FROM: Leon Brown, MBA, EMS Analyst

DATE: January 23, 2026

SUBJECT: Manteca District Ambulance (MDA) Exclusive Operating Area Ambulance Compliance Report

This EMS Agency Report on Exclusive Operating Area Zone D and the contract compliance for the Emergency Ambulance Provider Manteca District Ambulance (MDA), provides an in-depth review of MDA's performance. The contract establishes accountability for meeting specific standards and provides SJCEMSA with complete access to data and information on MDA's operational, clinical, and administrative performance.

The process for determining response time compliance includes a review of late response exemption requests to determine if a delay in response may be attributed to factors outside of the control of the ambulance provider. If an exemption request is approved (e.g. fog, train crossings, road construction, and delays in off-loading patients at hospitals) those responses are not included in response time compliance calculations to assess penalties and percentages. This report provides a clear picture of response time performance and contract compliance with and without the application.

MDA has submitted Key Performance Indicators for the months of November and December 2025. The table below identifies MDA's credited amount for the months of November and December 2025.

	Fine/Penalty Amount	KPI Discount	Amount Credited	Amount to be Paid
Nov	\$ 3,000.00	100%	\$ 3,000.00	\$ 0.00
Dec	\$ 6,750.00	100%	\$ 6,750.00	\$ 0.00

While this report provides detailed compliance information for each of the D-Zones, it is important to note that ninety percent (90%) of the urban Red Lights and Siren (RLS) calls,

January 23, 2026

Page 2 of 2

have an average response time of seven minutes and fifty-six seconds during the two-month period. This response performance is achieved without considering any late exemption requests.

The complete compliance report for November and December 2025 may be viewed or downloaded from the SJCEMSA website: www.sjgov.org/department/ems
