

Abdul Wahid

Occupation: Technology Consultant

My education and qualifications are: Having lived in Tracy for 25 years, I can understand the concerns of the people. As a consultant for many Smart City projects, I have the experience needed to help improve the quality of life for the beautiful City of Tracy. As Tracy grows the need for development grows as well. My hope is to see a vision of what I call a "Connected Tracy".

As your Mayor, I pledge to bring the City back to the people rather than the narrow spectrum of views that have continuously dominated here for the past few years. My vision is to see the people of Tracy happy and connected to the surrounding areas around them, as we develop better ways we envision ourselves as a community.

Overcrowding, congested traffic, and depleting infrastructures are some of the problems I'd like to see resolved with proper planning and programs to protect our neighborhood. I support Connected City concept, with a new full service hospital enabling R&D facilities, and I would insist on a plan to encourage public private partnerships for commercial enterprises and light rail systems that improves our air equality and environment. Let's make Tracy stronger, smarter, and more enjoyable.

A handwritten signature in blue ink, appearing to be 'Abdul Wahid', written in a cursive style.
