

Bernice King -Tingle  
Incumbent/ MHCSD Board of Director

I have faithfully served on the BODs since 2008. I moved to Mountain House in 2003 because of my belief in the high-quality community vision. It is my desire to continue to serve toward continually making that vision a reality.

My constant goals are budget management and strategic planning. I am considered a team player, dedicated to purpose and plans. I believe my institutional knowledge, CSDA board certifications and my commitment to serve enables me to continue to serve well.

My main objective is to ensure a balance between the community vision, the budget, and the community's priorities, while maintaining a balance between quality and fiscal responsibility.

Due to twenty-seven years of project management experience with Pacific Bell and twelve years of service to our community, I possess unique abilities to manage, problem solve, develop, and execute multiple programs and objectives.

I am Chairperson of the MHCSD Youth Action Committee and serve on the Tri-Valley-San Joaquin Valley Regional Rail Authority board. I believe personal time spent with programs that create opportunities for growth, service, and the development of our youth, builds a better community.

I ask for your continued vote of confidence and I would be honored by your support.
