

TEMPORARY TRAFFIC LANE RECONFIGURATION

STARTING APRIL 24

BYRON RD & WEST GRANT LINE RD ROUNDABOUT PROJECT

Following the cessation of rain, construction work on the West Grant Line Road and Byron Road Roundabout project has recommenced and is expected to be completed by May 26, 2023.

Beginning on April 24, 2023, the West Grant Line Road and Byron Road Intersection will undergo temporary reconfiguration to provide crews with the necessary workspace to complete the remaining construction work while also accommodating motorists.

The traffic flow in the both the southbound and northbound directions will be redirected around the newly constructed center island of the roundabout. Grant Line Road will continue to be closed during this time. The lane re-routing will take place in two stages, with the southbound traffic being redirected first, on April 24th followed by northbound traffic on or about May 4, 2023.

Signage will be in place to guide motorists through the intersection.
