Dear Friends,

I hope you enjoy the latest edition of The Rickman Report, with more news and updates from across our communities in Tracy, Mountain House, Ripon, and Escalon.

As your representative on the San Joaquin Council of Governments, I want to share a quick update on a major transportation project that will benefit the entire region.

The State Route 99/120 Connector project is well underway. This two-year effort will improve safety and traffic flow between two of our busiest freeways. By adding new lanes, improving ramps, and upgrading nearby roads, this project will make commutes faster and safer for drivers, reduce congestion, and improve air quality across the Central Valley.

Phase One kicked off in August 2024 and construction will continue through 2026. You can stay informed about closures, detours, and progress updates by visiting the project webpage: [SJCOG SR 99/120 Updates](https://www.sjgov.org/departmen
t/bos/district-5).

Thank you for staying engaged. I will continue working to bring smart infrastructure investments to District 5 and beyond.

Help Shape the Future of South County Regional Park

I am committed to turning the long-promised South County Regional Park into a reality. Every year, we have made steady progress on this major project, a large regional park near Tracy that will offer recreational space, educational programs, and community amenities. Now, we need your input to help shape it.

The County Parks Department has launched a [brief survey](#) to hear directly from you. What features matter most? What should this park include? Your feedback will also help guide future funding for maintenance and improvements.

Take a few minutes to share your thoughts. Your voice will help bring this park to life.

Your Voice Matters: Help Improve Sidewalks in Your Community

San Joaquin County is working to make walking safer, easier, and more accessible, and we want to hear from YOU. Your input will help prioritize improvements and shape future sidewalk investments.

The [virtual workshop](#) will be held on [August 19, 2025 from 5:30pm to 7:00pm](#), where you can share your ideas and help improve sidewalk connectivity in your neighborhood.

If you are unable to attend, you can still share your feedback by contacting Marilissa Loera at mloera@sjgov.org.

SPARK Grant helps Small Business Recovery

To help offset the lasting effects of COVID-19 on local businesses, San Joaquin County launched the Spark Relief Grant Program for Small Business Assistance. This initiative is part of the County's continued commitment to helping small businesses not just recover but thrive in a post-pandemic economy.

Eligible small businesses can receive grants of up to \$5,000 to cover utility expenses if they experienced financial hardship due to the pandemic. This targeted financial support is designed to provide relief where it is most needed and strengthen the long-term health of our business community.

For more information visit [here](#).

Questions? Contact SparkGrant@sjcworknet.org or call 209-468-3615. To apply visit [here](#).

LEGISLATIVE ADVOCACY: MAKING YOUR VOICE HEARD

PG&E

The prolonged Public Safety Power Shutoff (PSPS) that took place in June in the southwest portion of our county was disruptive, frustrating, and unfair to the families and businesses affected. These types of extended shutoffs should not be the new normal.

As a follow-up, South County Fire Authority Chief Randall Bradley and I have been invited by PG&E to tour their Grid Control Center on August 1, 2025. I intend to make it clear that San Joaquin County residents deserve answers, transparency, and meaningful improvements that reduce the likelihood and duration of future shutoffs. I will keep pressing for long-term solutions that prioritize both safety and reliability.

Support: SB 712 – Classic Car Smog Check Exemption

SB 712 continues to progress through the legislative process and was read a second time and amended. It has been re-referred to the Committee on Appropriations. This bill provides exemptions for collector motor vehicles from smog checks - a win for car enthusiasts and preservationists alike.

Oppose: AB 470 As Amended – Carrier of Last Resort Mandate

The County, along with the California Farm Bureau Federation, remains opposed to Assembly Bill 470, as amended, and we submitted our updated letter of opposition on July 10, 2025.

AB 470 would dismantle core public obligations and accelerate the erosion of reliable, affordable telephone service, particularly in rural and high-risk areas. We should not prioritize company convenience over consumer protection.

TRACY

- Check Presentation to Boys & Girls Clubs in support of the youth sports programs “Summer Shootout Basketball Camp” (\$20,000)
- Joined Tracy Community during 4th of July traditional celebrations & Fireworks Show
