

Ashley Michelle Jones
Lincoln Unified School District, Trustee Area 2

As a parent in our community, I want all our children to have the best education. With the daily challenges that we are facing within our community, it's not only crippling our educational system, it is crippling our children.

For the past 15 year, professionally and personally, I have advocated the importance of a great education. In my current role as a Human Resources Professional, for a local nonprofit early childhood education program, I know what it takes to facilitate change in an educational environment.

As an alumni of Lincoln High School and the University of the Pacific, my education and professional growth has given me the foundation to represent our district through effective leadership, ethical practices, and cultural effectiveness to promote diversity and inclusion when educating our children. Please join me in this movement, and vote Ashley Michelle Jones for the school board.
