

**Singh Campaign
Manteca City Council
Candidate Statement
General Election 2020**

Ballot Designation: Manteca Business Owner

Manteca is a wonderful community, yet we have challenges that must be addressed to maintain our special “Family City” quality of life.

As your Councilmember, we have hired more police officers and firefighters and built a new fire station to keep Manteca safe. We continue to improve our roads and streets to ease traffic congestion. I hold regular office hours to listen and respond to your concerns making it easier for residents to communicate with city government - increasing responsiveness, transparency and ensuring your voice is heard in City Hall

As a local business owner, I understand our city needs family wage jobs so residents can work and shop locally - reducing commute times, decreasing traffic and air pollution and allowing residents to spend more time with their families - enhancing our community and civic pride.

We have made great progress but there’s still work left to be done. Innovative leadership is necessary to ensure Manteca’s future by implementing “green” policies to protect our environment, attract Silicon Valley companies and bring in new IT jobs locally. During these unprecedented times, government is more important than ever and must meet the needs of Manteca residents.

Let’s move Manteca forward together.
