

FOR MEMBER OF THE CITY COUNCIL

FRED CUNHA

Age:60

Occupation: Registered Nurse

I am a California native and have lived in Manteca for over 7 years. I have long-term family roots in the Central Valley. My wife is an elementary school teacher in Manteca Unified School District. I have three sons and four grandchildren.

I am a practicing Registered Nurse on the front lines of healthcare in our community. I have worked for local hospitals as an Emergency Room Registered Nurse. I maintain current Registered Nurse and Public Health Nurse credentials along with related certifications.

I am running for Council because public safety should be our City's top priority. I support our law enforcement and oppose efforts to defund the police. I am committed to working to ensure safe neighborhoods for you and your family.

My priorities as a Councilmember also include attracting high-paying jobs to Manteca, reducing cost of living for you and your family, and finding innovative solutions to increase local healthcare infrastructure.

I look forward to serving the people of Manteca by bringing a new perspective and leadership that focuses on making our City the best it can be. I would be honored to earn your vote.
