16 and operational procedures;

17 Whereas, Health and Safety Code, Division 2.5, Chapter 6, Article 3,
18 Section 1798.170 authorizes a local EMS agency to develop triage and transfer
19 protocols to facilitate the prompt delivery of patients to appropriate designated facilities
20 within and without its jurisdiction and states that the EMS Agency's considerations in
21 designating a facility shall include, but shall not be limited to, the following:

22 (a) A general acute care hospital's consistent ability to provide on-call physicians
23 and services for all emergency patients regardless of ability to pay.

24 (b) The sufficiency of hospital procedures to ensure that all patients who come to
25 the emergency department are examined and evaluated to determine whether or
26 not an emergency condition exists.

27 (c) The hospital's compliance with local EMS protocols, guidelines, and transfer
28 agreement requirements (collectively, the required "Considerations"); and

29 Whereas, Health and Safety Code, Division 2.5, Chapter 2, Section 1797.67
30 defines a "designated facility" as a hospital which has been designated by a local EMS

1 agency to perform specified emergency medical services systems functions pursuant to
2 guidelines established by the authority; and

3 Whereas, California Code of Regulations, Title 22, Division 9, Chapter 7.2,
4 Section 100270.220 authorizes the local EMS agency to create a Stroke Critical Care
5 System and designate qualified hospitals as Primary Stroke Centers; and

6 Whereas, the parties are each a department of the County of San Joaquin, a
7 political subdivision of the State of California;

8 Whereas, the San Joaquin County Board of Supervisors wishes to assure the
9 highest quality of care by directing acute stroke patients, as defined below, to facilities
10 committed to meeting Primary Stroke Center standards; and

11 Whereas, Hospital requests and desires to be a designated facility to perform as
12 a Primary Stroke Center (PSC) as part of the County's Emergency Medical Services
13 (EMS) system; and

14 Whereas, SJCEMSA has made the required considerations and examined
15 Hospital and has found Hospital to possess those performance characteristics,
16 personnel, and equipment required by SJCEMSA, as set forth in EMS Policy No. 4811
17 Primary Stroke Center Designation attached hereto as Exhibit "A" and incorporated
18 herein by this reference; and

19 Whereas, Hospital is willing to accept the designation by SJCEMSA as a PSC
20 and agrees to comply with the terms and conditions expressed herein;

21
