* **Out-of-Network** - See Certificate of Insurance for benefits through non-participating providers of plan or Medicare.

- This is only a summary of plan benefits and co-payments for medically necessary services and not inclusive of complete benefits and limitations. Refer to Evidence of Coverage or Certificate of Insurance at open enrollment meetings or at SJCERA for complete description of benefits, exclusions, and limitations.
- This is a Medicare supplement. No assignment of Medicare is required. You do not have to designate a Primary Care Physician. However, out-of-pocket costs are lowest when using providers in the Anthem Blue Cross Prudent Buyer network and are highest when using providers outside the network who do not accept Medicare rates.
