

DESIGN ENGINEERING SERVICES FOR THE BRIDGE APPROACH RAILINGS REPLACEMENT – PHASE III

For more information, please contact Joe Quilantang at (209) 468-3174 or jquilantang@sigov.org.

Project Description:

The San Joaquin County Department of Public Works (SJCDPW) will be requesting proposals from consultant firms to provide design services for the **Bridge Approach Railings Replacement – Phase III Project** (Project), also known as Federal Aid Project No. HSIPL – 5929(343). The requested services will be performed in accordance with the Highway Safety Improvement Program (HSIP), latest AASHTO Roadside Design Guide, latest Caltrans Standards Plans and Specifications, and Caltrans' Local Procedures Manual (LAPM).

The project aims to replace and/or upgrade the substandard bridge approach guardrail system with a current compliant terminal or bridge approach guardrail system.

SJCDPW will enter into a consultant services agreement with the selected consultant to provide design engineering/contract administration services for the Project. The requested services will include the following, but are not limited to:

- Perform Detailed Topography Survey as needed in certain locations (optional)
- Obtain NEPA/CEQA Environmental Clearance
- Utility Coordination and Relocation Plan
- Prepare Plans, Specifications, and Engineer's Estimate (PS&E)
- Bidding Assistance
- Construction Design Assistance
- Prepare As-Built Plans

RFP Release: January 2026

The Request for Proposals (RFP) will specify requirements for the technical proposal to be submitted and describe the selection process. Prior to the RFP release date, interested firms may direct any questions to Joe Quilantang, Associate Engineer, as indicated above. Following the release of the RFP, inquiries will be referred to SJCDPW staff members who administer the selection process.
