

FAQs – Street Lighting

Q: *Can our special district get more streetlights installed?*

A: Please review [the policy on installation of additional streetlights](#). If you have any questions about adding additional streetlights, please contact Dwayne Sabiniano, Engineering Assistant, at (209) 953-7617.

Q: *Why do I have an assessment on street lighting when there are no lights on my street?*

A: The assessment is based on the district benefit received. Although there may not be a light on your street, you still receive the benefit of the lighting at intersections or on a major streets in your neighborhood.

Q: *Who can I contact if a street light is out or needs repair?*

A: If you have a service request for a street light, please call Tilly Silva, Administrative Assistant, at (209) 953-7617.
