December 12, 2022

It is my distinct honor to present the 2021-2022 San Joaquin County Annual Report, A Year in Review. The report includes the County's financial snapshot along with program and service highlights that demonstrate our collective commitment to those who live, work and play here.

Our County's collaborative accomplishments are a result of the talent, commitment, and leadership of our department heads and staff whose efforts align with the Board of Supervisors' Strategic Priorities: Fiscal Accountability, Good Governance, Economic Development, Water, and Public Safety.

The 2021-2022 annual report is available on our website at <https://sjgov.link/annual-report-2021-22>.

I encourage our community to share in these accomplishments as we continue to promote the greatness that grows in San Joaquin County and seize upon unique opportunities in the years ahead.

Sincerely,

A handwritten signature in blue ink that reads "Jerome C. Wilverding".
