Please be advised that the San Joaquin County Environmental Health Department (EHD) received and approved a Joint Technical Document (JTD) amendment to the Solid Waste Facility Permit for the North County Recycling Center and Sanitary Landfill. The EHD is the Solid Waste Local Enforcement Agency (LEA) for this facility. The LEA is certified by the California Department of Resources Recycling and Recovery (CalRecycle) to enforce state laws and regulations at solid waste sites in San Joaquin County.

Description of Project and LEA's Determination

North County Recycling Center and Sanitary Landfill is a 320-acre existing solid waste facility located at 17720 E Harney Lane in unincorporated San Joaquin County. On November 5, 2026, the LEA received an application package amending the Joint Technical Document (JTD).

The amendment proposes that the site accept additional waste types for disposal. These waste types are Treated Medical Waste, Street Sweeping Waste and Shredded Tires.

The LEA finds that the proposed change is consistent with all applicable certified and/or adopted CEQA documents, is consistent with State Minimum Standards, and does not conflict with the terms and conditions in the current solid waste facilities permit. The LEA approved the amendment on **November 10, 2026.**

Where a copy of the application can be reviewed

A copy of the approved application for the Joint Technical Document amendment is available for public review by appointment in the LEA office located at 1868 E. Hazelton Ave, Stockton, CA 95205.
