

Debby Moorhead  
Manteca City Councilmember

It has been an honor to serve you on the Manteca City Council. Manteca's future is bright and I look forward to working with you to make our city even better for my family and yours.

Like you, I'm excited about the opening of Great Wolf Lodge, a passion project of mine since 2004 when I was the Manteca Chamber of Commerce Executive Director. Great Wolf will create new jobs and bolster Manteca's economy. I'm also proud of the work my fellow councilmembers and I have done to address additional infrastructure needs including the Atherton Drive extension.

While homelessness continues to be a struggle for all California cities, Manteca is making progress. The establishment of a resource center and partnerships with local non-profits has helped provide shelter while providing our homeless with needed resources.

As we continue to navigate challenging times, it's important we stay focused on what's most important-- keeping families safe and preserving our quality of life. This includes investing in public safety, while responsibly reopening local businesses that are fundamental to Manteca's economy.

I would be grateful for the opportunity to continue representing you on the Manteca City Council. I'd be proud to have your vote.
