

COMMUNITY DISASTER PREPAREDNESS FOR HEALTHCARE CERTIFICATE PROGRAM

This program enhances knowledge and skills related to healthcare and public health disaster preparedness while earning continuing education credits.

**MEDICAL MANAGEMENT OF CHEMICAL, BIOLOGICAL, RADIOLOGICAL, NUCLEAR AND
EXPLOSIVE EVENTS PER-211**

MEDICAL COUNTERMEASURES: POINT OF DISPENSING, PLANNING AND RESPONSE— MGT-319

MEDICAL PREPAREDNESS & RESPONSE FOR BOMBING INCIDENTS — MGT-348— PER-233

PEDIATRIC DISASTER RESPONSE AND EMERGENCY PREPAREDNESS— MGT-439

DHS/FEMA-funded courses

COMMUNITY DISASTER PREPAREDNESS FOR HEALTHCARE CERTIFICATE PROGRAM

MEDICAL MANAGEMENT OF CHEMICAL, BIOLOGICAL, RADIOLOGICAL, NUCLEAR AND EXPLOSIVE EVENTS PER-211

Learn how to distinguish between different agents of concern that could be used in an incident. A combination of facilitated discussions, small-group exercises, human patient simulator hands-on scenarios, and traditional classroom discussions are used to present the topics. The multi-discipline make-up of the participants helps to strengthen information sharing, communications, and medical surge capabilities.

MEDICAL COUNTERMEASURES: POINT OF DISPENSING, PLANNING AND RESPONSE— MGT-319

This training course is to enhance jurisdiction preparedness and emergency response efforts by providing the knowledge of how to exercise and revise a plan that utilizes an all-hazards, whole community approach toward a medical countermeasures event. Assists with coordination of planning, training and responding to a Medical Countermeasure (MCM) response for a public health incident. This course responds directly to the National Preparedness Goal; as it applies to delivery of medical countermeasures to exposed populations.

MEDICAL PREPAREDNESS & RESPONSE FOR BOMBING INCIDENTS — MGT-348— PER-233

This interactive, Instructor facilitated program employs case studies, lessons learned, validated medical data, and potential threats to the communities we serve. Sessions will address planning considerations and concerns specific to medical responders, law enforcement, and emergency planners, with an intended outcome of integrating incidents of an explosive nature to existing plans.

PEDIATRIC DISASTER RESPONSE AND EMERGENCY PREPAREDNESS— MGT-439

A 2010 report by the National Commission on Children and Disasters identified a training gap for emergency responders, first receivers, and emergency management personnel that reduced their effectiveness in responding to pediatric patients and their unique needs/considerations. This course addresses pediatric emergency planning and medical response considerations through a combination of lectures, and small group exercises.

Participants completing all four Community Disaster Preparedness for Healthcare courses are eligible to apply for the Community Disaster Preparedness for Healthcare Certificate. Recipients will receive a 10x13 certificate of Professional Recognition suitable for framing.
