to the government-wide presentation.

E. Cash and Investments

Cash and investments consist of cash held in the bank or on hand and debt and equity securities. All investment securities, such as certificates of deposit, bankers’ acceptances, commercial paper, repurchase agreements, and U.S. Treasury notes, stocks, bonds, etc., are stated at fair value in accordance with generally accepted accounting principles. The funds are valued based on the fair value of the trust’s underlying assets. Interest earnings on the County Treasurer’s investment pool are distributed to all participating funds based on their average daily cash balance within the pool.

COUNTY OF SAN JOAQUIN
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2023

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. Fair Value Measurement

The County categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

G. Inventory and Prepaid Items

Inventory of materials and supplies in the enterprise funds, internal service funds, Mental Health and Substance Abuse Fund (a major governmental fund), and nonmajor governmental fund are stated at cost as determined by the first-in, first-out method. Materials and supplies purchased by other funds are for current consumption and are recorded as expenditures when consumed.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

H. Capital Assets

Capital assets (including infrastructure) are recorded at historical costs or at estimated historical cost if actual historical cost is not available. Infrastructure acquired prior to June 30, 1980, is not recorded. The County defines capital assets as assets with an initial, individual cost of more than \$5,000 for equipment/furniture and structures and improvements, and an estimated useful life in excess of one year.

Capital assets acquired by the governmental funds are accounted for as expenditures of those funds and capitalized and recorded as assets in the government-wide financial statements. Assets constructed through the issuance of Certificates of Participation are capitalized. Major equipment acquired through financed purchase arrangements is capitalized and reported as assets in the government-wide statement of net position.

Contributed capital assets are valued at acquisition value on the date contributed. Contributed capital assets include public domain (infrastructure) general capital assets consisting of certain improvements including pavements in progress, bridges, and right of way.

COUNTY OF SAN JOAQUIN
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2023

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H. Capital Assets (Continued)

Maintenance and repairs are charged to operations when incurred. Betterments and major improvements that significantly increase values, change capacities, or extend useful lives are capitalized. Upon sale or retirement of capital assets, the cost and related accumulated depreciation are removed from the respective accounts and any resulting gain or loss is included in the results of operations.

Depreciable capital assets of the enterprise funds and internal service funds are depreciated using the straight-line method over estimated useful lives of 10 to 50 years for structures and improvements and 2 to 20 years for equipment, furniture, and fixtures.

Right to use leased assets are recognized at the lease commencement date and represent the County's right to use an underlying asset for the lease term. Right to use leased assets are measured at the initial value of the lease liability plus any payments made to the lessor before commencement of the lease term, less any lease incentives received from the lessor at or before the commencement of the lease term, plus any initial direct costs necessary to please the lease asset into service. Right to use leased assets are amortized over the shorter of the lease term or useful live of the underlying asset using the straight-line method. The amortization period varies from 3 to 5 years.

A SBITA is a contract that conveys control of the right to use another party's information technology (IT) software, alone or in combination with tangible capital assets. The County recognizes a right-to-use subscription asset, an intangible asset, and a corresponding subscription liability. The subscription term includes the periods which the County has a noncancellable right to use the underlying IT assets. The subscription liability is initially measured at the present value of subscription payments expected to be made during the subscription term. The subscription asset is initially measured as the sum of the initial subscription liability, plus payments made to the SBITA vendor before commencement of the subscription term, and capitalizable implementation costs, less any incentives received from the SBITA vendor at or before the commencement of the subscription term. Amortization of the subscription asset is recognized as an outflow of resources over the subscription term. The County's capitalization threshold for SBITAs is \$25,000 and the contract must be greater than 12 months, which includes periods covered by an option to extend (if it is reasonably certain that option will be exercised). The County uses the interest rate implicit in the lease, or if no interest rate is stated, the County uses its incremental borrowing rate as the discount rate. The County monitors changes in circumstances that may significantly affect the amount of the liability that may require a remeasurement of its SBITAs.

Capital assets used in operations of the governmental funds are depreciated on the government-wide financial statements only, using the straight-line method over estimated lives of 10 to 50 years for structure and improvements and 2 to 10 years for equipment, furniture, and fixtures. Infrastructure (i.e., roads, bridges, water/sewer, drainage system, flood control, etc.) is depreciated using a composite method to depreciate the infrastructure acquired after June 30, 1980, over an estimated weighted average life of 25 years.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. Lease Receivables

The County as a lessor recognizes a lease receivable and a deferred inflow of resources at the commencement of the lease term; with certain exceptions for leases of assets held as investments, certain regulated leases, short-term leases, leases below the County's capitalization threshold of \$25,000, and leases that transfer ownership of the underlying asset. Lease receivables are measured at the present value of lease payments expected to be received during the lease term. The deferred inflow of resources is measured at the value of the lease receivable plus any payments received at or before the commencement of the lease term that relate to future periods.

J. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and so will not be recognized as an expense/expenditure until then. The County currently reports three (3) separate elements of deferred outflows of resources: deferred amounts on refunding, deferred outflows related to pensions, and deferred outflows related to OPEB.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. A deferred inflow of resources is an acquisition of net position that applies to a future reporting period and will not be recognized as revenue until then. The County currently reports four (4) separate elements of deferred inflows of resources: service concession arrangement, deferred inflows related to pensions, deferred inflows related to OPEB, and deferred inflows related to lease receivables.

In addition to liabilities, the balance sheet of the government funds reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of fund balance that applies to future period(s) and so will not be recognized as revenue until that time in the governmental funds. The County currently reports two (2) separate elements of deferred inflows of resources: unavailable revenue reported consists primarily of revenue that will be received outside of the County's 60-day availability policy, and amounts related to lease receivables.

K. Property Taxes

The County is responsible for the assessment, collection, and apportionment of property taxes for all jurisdictions including the schools and special districts within the County. The Board of Supervisors levies property taxes as of July 1 on property values assessed on January 1. Secured property tax payments are due in two equal installments. The first is generally due November 1 and is delinquent with penalties after December 10, and the second is generally due on February 1 and is delinquent with penalties after April 10. Secured property taxes become a lien on the property on January 1.

K. Property Taxes (Continued)

All jurisdictions within California derive their taxing authority from the State Constitution and various legislative provisions contained in the Government Code and Revenue and Taxation Code. The County is responsible for the assessment, collection, and apportionment of property taxes for all jurisdictions including schools and special districts within the County.

Property is assessed at 100% of full cash or market value (with some exceptions) pursuant to Article XIII of the California State Constitution and statutory provisions. The total 2022-23 net assessed valuation of the County real property was \$101.0 billion.

The property tax levy to support general operations of the various jurisdictions is limited to 1% of full cash value and is distributed in accordance with statutory formulas. Amounts needed to finance the annual requirements of voter-approved debt are excluded from this limitation and are separately calculated and levied each fiscal year. The rates are formally adopted by the Board after approval of County councils or the governing boards of special districts where applicable. Property taxes are levied on both real and personal property.

Secured property tax payments are levied in two equal installments: the first is generally due November 1 and delinquent with penalties after December 10; the second is due February 1 and delinquent with penalties after April 10. Property taxes on the unsecured roll are levied on the January 1 lien date and become delinquent if unpaid after August 31.

The County's property taxes due to outside agencies are accounted for in the property tax collection custodial funds until apportionments are made, and funds are disbursed to taxing jurisdictions. The funds carried a net cash balance of approximately \$80.1 million as of June 30, 2023.

The County apportions property tax according to the Teeter Plan which is an alternate property tax distribution procedure authorized by the California Legislature in 1949. Under this method, the County, along with all other taxing agencies, has been paid 100% of the current secured taxes levied for each year. The fund balance (deficit) of the tax resource fund is consolidated with the General Fund at year-end.

The County maintains a balance of 2.5% (the legally required minimum balance is 1.0%) of the annual taxes levied on properties participating in the Teeter Plan in a Tax Loss Reserve Fund. The balance was approximately \$33.8 million at June 30, 2023. Penalties and interest collected on delinquent secured taxes are kept in the Tax Resource Fund.

L. Compensated Absences

Unused vacation leave may be accumulated up to a specified maximum and is paid at the time of termination from County employment. In accordance with the Memorandum of Understanding (MOU) between the County and the employees' unions, the County is only obligated to pay for unused sick leave up to a certain percentage at the time of eligible employees' retirement. Upon retirement, the County converts the noncash payout portion to a sick-leave bank to provide the postretirement medical, dental, or vision premium coverage for eligible employees.

The County accrues as current liabilities the compensated vacation and other leave benefits that are attributable to employees' services already rendered but not yet paid. A portion of the cash payout of the unused sick leave upon retirement, based on the past three years' experience, is also accrued as current liabilities.

M. Fund Balance

In the fund financial statements, governmental funds report fund balance as nonspendable, restricted, committed, assigned, or unassigned based primarily on the extent to which the County is bound to honor constraints on how specific amounts can be spent.

- Nonspendable fund balance – amounts that cannot be spent because they are either (a) not spendable in form, or (b) legally or contractually required to be maintained intact.
- Restricted fund balance – amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.
- Committed fund balance – amounts that can only be used for specific purposes determined by formal action of the County's highest level of decision-making authority (the Board of Supervisors) and that remain binding unless removed in the same manner. The underlying action that imposed the limitation needs to occur no later than the close of the reporting period.
- Assigned fund balance – amounts that are constrained by the County's intent to be used for specific purposes. The intent can be established at either the highest level of decision-making authority, or by a body or an official designated for that purpose. This is also the classification for residual funds in the County's special revenue funds.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

M. Fund Balance (Continued)

- Unassigned fund balance – the residual classification for the County’s General Fund that includes amounts not contained in the other classifications. In other funds, the unassigned classification is used only if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes.

The Board establishes, modifies, or rescinds fund balance commitments and assignments by passage of an ordinance or resolution.

When both restricted and unrestricted resources are available for use, it is the County’s policy to use restricted resources first, followed by the unrestricted resources (committed, assigned, and unassigned) as they are needed.

N. Net Position

The government-wide and business-type activities financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted, and unrestricted.

Net Investment in Capital Assets – This category groups all capital assets, including infrastructure, into one component of net position. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction, or improvement of these assets reduce the balance in this category.

Restricted Net Position – This category presents external restrictions imposed by creditors, grantors, contributors, or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position – This category represents net position of the County not invested in capital assets or restricted for any project or other purpose.

O. Long-Term Liabilities

In the government-wide financial statements and the proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statements of net position. Bond discounts and premiums are amortized over the life of the bonds in the same manner as interest expense. Issuance costs are expensed in the period incurred. Bonds payable are reported net of the applicable bond discount or premium.

COUNTY OF SAN JOAQUIN
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2023

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

O. Long-Term Liabilities (Continued)

In the fund financial statements, governmental bond discounts and premiums, as well as bond issuance costs, are recognized in the period issued. The face amount of the debt issued, and any related premiums are reported as other financing sources, while discounts on debt issuances are reported on other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

P. Leases

The County as a lessee recognizes a lease liability and a lease asset at the commencement of the lease term; unless the lease is a short-term lease (12 months or less), below the County's lease capitalization threshold of \$25,000, or it transfers ownership of the underlying asset. The lease liability is measured at the present value of payments expected to be made during the lease term (less any lease incentives). The lease asset is measured at the amount of the initial measurement of the lease liability, plus any payments made to the lessor at or before the commencement of the lease term and certain direct costs.

The County uses the interest rate implicit in the lease, or if no interest rate is stated, the County uses its incremental borrowing rate as the discount rate. The lease term includes the noncancelable period of the lease and extensions the County is reasonably certain to exercise. The County monitors changes in circumstances that are expected to significantly affect the amount of a lease liability or receivable that may require a remeasurement of its lease.

R. Cash and Cash Equivalents

For purposes of the statement of cash flows of the proprietary funds, cash and cash equivalents are defined as cash pools managed by the County Treasurer and any other short-term, highly liquid investments that are both a) readily convertible to known amounts of cash, and b) so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Changes in fair value of investments are reported as cash flow from investing activities as they meet the definition of cash equivalents.

S. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

T. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County’s pension plans with San Joaquin County Employee Retirement Association (SJCERA) and the California Public Employees’ Retirement System (CalPERS), including additions to/deductions from the pension plans’ respective fiduciary net positions have been determined on the same basis as they are reported by SJCERA and CalPERS, respectively. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

U. OPEB

For purposes of measuring the total other postemployment benefits (OPEB) liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, there are no assets accumulated in a trust for the plan.

NOTE 2 CASH AND INVESTMENTS

The investment pool includes cash and investments of the County and both voluntary and involuntary participation from external entities. Interest earned on investments is credited to individual funds based on their average daily cash balances and current year secured tax charges and direct assessments where applicable. The Revolving Loan Fund Trusts, and restricted Certificates of Participation proceeds are invested and managed separately from the pooled cash and investments.

As of June 30, 2023, the County’s cash, deposits, and investments were as follows (in \$000’s):

Investment Pool

The County Treasurer's Pool is not SEC-registered but is invested in accordance with California State Government Code and the County Treasurer's Investment Policy. The California statutes and the County's investment policy authorize the County to invest in obligations of the U.S. Treasury, certain Federal agencies, bankers' acceptances, "prime" commercial paper, certificates of deposit, swaps and trades, State Treasurer's Local Agency Investment Fund, and repurchase agreements. All of the County Treasurer's investments are of a mid-term and short-term nature. California State Government Code provides for the formation of an Investment Oversight Committee, which is charged with overseeing activity in the pool for compliance to policy and code requirements. To this end, the Oversight Committee annually reviews the County's investment policy and causes an audit of investments to occur.

The table below identifies the investment types that are authorized for public funds of the County by the California Government Code and the Investment Pool's investment policy. The table also identifies certain provisions of the California Government Code that address interest rate risk, credit risk, and concentration of credit risk.

Investments Authorized by Debt Agreement

Cash and investments held by fiscal agents are restricted as to their use. It includes funds for the construction/ acquisition of plant and equipment and funds designated by debt agreements as reserve funds and for servicing debt during the construction/acquisition of plant and equipment. At June 30, 2023, all cash and investments held by fiscal agents were covered by federal depository insurance or by Securities Investor Protection Corporation insurance, or by collateral held by the County's financial institutions in the County's name.

Deposits

At year-end, the carrying amount of the County's cash on hand and authorized deposits at various financial institutions was \$39.3 million. Of the total deposits, the first \$250,000 is insured by the Federal Depository Insurance Corporation. The remaining balance was uninsured but secured by the pledging banks and, therefore, was exposed to custodial credit risk. The custodial credit risk is the risk that in the event of a bank failure, the County's deposits may not be returned to it.

Statutes and County investment policy allow the pool deposits to be covered by Federal depository insurance or by a multiple financial institution collateral pool, which is maintained at a minimum of 110% of the uninsured deposits with the pledging institution's agent in the institution's name. The County has made no exceptions to this requirement during the current year.

Fiscal Agents

Per the County's Investment Policy, agencies not required to deposit funds with the County may place funds in the Investment Pool with the approval of the Treasurer. All agencies must comply with this Investment Policy. It is anticipated that most funds will be withdrawn from the Investment Pool by a warrant. Wire transfers must be arranged with the Treasurer-Tax Collector's Office.

Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with the County investment policy, the County Treasurer manages the exposure to declines in fair values by limiting the weighted average maturity of the investment portfolio to three years or less. As of June 30, 2023, the weighted average maturity of the pool investments was 340 days.

Credit Risk – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. California statutes and the County's Investment Policy limit the County investments to obligations of the U.S. Treasury, certain Federal agencies, bankers' acceptances, "prime" commercial paper, certificates of deposit, swaps and trades, State Treasurer's Local Agency Investment Fund (LAIF), and repurchase agreements. Credit ratings as of June 30, 2023, of the pool investments are presented above.

Concentration of Credit Risk – Concentration of credit risk is the loss risk attributed to the magnitude of a government’s investment in a single issuer. The County’s investment policy places certain maximum percentage limitations of investments by investment type and the Treasurer has adhered to this policy with no exception. As of June 30, 2023, the County’s investments by investment type as the percentage of the pool investments are shown above.

Investments in the securities of any individual issuer, other than U.S. Treasury securities, mutual funds, and external investment funds that represent 5% or more of pooled investments are as follows at June 30, 2023 (in \$000’s):

<u>Issuer</u>	<u>Amount</u>	<u>Percent of Investments</u>
Federal Home Loan Bank	\$ 1,945,463	37.2 %
Federal Farm Credit Bank	848,647	16.2
California Asset Management Program	840,000	16.0

Commercial Paper	493,219	9.4

The County is a participant in LAIF, which is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. Each entity may invest up to \$75,000,000 per account without limitation in special bond proceeds amounts. Investments in LAIF are highly liquid, as deposits can be converted to cash within 24 hours without loss of interest. The County’s investments with LAIF at June 30, 2023 included a portion of the pool funds invested in structured notes and asset-back securities. As of June 30, 2023, the County had \$10.0 million invested in LAIF, which had invested 2.78% of the pool investment funds in structured notes and asset-back securities. LAIF is overseen by the Local Agency Investment Advisory Board, which consists of five members, in accordance with state statute. The LAIF financial statements are available at the State Treasurer’s Office website at www.treasurer.ca.gov.

The County Treasurer also maintains an investment in the California Asset Management Program (CAMP) a California JPA established in 1989 by the treasurers and finance directors of several California agencies. It was created to provide professional investment services to California public agencies at a reasonable cost. The investment is maintained in the “Cash Reserve Portfolio” which is a short-term money market portfolio, which seeks to preserve principal, provide daily liquidity, and earn a high level of income, consistent with its objectives of preserving principal. The County’s Investment Pool’s with CAMP as of June 30, 2023, was \$840 million which approximates fair value.

Fair Value Measurements

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the County has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement. Unobservable inputs reflect the County's own assumptions about the inputs market participants would use in pricing the asset or liability (including assumptions about risk). Unobservable inputs are developed based on the best information available in the circumstances and may include the County's own data.

The asset's level within the hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The determination of what constitutes observable requires judgment by the County's management. County management considers observable data to be that market data, which is readily available, regularly distributed or updated, reliable, and verifiable, not proprietary, and provided by multiple independent sources that are actively involved in the relevant market. The categorization of an investment within the hierarchy is based upon the relative observability of the inputs to its fair value measurement and does not necessarily correspond to County management's perceived risk of that investment.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The County's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

COUNTY OF SAN JOAQUIN

NOTE 2 CASH AND INVESTMENTS (CONTINUED)

Fair Value Measurements (Continued)

Deposits and withdrawals in governmental investment pools, such as LAIF and CAMP are made on the basis of \$1 and not fair value. Accordingly, the County's proportionate share in these types of investments is an uncategorized input not defined as a Level 1, Level 2, or Level 3 input.

The following is a description of the valuation methods and assumptions used by the County to estimate the fair value of its investments. There have been no changes in the methods and assumptions used at June 30, 2023. The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. County management believes its valuation methods are appropriate and consistent with other market participants. The use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The County's treasury pools asset market prices are derived from closing bid prices as of the last business day of the month as supplied by Interactive Data, Bloomberg or Telerate. Where prices are not available from generally recognized sources, the securities are priced using a yield-based matrix system to arrive at an estimated market value. Prices that fall between data points are interpolated. Non-negotiable FDIC-insured bank certificates of deposit are priced at par.

When available, quoted prices are used to determine fair value. When quoted prices in active markets are available, investments are classified within Level 1 of the fair value hierarchy.

For investments classified within Level 2 of the fair value hierarchy, the County's custodians generally use a multi-dimensional relational model. Inputs to their pricing models are based on observable market inputs in active markets. The inputs to the pricing models are typically benchmark yields, reported trades, broker-dealer quotes, issuer spreads and benchmark securities, among others. The County does not have any investments that are measured using Level 3 inputs.

The valuation of Money Market Mutual funds held by the pool is at \$1 net asset value (NAV) per share. The total fair value of these at June 30, 2023 was \$125 million. The redemption frequency is daily and redemption notice period of intra-daily. This type of investment primarily invests in short-term U.S. Treasury and government securities (including repurchase agreements collateralized by U.S. Treasury and government agency securities).

Special Funds and Investments

In addition to the County Treasurer's investment pool, certain specific funds and investments are managed by contracted financial institutions (fiscal agents) and include the Industrial Revolving Loan Fund and the restricted Certificates of Participation (COPs). The investments of COPs and revenue bonds are reported as restricted cash and investments on the financial statements of the County debt service funds and the Solid Waste Enterprise Fund. The purpose of the restricted cash is to fund future long-term debt payments (\$609 thousand), capital projects (\$5.7 million) and to fund future pension contributions (\$53.4 million). Presented below are those deposits and investments managed by the trustee banks at June 30, 2023 (in \$000's):

NOTE 3 SJCERA CASH AND INVESTMENTS

A. Investment in Securities Lending Program

SJCERA participates in the Northern Trust Company (NT)'s pooled securities lending program. Under the agreement, NT is authorized to lend the SJCERA securities that it holds to certain SJCERA-approved borrowers. NT does not have the ability to pledge or sell collateral securities unless a borrower default occurs.

All loans are fully collateralized with either cash, securities issued or fully guaranteed by the U.S. government, or irrevocable bank letters of credit. All collateral is held or invested by NT. The term or maturity of the securities loaned is generally matched with the term or maturity of the investment of the cash collateral. U.S. securities are loaned with collateral valued at 102% of the fair value of the securities plus any accrued interest. Non-U.S. securities are loaned with collateral valued at 105% of the fair value of the securities plus any accrued interest.

As of December 31, 2022, SJCERA had the following securities out on loan.

	Fair Value of Securities Lent	Cash Collateral Value	Noncash Collateral Value
U.S. Equities	\$ 12,182,740	\$ 11,552,530	\$ 971,748
U.S. Debt Securities	128,248,922	113,015,222	18,400,670
Total U.S. Securities	<u>140,431,662</u>	<u>124,567,752</u>	<u>19,372,418</u>
Non-U.S. Equities	3,492,308	-	3,727,736
Non-U.S. Debt Securities	38,472,805	996,852	39,845,486
Total Non-U.S. Securities	<u>41,965,113</u>	<u>996,852</u>	<u>43,573,222</u>
Total	<u>\$ 182,396,775</u>	<u>\$ 125,564,604</u>	<u>\$ 62,945,640</u>

The cash collateral is reported on the financial statements as an asset and as a liability of SJCERA. Securities lending transactions collateralized by letters of credit, or by securities that SJCERA do not have the ability to pledge or sell unless the borrower defaults, are not reported as assets and liabilities in accordance with GASB Statement No. 28. The potential risks involved in the securities lending program include borrower bankruptcy, collateral deficiencies, settlement problems, corporate actions, dividends, and interest. SJCERA's pro-rata share of net income derived from NT's pooled securities lending transactions in 2022 was \$351,039. As of December 31, 2022, there was no credit risk exposure to borrowers because the collateral exceeded the amount borrowed. The securities on loan at year-end were \$182 million and the collateral received for those securities on loan was \$188 million.

NOTE 3 SJCERA CASH AND INVESTMENTS (CONTINUED)

C. Long-Term Investments (Continued)

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. SJCERA's investment policy seeks to maintain a diversified portfolio of fixed income instruments in order to obtain the highest total return for the fund at an acceptable level of risk within the asset class. To control such risk, credit quality guidelines have been established for the separately managed accounts. The following table depicts the value of the investments exposed to those risks and the corresponding credit ratings from Standard & Poor's (S&P) as of December 31, 2022.

<u>Quality Ratings</u>	<u>Fair Value</u>

Total Investments in Fixed Income Securities	<u><u>\$ 857,950,296</u></u>

Custodial Credit Risk

The custodial credit risk represents the risk that, in the event of the failure of the counterparty of a transaction, SJCERA will not be able to recover the value of deposits and investments or collateral securities that are in the possession of an outside party.

Deposits

The deposits with the County Treasurer are uninsured but secured by public funds of the pledging banks. The pool's investments, all held in the County's name, are short-term and include U.S. Treasury Bills, certain Federal agencies' instruments, bankers' acceptances, "prime" commercial paper, certificates of deposit, repurchase agreements, and the State Treasurer's Local Agency Investment Fund.

The cash deposits with NT are uninsured and uncollateralized. All underlying investments in the commingled STIF account are not registered in SJCERA's name.

**COUNTY OF SAN JOAQUIN
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2023**

NOTE 3 SJCERA CASH AND INVESTMENTS (CONTINUED)

C. Long-Term Investments (Continued)

Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in SJCERA's name, and held by the counterparty. SJCERA's investment securities are not exposed to custodial credit risk because all securities are held by SJCERA's custodial bank in SJCERA's name, or by other qualified third-party administrator trust accounts.

Concentration of Credit Risk

This risk represents the potential loss attributable to the magnitude of SJCERA's investments in a single issuer. As of December 31, 2022, for separately managed investment accounts, SJCERA did not hold any investments within any one issuer that would represent 5% or more of plan fiduciary net position.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Duration is a measure of the price sensitivity of a fixed income portfolio to changes in interest rates. It is calculated as the weighted average time to receive a bond's coupon and principal payments. The longer the duration of a portfolio, the greater its price sensitivity to changes in interest rates.

Total Fixed Income Securities	<u>\$ 857,950,296</u>	

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates may adversely affect the fair value of an investment. SJCERA's external non-U.S. equity and fixed income investment managers may invest in international securities in accordance with their investment guidelines pertaining to these types of investments.

Currency hedging on an unleveraged basis is permitted by non-U.S. equity managers as a strategy to protect against losses due to currency translations (defensive hedging). However, it is expected that the primary sources of added value for non-U.S. equity investment managers will be stock and country selection, with currency management focused on limiting losses due to fluctuations in currency values. Managers may purchase or sell currency on a spot basis to accommodate securities settlements.

Foreign Currency Risk (Continued)

Managers may invest in developed market currencies and emerging market currencies in accordance with their investment guidelines. Permitted derivative instruments are currency spots, currency forward contracts (deliverable or non-deliverable), currency futures, options on currency forwards or futures, and currency swaps. Other investments, contracts, or positions that, in the managers' judgment, are of similar purpose and character and equal credit quality and marketability to any of the investments above, are also permissible.

SJCERA's exposure to foreign currency risk in U.S. dollars as of December 31, 2022, is as follows.

<u>Currency</u>	<u>Fair Value</u>
British Pound Sterling	\$ 3
Canadian Dollar	971,963
Euro Currency	91,447
Total	<u>\$ 1,063,413</u>

D. Fair Value Measurement

In accordance with GASB Statement No. 72, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The statement establishes a fair value hierarchy based on three types of input to develop the fair value measurements for investments. The level is determined based on the lowest level of input significant to the measurement in its entirety. Assets and liabilities measured at fair value are classified into one of the following categories:

Fair Value Hierarchy

Level 1 – Reflects unadjusted quoted prices in active markets for identical assets or liabilities accessible on the measurement date. Observable markets include exchange markets, dealer markets, and brokered markets.

Level 2 – Reflects similar observable inputs other than quoted market prices. It includes quoted prices for similar assets in active markets or quoted prices for identical or similar assets in inactive markets.

Level 3 – Reflects prices based on unobservable sources. They should be used only when relevant Level 1 and Level 2 inputs are unavailable.

Investments Measured At Net Asset Value (NAV) (Continued)

Private Credit – Assets within this segment are defined by non-bank lending where the debt is not issued or traded on the public markets.

Risk Parity Funds – Funds within this segment represent portfolios that seek to balance the risk characteristics of assets across multiple segments. These portfolios generally invest in equities, bonds, and commodities among other assets.

Multi-Strategy Hedge Funds – Funds within this segment can involve holding both long and short positions in securities instead of traditional long-only investments in publicly traded investments. Portfolios also may utilize derivatives or hedging strategies as well. Multi-Strategy managers utilized various investment segments to invest, including but not limited to, equities, bonds, currency, and commodities.

Fixed Income Hedge Funds – Funds within this segment can involve holding both long and short positions in securities instead of traditional long-only investments in publicly traded investments. Portfolios also may utilize derivatives or hedging strategies as well. These investment funds generally focus on opportunities within fixed income markets.

Private Equity Funds – These funds are illiquid allocations that invest primarily in buyout funds, venture capital, and debt/special situations. These funds are not eligible for redemption and investment periods are generally between 5 and 15 years.

Private Real Estate Funds – These funds are defined as those investments that are unleveraged or leveraged positions in real property. The portfolio may pursue direct privately held partnership interests, fund-of-funds interests, and direct holdings for its real estate allocation.

E. Summary of Investment Policy

The CERL vests the SJCERA Board with exclusive control over SJCERA's investment portfolio. The SJCERA Board established investment policies in accordance with applicable local, State, and Federal laws. The Board members exercise authority and control over the management of SJCERA's assets by setting policy, which the staff executes either internally or through the use of external prudent experts. The Board provides oversight and guidance subject to the following basic fiduciary responsibilities:

NOTE 5 INTERFUND TRANSACTIONS AND BALANCES (CONTINUED)

The Advance from the General Fund to the Stockton Metropolitan Airport Enterprise Fund in the amount of \$380,000 was to provide initial funding for expenses related to a federal grant application related to the construction of an area of an adjacent commercial business property that will be developed for aviation and aviation supported activities. Construction on the property began in November 2021, with full build-out anticipated by 2026. The advance will be repaid upon award of the Federal grant. No interest is being accrued.

The Advances from the General Fund to the Other Governmental Funds in the amount of \$3,790,623 are to fund capital asset improvements and other long-term projects. Payments on the advances are made from receipts of charges for services. There is no set payment schedule, and the General Fund is expected to be repaid by future revenues of the Other Governmental Funds when funds are available. No interest is being accrued.

The Advance from the County Capital Outlay Fund in the amount of \$109,980 was to fund the purchase of a building and property to house sheriff operations. Payments on the advances are made from the Sheriff's CalMMet department. Payments are \$56,082 per year, which includes interest at 1.32%, through fiscal year 2024-25. No interest is being accrued.

Interfund Transfers

During the course of normal operations, the County has numerous transactions between funds as a result of labor negotiations, new funding resources, new projects, debt service payments, etc. Those transfer transactions are summarized below (in \$000's):

A. Financed Purchases

The County has entered into long-term financing agreements under which the related equipment will become the property of the County when all terms of the lease agreements are met.

B. Lease Liabilities

The County has entered into multiple lease agreements for equipment and buildings. The County is required to make principal and interest payments through June 2054. The lease liability was valued using discount rates between 1.046% and 2.886% which is based on the County's incremental borrowing rate.

Total future minimum lease payments under lease agreements are as follows:

D. Certificates of Participation, Revenue Bonds, and Notes Payable

Certificates of Participation

The County had the following Certificates of Participation (COPs) issues outstanding at June 30, 2023:

<u>Project Name</u>	<u>Issuance Date</u>	<u>Face Value of the C.O.P.</u>	<u>Year-End Balance</u>
Governmental Activities:			
2017 County Administration Building			
Refunding	August 22, 2017	\$ 79,865,000	\$ 54,940,000
Total Governmental Activities		<u>\$ 79,865,000</u>	<u>\$ 54,940,000</u>

All Certificates of Participation were issued by the San Joaquin County Public Facilities Financing Corporation. According to the official statements of the COPs, all proceeds from the issuance are held and maintained by a Trustee Bank (Trustee) for the County Treasury. The Trustee invests the proceeds in demand or time deposits of any bank authorized to accept deposits of public funds, and/or in permitted investments as authorized by the County. Interest or profits on such investments received by the Trustee are, prior to the completion of the acquisition, construction, and installation of the project, deposited in the Project Fund and thereafter are deposited in the Interest Fund. Costs of the acquisition and construction of the project are paid by the Trustee from the Project Fund, upon the County's authorization. Once the project is completed, the remaining funds in the Acquisition and Construction Fund, if any, are transferred to the County's proper funds or to the debt service funds.

The 2017 County Administration Building Project Refunding COPs are recorded as the liabilities of the Governmental Activities on the statement of net position. The debt service transactions and the fund balance of the reserve are recorded in the County Debt Service Fund. The portion of the proceeds that are used for the construction of the County administration building is recorded in the County Capital Outlay Fund. All activities are also included in the Governmental Activities on the statement of net position.

The 2017 Refunding COPs were issued on August 22, 2017, with an average interest rate of 5%, to prepay and defease all of the outstanding principal amount of the 2007 County Administration Building Project COPs, issued on May 23, 2007, with an average interest rate from 4.75% to 5.0%, and pay the costs of financing, including the premium for the Policy and Reserve Policy. The certificates mature in 2031 with principal payments ranging from \$165,000 to \$8,045,000.

D. Certificates of Participation, Revenue Bonds, and Notes Payable (Continued)

Revenue Bonds

The County had the following Revenue Bonds issues outstanding at June 30, 2023:

<u>Project Name</u>	<u>Issuance Date</u>	<u>Face Value of Revenue Bonds</u>	<u>Year-End Balance</u>
2018 County Service Area No. 31 Revenue Refunding	February 27, 2018	\$ 7,750,000	\$ 6,810,000
Total		<u>\$ 7,750,000</u>	<u>\$ 6,810,000</u>

The 2018 County of San Joaquin Revenue Refunding Bonds (CSA No. 31) are recorded as the liabilities of the CSA 31 Flag County enterprise funds on the proprietary funds statement of net position.

The County has pledged future wastewater service revenues, net of specified operating expenses, to repay \$7.75 million in revenue bonds refunded in February 2018. The bonds are payable solely from wastewater customer net revenues and are payable through 2043. These 2018 Revenue Refunding Bonds (\$6,515,000 tax-exempt and \$1,235,000 taxable) were issued on February 27, 2018, with an average interest rate of 5%, to prepay the outstanding 2007 County Service Area No. 31 Project COPs, with an average interest rate from 4.10% to 5.8%, refinance a loan made by the County-to-County Service Area No. 31, fund a debt service Bond Reserve Fund, and pay costs of issuance incurred in connection with the issuance, sale and delivery of the 2018 Bonds. These Refunding Revenue Bonds are repaid by revenues received by the County from its ownership and operation of the CSA No. 31 sanitary sewer system in accordance with the Bond agreements. The Refunding Bonds mature in 2043 with principal payments ranging from \$125,000 to \$525,000. The total principal and interest remaining to be paid on the bonds is \$10,766,875. Principal and interest paid for the current year and total customer net revenues were \$542,000 and \$928,370, respectively.

Notes Payable

The County Maintenance District of Shaded Terrace (Special Revenue Fund) entered into agreement with the United States Department of Agriculture (USDA) for a loan of \$300,000 in 2000-01. The loan, along with the grants received from the USDA, were used to finance certain capital improvements to the water systems of the District. As of June 30, 2023, the outstanding principal balance on the Shaded Terrace loan totaled \$199,000.

D. Certificates of Participation, Revenue Bonds, and Notes Payable (Continued)

Notes Payable (Continued)

In fiscal year 2004-05, the County settled a lawsuit that was filed by H.D. Arnaiz, LTD, a California limited partnership (HDAL). This lawsuit involved the HDAL's rights to lease certain real property around the Airport area. The settlement requires the County to make an annual payment of \$132,115 between August 2005 and August 2029 (Promissory Note). In addition, the County is to make an annual property tax-based payment between September 2005 and September 2029 (tax-based agreement). The tax-based payment is to be calculated each year and to be paid only if a certain threshold is met. The sum total of the payments under the promissory note payment and the tax-based agreement, in the aggregate is not to exceed \$4.0 million prior to 2029. The County reports the note liability (\$2.0 million total) in the Casualty Insurance Fund, an internal service fund. As of June 30, 2023, the outstanding principal balance was \$784,246.

The Arnaiz note payable is a direct borrowing and it contains a subjective acceleration clause that allows the debt to become immediately due and payable in full if the County should default on the note.

Arbitrage

The Tax Reform Act of 1986 instituted certain arbitrage restrictions with respect to the issuance of tax-exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of all tax-exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebates are not reported and paid to the Internal Revenue Service (IRS) at least every five years. During the current year, the County performed calculations of excess investment earnings on various bonds and financings and at June 30, 2023, does not expect to incur a significant liability.

NOTE 9 LANDFILL CLOSURE AND POSTCLOSURE LIABILITY

State and federal laws and regulations require the County to place a final cover on its landfills when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for 30 years after closure. Although closure and postclosure care costs will be paid only near or after the date that the landfill stops accepting waste, GASB Statement No. 18, *Accounting for Municipal Solid Waste Landfill Closure and Postclosure Care Costs*, requires a portion of these closure and postclosure care costs to be recognized as an operating expense in each period of operation, based on landfill capacity used. The County is also required by state and federal laws and regulations to make annual contributions to a trust to finance closure and postclosure care.

The County uses the Solid Waste Closure Fund, reported within the Solid Waste Enterprise Fund, to account for the contributions, as well as the landfill closure and postclosure costs.

At June 30, 2023, the landfill closure and postclosure care liability of \$39.0 million represents the cumulative amount reported to date based on the cumulative usage of the landfills' capacity, minus the cash payments made. The remaining estimated cost of closure and postclosure care of \$17.8 million will be recognized as the remaining estimated capacities are filled. These amounts are based on what it would cost to perform all closure and postclosure care in 2023. Actual cost may be higher due to inflation, changes in technology, or changes in regulations.

Prior year deposits and interest earned exceed the minimum closure fund balance required by the state, therefore, no transfers into the closure fund were made in fiscal year 2022-23. The funds available for landfill closure and postclosure remained at \$5.3 million, which leaves approximately \$33.5 million to be funded in future years. Two of the County's four landfills have been closed. The remaining two landfills are Foothill and North County. Foothill will be operative until 2090 and is at 9% capacity. North County will be operative until 2070 and is at 19% capacity.

The County is required by state and federal laws and regulations to make annual contributions and/or provide an alternative funding mechanism to finance closure and postclosure costs. The County funds closure and postclosure costs with a combination of pledge of revenue agreements and restricted cash.

NOTE 10 RISK MANAGEMENT

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; natural disasters; and employees' health. To effectively manage those risks and control costs, the County established self-insurance programs for casualty, workers compensation, unemployment compensation, medical insurance, and dental insurance (June 1982). Under these programs, the County provides coverage for up to a \$1,000,000 for each general liability and malpractice claim, \$25,000 for each property damage claim, \$25,000 for each public official performance claim, \$400,000 for health insurance coverage, and \$3,000 for dental insurance coverage per covered life per year. The County also joins together with other public agencies in the state through Public Risk Innovation, Solutions, and Management (PRISM) to obtain general liability and malpractice insurance coverage for claims in excess of the coverage provided by the County up to \$25 million and \$21.5 million, respectively.

The County also purchases commercial stop loss insurance for the health insurance coverage in excess of the County covered portion. Settled claims have not exceeded the EIA coverage or the commercial insurance coverage in any of the past three fiscal years.

All funds of the County participate in the programs and make payments to the insurance funds based on the actuarial estimates of the amounts needed to pay prior- and current-year claims and to establish a reserve for catastrophic losses.

Based on the most recent actuarial studies (December of 2022), the full value of the County's unpaid casualty (general liability and malpractice liability) liabilities and the workers compensation program liabilities at June 30, 2023, were estimated at a discounted value of \$29.0 million and \$39.8 million, respectively, using the discount rate of 2.0%. These actuarially determined liabilities include the unpaid loss adjustment expenses.

In the opinion of management, the total assets in the insurance funds were sufficient to cover the actuarially determined claim liabilities, premium, and administration cost as of June 30, 2023.

The insurance funds had the following net position at June 30, 2023 (in \$000's):

	<u>Net Position</u>
Casualty Insurance	\$ (20,755)

A. San Joaquin County Employees' Retirement Association

General Information about the Pension Plan

Plan Description – All full-time and part-time County employees participate in the San Joaquin County Employees' Retirement Association (SJCERA) (the Plan), a cost-sharing defined benefits retirement plan. SJCERA is administered by the Board of Retirement of the San Joaquin County Employees' Retirement Association (SJCERA) and is governed by the County Employee's Retirement Law (CERL) of 1937 (California Government Code Section 31450 et. Seq.), and the California Public Employees' Pension Reform Act of 2013 (PEPRA). The Plan's authority to establish and amend the benefit terms are set by the CERL and PEPRA, and may be amended by the California state legislature and in some cases require approval by the County of San Joaquin Board of Supervisors and/or the SJCERA Board. SJCERA is a tax-qualified plan under Section 401(a) of the Internal Revenue Code (IRC).

SJCERA publishes its own annual comprehensive financial report that includes its financial statements and required supplementary information which can be obtained by writing to SJCERA at 6 South El Dorado Street, Suite 400, Stockton, California 95202, or by calling (209) 468-2163.

Benefits Provided – SJCERA provides service retirement, disability, death, and survivor benefits to eligible employees. All permanent full-time or part-time employees of the County of San Joaquin or contracting district become members of SJCERA upon employment. There are separate retirement plans for Safety and Miscellaneous member employees. Safety membership is extended to those involved in active law enforcement, fire suppression, and certain other classifications. There are two tiers applicable to Safety and Miscellaneous members separately. Those hired prior to January 1, 2013, are included in Tier 1 and those hired after that date are included in Tier 2.

The CERL and PEPRA establish benefit terms. Retirement benefits are calculated on the basis of age, average final compensation, and service credit as follows:

Safety Members

Safety members hired prior to January 1, 2013 (Tier 1), are eligible to retire once they attain the age of 50 and have acquired five or more years of retirement service credit and have passed the tenth anniversary of their membership in SJCERA. A member with 20 years of service is eligible to retire regardless of age. Safety members who are first hired on or after January 1, 2013 (Tier 2), are eligible to retire once they have attained the age of 50, and have acquired five years of retirement service credit or after attaining age 70, regardless of service.

NOTE 13 DEFINED BENEFIT PENSIONS (CONTINUED)

A. San Joaquin County Employees' Retirement Association (Continued)

Safety Members (Continued)

Safety member benefits for Tier I are calculated pursuant to the provisions of California Government Code Section 31664.1. The service retirement benefit payable is equal to the final compensation multiplied by the percentage from Section 31664.1. The percentage of final compensation may not exceed 100%. Safety member benefits for those who are first hired on or after January 1, 2013, are calculated pursuant to the provision of California Government Code Section 7522.25(d). The monthly allowance is equal to the final compensation multiplied by years of accrued retirement credit multiplied by the age factor from Section 7522.25(d).

Miscellaneous Members

Miscellaneous members hired prior to January 1, 2013 (Tier 1), are eligible to retire once they attain the age of 50 and have acquired five or more years of retirement service credit and have passed the tenth anniversary of their membership in SJCERA. A member with 30 years of service or upon reaching age 70 with no service requirement is eligible to retire regardless of age. Miscellaneous members who are first hired on or after January 1, 2013 (Tier 2), are eligible to retire once they have attained the age of 52 and have acquired five years of retirement service credit or after attaining age 70, regardless of service.

Miscellaneous member benefits for Tier I are calculated pursuant to the provisions of California Government Code Section 31676.14. The service retirement benefit payable is equal to the final compensation multiplied by the percentage from Section 31676.14. Miscellaneous member benefits for those who are first hired on or after January 1, 2013, are calculated pursuant to the provision of California Government Code Section 7522.25(d). The monthly allowance is equal to the final compensation multiplied by years of accrued retirement credit multiplied by the age factor from Section 7522.25(d).

Maximum monthly retirement allowance is 100% of final average compensation for all tiers.

For Tier I members, final average compensation consists of the highest average compensation earned during any 12 consecutive months of the Member's employment. For Tier 2 members, highest average compensation will be based on the highest 36 consecutive months rather than 12 months.

NOTE 13 DEFINED BENEFIT PENSIONS (CONTINUED)

A. San Joaquin County Employees' Retirement Association (Continued)

Miscellaneous Members (Continued)

The service retirement benefit will be paid monthly beginning at retirement and for the life of the member. If the member selects the unmodified benefit form, in the event of the member's death, 60% of the benefit will continue for the life of the member's spouse, or to the age of majority of dependent minor children if there is no spouse. In the event there is no surviving spouse or minor children, any unpaid remainder of the member's accumulated contributions will be paid to the member's designated beneficiary.

Contributions

The County of San Joaquin, contracting districts, and active members are required by statute to contribute to the retirement plan based upon actuarially determined contribution rates (percentage of covered salary) adopted by the Board of Retirement. This requirement is pursuant to Government Code sections 31453.5 and 31454, for participating employers and Government Code sections 31621.6, 31639.25, and 7522.30 for active members. The contribution requirements are established and may be amended by the SJCERA Board pursuant to Article 1 of the CERL, which is consistent with the Plan's actuarial funding policy. The contribution rates are adopted annually based upon recommendations received from SJCERAs' independent actuary after the completion of the annual actuarial valuation. The combined active member and employer contribution rates are expected to finance any unfunded accrued liability. Participating employers may pay a portion of the active members' contributions through negotiations and bargaining agreements.

The composite total employer contribution rate for general and safety members combined for the measurement date ended December 31, 2022 ranged from 44.89% to 59.33% of covered payroll. For the year ended June 30, 2023, the County was required to contribute \$269,080,047 to the Plan.

Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions

At June 30, 2023, the County reported a liability of \$1,575,431,289 for its proportionate share of the net pension liability (including the First 5 San Joaquin discretely presented component unit). The net pension liability was measured as of December 31, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2022 rolled forwarded to December 31, 2022 using standard update procedures. The County's proportion of the net pension liability was based on a projection of the County's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At December 31, 2022, the County's proportion was 92.71%, which was a decrease of 0.07% from its proportion measured as of December 31, 2021.

Actuarial Assumptions – The total pension liability in the January 1, 2022 actuarial valuation was determined using the following actuarial assumptions:

	<u>General Members</u>
Valuation Date	January 1, 2022
Measurement Date	December 31, 2022
Actuarial Assumptions:	
Amortization Growth Rate	3.00%
Inflation	2.75%
Projected Salary Increase	3.00%
Investment Rate of Return	7.00%
Mortality	Sex distinct tables from the Society of Actuaries' new Public mortality tables, with generational mortality improvements projected from 2010 using Projection Scale MP-2018

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and projected arithmetic real rates of return for each major asset class used in the derivation of the long-term expected investment rate of return assumption as of December 31, 2022, are summarized in the table below:

<u>Asset Class</u>	<u>Target Allocation</u>
Aggressive Growth	16.00 %
Traditional Growth	34.00
Risk Parity	6.00
Credit	15.00
Core Real Assets	9.00
Principal Protection	7.00

Discount Rate

The discount rate used to measure the total pension liability was 7.00% as of December 31, 2022. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made based on the current contribution rate and that employer contributions will be made at the end of each pay period based on the actuarially determined contribution rates. For this purpose, only the employer contributions that are intended to fund benefits for current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service cost for future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included.

Based on those assumptions, SJCERA's fiduciary net position was projected to be available to make all the projected future benefit payments for current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the County's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the County's proportionate share of the net pension liability, calculated using the discount rate, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

County's Proportionate Share of the Net Pension Liability	\$ 2,255,468,152	\$ 1,575,431,289	\$ 1,014,798,278

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued SJCERA financial reports available by writing to San Joaquin County Employees' Retirement Association, 6 South El Dorado Street, Suite 400, Stockton, California 95202 or by calling (209) 468-2163.

General Information about the Pension Plan

The County has a closed plan to new entrants with the California Public Employees' Retirement System (CalPERS). Certain employees of the Health Care Services Department (Public Health) were members of CalPERS. This plan was closed effective June 28, 1993 and those employees became eligible to participate in SJCERA through reciprocity.

General Information about the Pension Plan (Continued)

Plan Description – All qualified permanent and probationary employees are eligible to participate in the Public Agency Cost-Sharing Multiple-Employer Defined Benefit Pension Plan (the Plan) administered by the California Public Employees' Retirement System (CalPERS). The Plan consists of individual rate plans (benefit tiers) within a safety risk pool (police and fire) and a miscellaneous risk pool (all other). Plan assets may be used to pay benefits for any employer rate plan of the safety and miscellaneous pools. Accordingly, rate plans within the safety or miscellaneous pools are no separate plans under GASB Statement No. 68. Individual employers may sponsor more than one rate plan in the miscellaneous or safety risk pools. The County sponsors one rate plan (one miscellaneous).

Benefit provisions under the Plan are established by state statute and County resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions, and membership information that can be found on the CalPERS website.

Benefits Provided – CalPERS provides service retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the basic death benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost-of-living adjustments for the plan are applied as specified by the Public Employees' Retirement Law. Benefit provisions and all other requirements are established state statute. Since participation in the CalPERS Cost-Sharing Plan is closed for County employees, the benefit provisions cannot be amended.

The Plan's provisions and benefits in effect at June 30, 2023, are summarized as follows:

Formula	2.0% @ 55
Benefit Vesting Schedule	5 Years of Service
Benefit Payments	Monthly for Life
Retirement Age	50-55
Monthly Benefits, as a % of Annual Salary	2.0% – 2.7%
Required Employee Contribution Rates	8.00%
Required Employer Contributions Rates	23.08%

Contributions

Section 20814 of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through the CalPERS' annual actuarial valuations process. For public agency cost-sharing plans covered by the miscellaneous risk pools, the Plan's actuarially determined rate is based on the estimated amount necessary to pay the Plan's allocated share of the risk pool's cost of benefits earned by employees during the year, and any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. For the year ended June 30, 2023, the active employee contribution rate is 8.00% of annual pay. The County's contribution to the Plan for the year ended June 30, 2023 was \$1,609,099.

Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions

As of June 30, 2023, the County reported a liability of \$15,170,005 for its proportionate share of the net pension liability.

The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2021, rolled forward to June 30, 2022, using standard update procedures. The County's proportion of the net pension liability was based on a projection of the County's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined as of June 30, 2020, the County's proportion was 0.3242%, which was an decrease of .21499% from its proportion measured as of June 30, 2021.

Actuarial Assumptions – The total pension liability in the June 30, 2021, actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	June 30, 2021
Measurement Date	June 30, 2022
Actuarial Cost Method	Entry-Age Normal Cost
Actuarial Assumptions:	
Discount Rate	6.90%
Inflation	2.30%
Projected Salary Increase	Varies by Entry Age and Service
Mortality	Based on CalPERS Experience Study

The mortality table was developed based on CalPERS-specific data. The rates incorporate Generational Mortality to capture ongoing mortality improvement using 80% of Scale MP 2020 published by the Society of Actuaries. For more details, please refer to the 2021 experience study report that can be found on the CalPERS website. at www.calpers.ca.gov under Forms and Publications.

In determining the long-term expected rate of return, CalPERS took into account long-term market return expectations as well as the expected pension fund cash flows. Projected returns for all asset classes are estimated and, combined with risk estimates, are used to project compound (geometric) returns over the long term. The discount rate used to discount liabilities was informed by the long-term projected portfolio return..

[1] An expected inflation rate of 2.30% used for this period.

[2] Figures are based on the 2021-22 Asset Liability Management study.

Discount Rate

The discount rate used to measure the total pension liability for PERF C was 6.90%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

C. Defined Contribution Pension Plan for the County Full-Time Physicians in Health Care Services

The County has an agreement with Mass Mutual (formerly Hartford) to administer a qualified retirement plan, 401(a), for the County's full-time physicians. Under this plan, the County contributes \$8,000 annually per qualified physician to the plan. The physicians are also required to contribute a mandatory, tax-deferred match at a rate of 6.0% of their compensation. The investments in the plan are self-directed by the employer. In fiscal year 2022-2023, the County contributed \$296,770 to the plan.

NOTE 14 OTHER POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

Plan Description

The County administers a Single Employer Defined Benefit Healthcare Plan. The plan is administered by the County and governed by the Board of Supervisors. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75. The County has not executed a formal plan document that provides for these benefits and the plan does not have a name.

Benefits Provided

Any member receiving a retirement or survivor benefit from SJCERA is eligible to purchase postretirement health coverage through the plans offered by the County. A member may elect to enroll in a County retiree health plan at the time of retirement, later elect to defer coverage and, if the retiree can show evidence of continuous coverage in an employer-provided group health insurance program, can within 30 days of terminating other group coverage re-enroll in a County retiree health plan. Retirees who leave the County health plans and enroll in individual coverage may not re-enroll in a County plan at a later date.

The retired members will generally pay the full amount of the specified premium for any County retiree health plan. Members hired before August 27, 2001 may use the value of accumulated sick leave bank to pay for premiums in retirement, subject to a minimum threshold of \$4,425 at retirement. However, if a member selects one of the medical plans with a premium determined based on a blending of active and retiree populations (currently, the Kaiser non-Medicare coverage and the self-funded plans), an implicit subsidy must be recognized. The total OPEB benefits provided was \$2,916,000 for the year ended June 30, 2023.

Pending Litigations

The County is a defendant in various casualty and workers compensation lawsuits. Claims against the County are recorded in the internal service funds (see Note 10).

Grants

The County recognizes as revenue, grant monies received and available within 60 days as reimbursement for costs incurred in certain federal and state programs it administers. Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the County expects such amounts, if any, to be immaterial.

Medicare and Medi-Cal Programs

The San Joaquin General Hospital provides services to eligible patients under Medi-Cal and Medicare programs. For the fiscal year ended June 30, 2023, the Medi-Cal program represented approximately 28%, and the Medicare program represented approximately 26%, of the Hospital's net patient service revenue. Medi-Cal inpatient services are reimbursed at contractually agreed-upon per diem rates and outpatient services are reimbursed under a schedule of maximum allowances. Medicare inpatient services are reimbursed based upon pre-established rates for Medicare Severity-Diagnostic Related Group (MS-DRG). Outpatient services are reimbursed based on prospectively determined payments per procedure under a system called Ambulatory Payment Classifications. Certain defined capital and medical education costs related to Medicare beneficiaries continue to be paid based on a cost-reimbursement methodology. The Hospital is reimbursed for cost-reimbursable items at a tentative rate, with final settlement determined after submission of annual cost reports by the Hospital and audits thereof by the fiscal intermediary.

The Hospital's classification of patients under these programs and the appropriateness of their admissions are subject to an independent review by a peer review organization under contract with the Hospital. Reports on the results of such audits have been received through June 30, 2017 for Medicare and June 30, 2019, for Medi-Cal. Adjustments as a result of such audits are recorded in the year the amounts can be determined.

Hospital Provider Relief Funds (PRF)

During the year ended June 30, 2020, the Hospital received \$8,772,534 of Coronavirus Aid, Relief, and Economic Security (CARES) Act Coronavirus Relief Funds (CRF) administered by the Department of Health and Human Services (HHS). The funds are subject to terms and conditions imposed by HHS. Among the terms and conditions is a provision that payments will only be used to prevent, prepare for, and respond to coronavirus and shall reimburse the recipient only for healthcare-related expenses or lost revenues that are attributable to coronavirus. Recipients may not use the payments to reimburse expenses or losses that have been reimbursed from other sources or that other sources are obligated to reimburse. HHS currently has a deadline to incur eligible expenses and lost revenues, varying based on the date the Hospital received the funds.

As of June 30, 2023, the Hospital has recorded revenue of \$8,772,534 included as aid from other governments in the General Hospital Enterprise Fund.

NOTE 16 SERVICE CONCESSION ARRANGEMENTS (SCA)

Micke Grove Golf Course

GASB Statement No. 60, *Accounting and Financial Reporting for Service Concession Arrangements (SCA)*, defines an SCA as a type of public-private or public-public partnership. As used in GASB Statement No. 60, an SCA is an arrangement between a government (the transferor) and an operator in which all of the following criteria are met:

- a. The transferor conveys to the operator the right and related obligation to provide public services through the use and operation of a capital asset (referred to in the statement as a “facility”) in exchange for significant consideration, such as an up-front payment, installment payments, a new facility, or improvements to an existing facility.
- b. The operator collects and is compensated by fees from third parties.
- c. The transferor determines or has the ability to modify or approve what services the operator is required to provide, to whom the operator is required to provide the services, and the prices or rates that can be charged for the services.

The County has determined that the following arrangement meets the criteria set forth above (where the County is the transferor) and therefore included this SCA in the County’s financial statements.

On July 18, 1989, the County entered into an SCA with American Golf Corporation to construct and operate a golf course at Micke Grove Park in Lodi, California. A 40-year lease agreement between the County and American Golf Corporation began January 1, 1991, upon completion of the construction of the golf course and required facilities. In December 2007, the County agreed to allow American Golf Corporation to sublease to CNL Income EAGL Leasehold Golf, LLC, and also allowed a sub-sublease to Evergreen Alliance Golf Limited, L.P.

A summary of the important details for this SCA over the term of its agreement are as follows:

	Date SCA Entered Into	Term of SCA	Expiration of SCA	Minimum Installment Payment (per Month)	Revenue Sharing
Micke Grove Golf Course	1/1/1991	40 Years	12/31/2030	<u>\$ 12,500</u>	Greater of minimum rent versus various percentages of gross sales

**COUNTY OF SAN JOAQUIN
NOTE TO REQUIRED SUPPLEMENTARY INFORMATION
JUNE 30, 2023**

NOTE 1 BUDGETS AND BUDGETARY ACCOUNTING

In accordance with provisions of Sections 29000 through 29144 of the California Government Code and other statutory provisions, commonly known as the County Budget Act, the County of San Joaquin (the County) prepares and legally adopts an operating balanced final budget on or before June 30 of each year. Public hearings are conducted to review all proposed appropriations and the sources of financing before the adoption.

Since the final budget must be balanced, any shortfall in revenue and other financing sources requires an equal reduction in appropriations. This operating balanced budget is adopted each fiscal year for the general, special revenue, and special district service funds. It is prepared on a modified cash basis of accounting, except those encumbrances are treated as budgeted expenditures in the year the purchase commitment is made. The encumbered appropriations do not lapse at year-end. Accordingly, encumbrances outstanding at year-end are reported as assignments of fund balances for subsequent year expenditures and become authorized encumbrance appropriations carried over. Throughout the fiscal year, supplemental appropriations may be made by the Board of Supervisors when revenues are received from unanticipated sources, or from anticipated sources in excess of estimates thereof or from contingency sources.

The legal level for budgetary control (the level at which expenditures may not exceed budgeted appropriations) is at the index and object level. An "index" for legal appropriation purposes may be (1) a single department (General Fund), (2) a division of a large department having multiple divisions, or (3) an entire fund. Object levels of expenditures for legal appropriation purposes are:

1. Salaries and benefits
2. Services and supplies
3. Other charges
4. Capital outlay
5. Other financing uses
6. Interfund transfers
7. Appropriation for contingencies
8. Contracts
9. Unclassified

All amendments or transfers of line-item appropriations between objects within the same index require County Administrator approval. Amendments and transfers of appropriations between indexes or that involve the addition or deletion of a project or piece of equipment must be approved by the Board of Supervisors. The Board of Supervisors has authorized the Auditor-Controller of the County to make year-end budget adjustments and appropriation transfers within the respective County budgets and funds to provide for expenditures in excess of budgeted amounts.

**COUNTY OF SAN JOAQUIN
NOTE TO REQUIRED SUPPLEMENTARY INFORMATION
JUNE 30, 2023**

NOTE 1 BUDGETS AND BUDGETARY ACCOUNTING (CONTINUED)

The budget approved by the Board of Supervisors for the General Fund includes budgeted expenditures and reimbursements for amounts disbursed on behalf of other governmental funds. Actual reimbursements for these items have been eliminated in the accompanying budgetary financial schedules. Accordingly, the related budgets for these items have also been eliminated in order to provide a meaningful comparison of actual and budgeted results of operations. A legally adopted budget was not prepared for the CRF Special Revenue Fund.

The budgets for the governmental funds may include an object level known as “intrafund transfers” in the charges for appropriations. This object level is an accounting mechanism used by the County to show reimbursements between operations within the same fund (an example would be the General Fund).

The following functions had excess expenditures over appropriations:

General Fund – General Government	\$24,905,405
General Fund – Public Ways and Facilities	671,157

SUPPLEMENTARY INFORMATION

GENERAL FUND ACCOUNTS

General Fund Accounts, representing the general operating fund of the County, include General Account (General Fund) and certain special accounts that are under the control of various General Fund departments. They are used to account for all financial resources not accounted for in another fund.
