ACCEPTABLE CONTAINER REQUIREMENTS

LOAD TRANSPORTATION: All loads must be secured and tarped or covered.

ACCEPTABLE MATERIAL: Clean HDPE #2 agricultural containers are FREE of charge. All other materials may be subject to a fee.

TYPE: Non-refillable HDPE #2 agricultural containers, ONLY! EPA registered for agricultural products.

SIZES: Up to 55 gallon capacity drums.

DRUMS: Must be cut into quarters.

CLEANING: Triple or pressure rinse before delivery to event. Staining is acceptable; caked-on residue is not. Puncturing container is recommended.

PARTS: Remove all instruction booklets, plastic bags and labels. Caps, lids, metal handles, rubber linings, plastic seals and bungs will not be accepted. These items, when triple rinsed, may be placed in the trash.

UNLOADING: Containers must be transferred by customer into a collection bin at event.

TIP: For easy unloading, run a length of twine through jug handles and tie off to create a chain of jugs.

DISPOSAL PROCEDURES

On a Scheduled FREE Recycling Day:

1. Follow Acceptable Container Requirements.
2. Properly secure loads and tarp or cover.
3. A self-certification form stating the containers are clean can be completed in advance. Forms are available at the Agricultural Commissioner's Office.
4. Containers will be officially certified during the event by an inspector from the Agricultural Commissioner's Office.
5. No fees will be charged for clean HDPE #2 agricultural containers. If materials other than HDPE #2 are included in the load, a fee will be charged for the disposal of these items.
6. Off-load containers into collection bins as instructed.
7. Participants that abandon unacceptable materials may be banned from future events.

On an Unscheduled Day:

1. Follow Acceptable Container Requirements.
2. Have containers inspected and certified by an inspector from the Agricultural Commissioner's Office before they are taken to an authorized disposal site. Forms are available at the Agricultural Commissioner's Office:

Stockton: (209) 953-6000
Lodi: (209) 331-7287
Simms Station: (209) 468-5542

3. Secure container loads and tarp or cover with certification form and transport to disposal site. Normal fees will apply.
4. Off-load containers as instructed.

NOTICE

Containers not meeting the above-stated requirements, or those that once held motor oil, fuel, or antifreeze, will be refused and may cause the load to be rejected in its entirety. If contamination is detected post-delivery, San Joaquin County will contact the person or entity that made delivery of prohibited waste. The contaminants must then be removed from the premises by the deliverer within 48 hours from the time of notification and must be disposed of as prescribed by state and federal laws. Proof of proper disposal (documents and/or manifests) will be required and shall be provided to San Joaquin County Public Works, Solid Waste Division. If not safely and lawfully removed within the 48 hour period, San Joaquin County will contract with a hazardous waste hauler for removal and legal disposal. The person or entity that made delivery shall be solely responsible for all costs associated with the handling and disposal of prohibited materials.
