

Name: Heath Flora

California State Assembly

Age: 37

Occupation: Firefighter, Farmer, Assemblyman

You deserve a representative that puts your needs first. During my first four years, it has been my goal to bring your voice to Sacramento. I have fought for policies that would improve the quality of life for people in District 12 and the people of California. Advocating for legislation is important however, constituent services are equally important. Residents of District 12 have used our offices as a resource to help them navigate the bureaucratic process. In the past six months alone, our office has assisted hundreds of people that applied for unemployment insurance due to COVID-19 or needed information and clarification on what California's response means for our community.

I ran for public office for the same reason I became a firefighter, to serve my community and to be a steady hand in someone's time of need. We have unique needs in our Central Valley and I am proud of the work I have done to push those needs forward. As your assembly member, I helped secure 30 million dollars for local surface water projects that the voters approved. In addition, we secured funds for the Boys Girls Club and monies for Stanislaus County firefighter's communication equipment.

Whether you are a Democrat, Republican or Independent we must put the concerns and needs of our community above partisan politics. I would be honored to continue to serve as your representative, I humbly ask for your vote.
