Question #1: Within the scope under Task 2 for Environmental Services there is the following statement:

“Environmental Consultant will lead this task. Consultant will provide engineering support to Environmental Consultant to complete the environmental document in the following subtasks:”

Does the County have an Environmental Consultant under contract? If so what services would be required Under Task 2 for this submittal?

Answer #1: *No, the County does not have an environmental consultant under contract for the Project. The selected consultant will perform all the requested services under Task 2 – Environmental Analysis.*
