

# District 3 News: A Year in Review

Covering Lathrop, Manteca, Stockton,  
French Camp, and More

SAN JOAQUIN  
COUNTY

Vice-Chair Sonny Dhaliwal

## Year End Thoughts

To the Community of San Joaquin County and District 3,

As I wrap up my first year serving as your District 3 Supervisor, I want to share my gratitude and reflect on the journey we have taken together. It has truly been an honor to serve our community, and I am excited about the opportunities that lie ahead.

I came to this country with a dream of raising my family in a land of opportunity with the ultimate goal of being able to give back. I am deeply thankful for the privilege of serving in a nation that has given me so much.

Over this past year, I have had the honor of listening to your concerns and working alongside residents, community organizations, and county partners to address the needs of District 3. Your voices, stories, and engagement continue to guide my work.

As we move forward, I remain committed to advocating for safer neighborhoods, expanded economic opportunity, strong public services, and a future where every family in District 3 can thrive. I look forward to continuing this work together and building on the progress we have made.

Thank you for your trust, your support, and the opportunity to serve you.

With gratitude,

Sonny Dhaliwal  
Supervisor, Third District, Vice-Chair

# Around Town: Community Events and More

Attending the Salvation Army Kettle Kickoff Luncheon.

Recongizing Sikh-American Heritage Month in San Joaquin County.

In the fall, the Board joined key County staff on a advocacy trip to Washington, DC.

Attending a tour of the San Joaquin County Mosquito & Vector Control District Office.

Celebrating with the Clerk of the Board's Staff during Clerk's Week in San Joaquin County.

Chef Jay Lakey was the guest speaker at the County's annual diversity luncheon and spoke on building resilience as individuals and a organization.

# Some 2025 Highlights

## American Legion Post 249

Our veterans have given so much in service to this nation, and it is only right that we ensure they have a safe, welcoming, and ADA-accessible space

to gather and support one another. When I took office, I was immediately made aware of funding issues that had recently arisen. Thanks to strong collaboration and swift action, we were able to deliver funding that honored their service and met their needs.

## San Joaquin County BeWell Campus Groundbreaking

San Joaquin County officially broke ground on the San Joaquin County behavioral health Campus, a transformational \$261 million behavioral health care campus in French Camp, near San Joaquin General Hospital.

The BeWell Campus is about removing barriers to treatment. Every resident, regardless of background, deserves access to behavioral health services. This project will open doors and save lives.

## Expansion of Passport Services in Lathrop

This year, San Joaquin County expanded access to essential services with the opening of a new passport acceptance office in Lathrop.

Located at Lathrop City Hall, the office provides residents with a convenient local option to apply for U.S. passports and obtain passport photos, reducing travel time and improving customer service for families across the region.

## Aria University and the New Medical School in French Camp

San Joaquin County is preparing to welcome its' first medical school, a major milestone for local healthcare education and access, with the goal of training students locally ensuring many graduates will stay and serve the people of our region. The school will be operated by Aria University, a private nonprofit institution, and is planned to open in 2027, and will be located in French Camp in a renovated county owned building.

This initiative is designed to expand training opportunities for future doctors, nurses, and other healthcare professionals right here in our community. San Joaquin County is considered a medically underserved area, with ongoing shortages of physicians and other providers.

The medical school will work closely with San Joaquin General Hospital, a well-established teaching hospital, that already provides residency training in fields such as family medicine, internal medicine, and surgery. As well other local healthcare institutions.

## Roth Road Extension Project Approved

The San Joaquin County Board of Supervisors in partnership with the City of Manteca and the San Joaquin County COG, has approved funding for a study of the Roth Road Extension Project! The first step for an important regional project. Extending Roth Road from Airport Way eastward to connect with State Route 99.

The project will provide a direct route for commuters and freight, reduce truck traffic on local streets, and support future growth in Manteca, Lathrop, and the County. This is an exciting step forward for our community, and we will keep you updated as this exciting project moves forward.

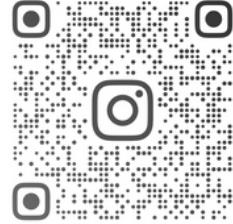

## Community Outreach - Here to Serve

My office remains open and accessible to all constituents. If you have questions, concerns, or need assistance, please don't hesitate to contact us. We're always happy to meet with you in our office—or come to you. Public service is about being present, listening, and taking action. I'm proud to be your voice on the Board of Supervisors.
