

CONSULTANT SERVICES FOR THE POLYESTER CONCRETE DECK OVERLAY 2025

For more information, please contact Jeff Verstl at (209) 953-7600 or jverstl@sigov.org.

Project Description:

The San Joaquin County Department of Public Works (SJCDPW) will be requesting proposals from consultant firms to provide professional and technical services for the design of the proposed **Polyester Concrete Deck Overlay 2025** (Project).

The project consists of removing the existing wearing surface on five (5) County bridges and placing a polyester concrete deck overlay (PCO). All grinding of the existing wearing surface, removing of unsound concrete, approach conforms and placement of the PCO will comply with AASHTO, Caltrans, and County standards, ensuring it meets all necessary performance and safety requirements.

SJCDPW will enter into a consultant services agreement with the selected consultant to provide consultant services for the Project. The requested services will include the following, but are not limited to:

- Project Management
- Project Surveying, Mapping and Control
- Public Outreach Program
- NEPA and CEQA Approval
- Permitting Compliance, if necessary
- Utility Coordination and Relocation Plan, if necessary
- Plans, Specifications, and Engineer's Estimate (PS&E)
- Bidding Assistance and Construction Support

RFP Release: September 2025

The Request for Proposals (RFP) will outline the submission requirements and detail the selection process. Before the RFP release date, interested firms may address inquiries to Jeff Verstl, Engineering Assistant III, as noted above. After the RFP is issued, questions will be directed to SJCDPW staff responsible for managing the selection process.
