

Advanced Clean Energy Fleet Transition Assessment

For more information, contact Kevin Myose at (209) 468-3104 or electronically at kmyose@sjgov.org.

Project Description:

The San Joaquin County Department of Public Works will be soliciting technical proposals from qualified EV consulting management firms to perform analytical and technical services for the proposed Advanced Clean Energy Fleet Transition Assessment to develop an EV adoption plan for our fleet to remain in compliance with the California Air Resources Board (CARB), Advanced Clean Fleet regulations (ACF) for government agencies. The plan will address all vehicles and departments within the County.

Services Needed:

- Analyze the current County fleet, EV marketplace, and infrastructure
- Analyze and identify products within the marketplace that are equitable replacements for existing ICE vehicles
- Analyze and identify infrastructure to meet EV charging requirements for each location
- Develop a plan to introduce EVs into San Joaquin County's fleet and maintain compliance with CARB ACF
- Analyze and identify funding sources for EVs and infrastructure i.e.: grants, low cost lending, etc.

Projected Solicitation Start Date: June 2024
