RECYCLING REQUIREMENTS

Single Family Residences

IT'S THE LAW

A Guide for Single Family Residences to Comply with California Recycling Regulations

CALIFORNIA LAW: SINGLE-FAMILY RESIDENCES MUST RECYCLE!

State of California Mandates Require Single-Family Residences to Recycle Organics and Other Recyclable Materials.

RECYCLING AND COMPLIANCE IS AS EASY AS 1-2-3.

CONTAINER/BIN	TYPE OF MATERIALS:
1. ORGANICS 	**Organic Materials May Include:** • Green Waste • Food Waste • Food Soiled Papers • Wood Waste (non-hazardous) • Landscape & Pruning Waste
2. RECYCLABLES 	**Recyclable Materials May Include:** • Paper • Plastic • Glass • Metals • Cardboard • Bottles & Cans *Recyclable materials vary based on collector and current recycling markets. Check with your local collector for materials that can be placed in your recycling container.*
3. WASTE 	**Materials that...** • Do not belong in the organics or recyclable categories above • Are non-hazardous • Are not banned from the landfill **...may be placed in the waste container.**

! IMPORTANT

PUT YOUR ORGANICS CART OUT EVERY WEEK - EVEN IF IT'S NOT FULL

Landfills Are the Third Largest Source of Methane Gas in California. Organic waste in landfills emits:

- 20% of the state's methane, a climate super pollutant 84 times more potent than carbon dioxide.
- Air pollutants which contributes to health conditions like asthma.

Organics like food scraps, yard trimmings, paper, and cardboard make up half of what Californians dump in landfills.

Reducing Short-Lived Climate Super Pollutants like organic waste will have the fastest impact on the climate crisis.

How To Make Even Less Trash

At Home
- Use soap and shampoo bars to reduce packaging.
- Reuse gift wrap, bows, bags, and tissue.
- Use reusable cloth napkins and towels.
- Opt out of junk mail.

At Work
- Bring reusable utensils and food containers.
- Print less and set printers to double-sided.
- Use refillable toner and pens.
- Reuse office supplies, equipment, and furniture.

Out & About
- Shop the bulk section to cut packaging.
- Skip plastic produce bags.
- Bring your own mug to the coffee shop.
- Keep a utensil kit with a straw in your bag.
