

Amrik Wander

Occupation: Commissioner/Engineer/Businessowner/Father

Tracy is a wonderful community. Let's work together to make it even better. My priorities include;

1) Safe Streets - I am committed to ensuring the safety of our streets, parks and local businesses. 2) Reduce Traffic congestion - Our streets and highways are jammed with commuters working in the Bay Area. I strongly support transportation solutions like the ACE train and Valley Link to relieve pressure on local streets and highways. 3) Economic Development – I am committed to bringing quality head of household jobs to Tracy. Quality local jobs get commuters off the highway and home with their families. 4) Higher education – I support efforts to expand the local Delta College campus and bring a 4 year college campus to our area. 5) Health care – Perhaps it's time for Tracy to revisit the question of a second hospital, which will bring hundreds of medical jobs.

My family and I have lived in Tracy for 7 years. As your representative, I promise to be open minded and respectful, both to my council colleagues and to citizens who give up their free time to offer positive suggestions on improving our community. Please visit www.AmrikWanderforTracy2020.com. I would appreciate your vote.
