Narrative of corner identified and monument as found, set, reset, replaced, or removed:

See sheet #2 for description(s): Researching the survey records of Block 16 "East of Center Street" revealed two unrecorded surveys of the same property. The original survey is dated Nov. 22, 1919 (CHW No. 275-BB) and the re-tracement survey of the same property is dated Dec. 9, 1925 (CHW No. 627-R). None of the survey monuments set on the two surveys exist today EXCEPT for the building brick wall "witness monuments". Access to the "Crowsfoot" is blocked. All building walls in Block 16 are either witness monuments to the property lines or the best available evidence to establish the property lines. Also, the original historic street lights set at the center of each block provide a secondary level of collateral evidence. All of these walls and original historic street lights are subject to the Professional Land Surveyors Act Section 8771 and/or 8773(c). The west wall was fairly intact at date of survey. The north, east and south walls were demolished but the footings were clearly identifiable.
