

Moved Structure Permit Checklist

1. One completed Building Permit Application.
2. A completed Structure Inspection. Provide a letter from a Licensed Structural Engineer, summarizing the integrity of the structure proposed to be relocated.
3. Obtain a Demolition Permit for the Building at its present location, if located in the unincorporated area of San Joaquin County.
4. Drawings stamped and signed by the licensed designer, to include:
 - a. Site plan, see next page.
 - b. Complete floor plan to include plumbing, electrical, HVAC system, door locations, window sizes and locations.
 - c. Foundation plan and floor framing plan with representative structural details.
 - d. Show location of all bearing points.
 - e. Detail repair of any structural members cut in order to relocate the building.

SITE PLAN CHECKLIST
(Site plans must contain all applicable information contained in this checklist)
*****incomplete site plans will not be accepted*****

SITE PLAN FORMAT:

The site plan shall include the following:

- Size: 24" x 36"
- North arrow pointing towards the top of the page
- Location and names of all streets and easements bordering on the property with access details
- All property lines or boundary lines of the parcel with dimensions
- Vicinity map showing the location of the property in relation to surrounding streets

PROJECT DETAILS:

- Identify and label all existing and proposed structures with dimensions, square footage, and distances from other structures and property lines
- Identify and label all existing structures proposed for removal
- Identify the location, dimensions and surface material of all existing and proposed parking and driveways
(See Chapter 9-1015 of the Development Title for Parking & Loading Regulations)

SERVICES: *(If public services will be utilized, a "will-serve" letter must be submitted from the service provider.)*

Well: *(Contact the Environmental Health Department at 209-468-3420 for well regulations)*

- Identify and label existing and proposed private water wells on-site
- Identify and label any off-site private wells within 200 feet of the property boundaries

Wastewater Treatment: *(Contact the Environmental Health Department at 209-468-3420 for questions regarding wastewater)*

- Identify and label existing and proposed private wastewater treatment systems (septic tanks)
- Identify and label all existing and proposed septic systems with dispersal fields (leach lines)

Storm Drainage: *(Contact the Department of Public Works at 209-468-3000 for questions regarding stormwater regulations)*

- Identify and label existing and proposed storm drainage facilities

TOPOGRAPHY:

- Identify any unusual topographic features of the site such as steep slopes and drainage courses
- Identify topographic contours
- Identify any surface water (streams, ephemeral streams, irrigation canals, aqueducts, etc.) within 1 mile of all property boundaries (Note: If the surface water is not located adjacent to the subject property, a note on the site plan with approximate location is sufficient.)

LANDSCAPING:

- Identify and label existing and proposed landscaping. (See Chapter 9-1020 of the Development Title for Landscaping Regulations)
- Identify any trees proposed for removal

FENCING & SCREENING:

- Identify the location and type of existing and proposed fencing and screening. (See Chapter 9-1022 of the Development Title for Fencing & Screening Regulations)
