TO: Board of Supervisors

FROM: Fritz Buchman, Director 

SUBJECT: DELTA-MENDOTA BRIDGE RAILING REPLACEMENT PROJECT
(KOSTER ROAD BRIDGE NO. 29C-353), FEDERAL AID PROJECT NO.
BPMPL-5929(260)

The Department of Public Works (Public Works) plans to advertise the Delta-Mendota Bridge Railing Replacement Project (Koster Road Bridge No. 29C-353), Federal Aid Project No. BPMPL-5929(260) (Project) for bids beginning on April 8, 2025. The bid opening date is scheduled for May 8, 2025.

The Project, in general, consists of removing and disposing of the existing curbing, metal railing and steel posts, and replacing with reinforced concrete barriers on both sides of the bridge to meet current standards. In addition, impact attenuators will be placed at all bridge corners at the approaches. The Project Plans, Specifications, and Estimate have been prepared by Jacobs Engineering Group Inc. and approved by Public Works staff. Construction is tentatively scheduled to begin in September of 2025 and be completed within 120 working days. During construction, a minimum of one lane will be opened to traffic at all times with a temporary signal system in place to control through traffic. The estimated construction cost is \$1,346,000 and is primarily funded by the federal Highway Bridge Program.

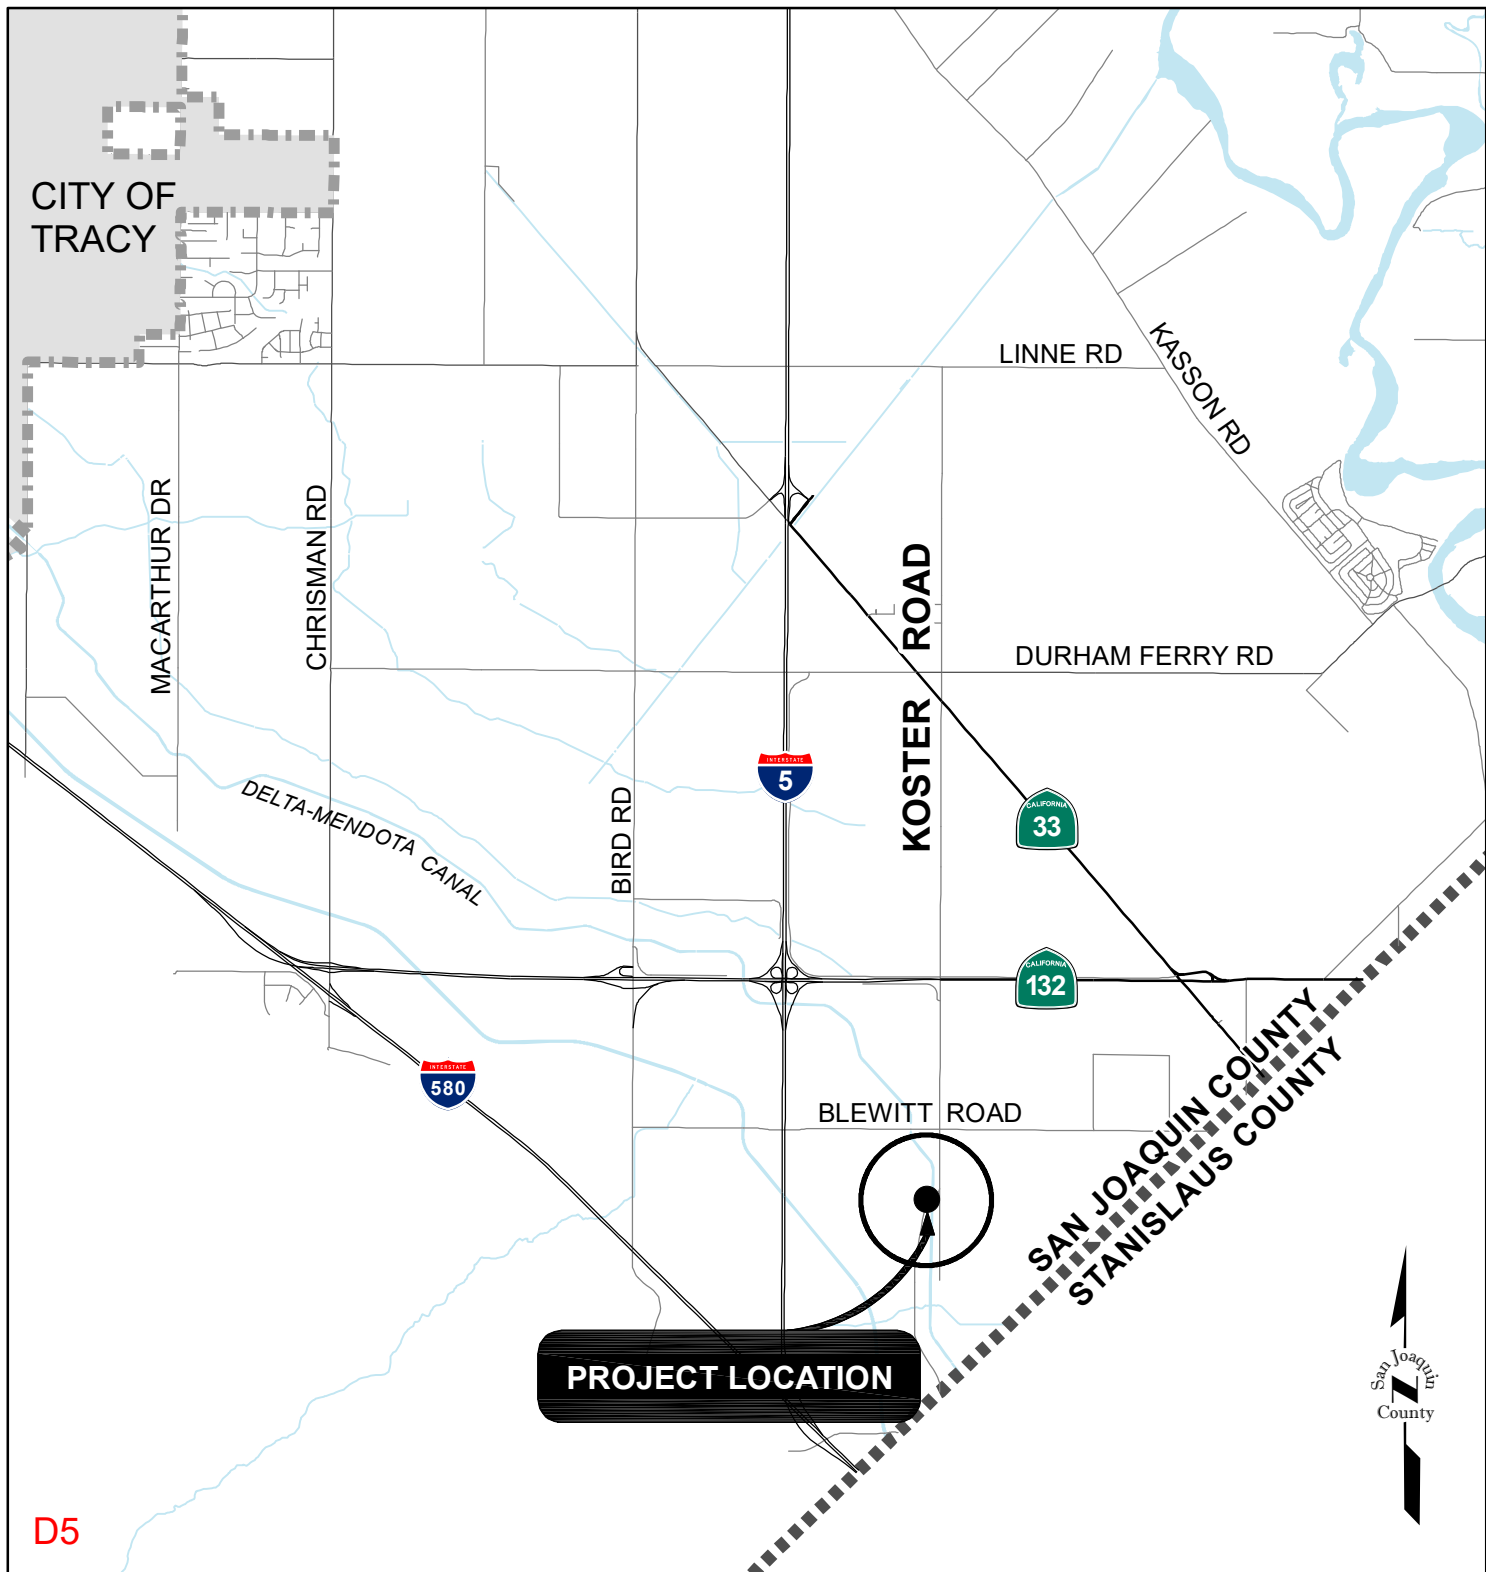

Once bids are received by Public Works, staff will review the bids and present a recommendation for consideration by the Board of Supervisors (Board) at a regularly scheduled Board meeting.

If you have any questions, please contact Najee Zarif, Deputy Director of Engineering at (209) 468-3053 or by email at nzarif@sjgov.org.
