

Jennifer Bilbrey

As the daughter of Tracy's longest serving Mayor and a born and raised resident, my love and loyalty to this city is unparalleled. In the face of unprecedented challenges and an uncertain future, I feel called and qualified to ensure we persevere once again.

My qualifying experience includes, but is not limited to, working as a Credit Manager responsible for the largest distributor account (\$120 million annual sales) for the Xerox Corporation. I was also lead manager for conducting financial analysis, skip tracing and fraud prevention for our printer lease program. I received recognition for "outstanding achievements, tireless efforts, and creative problem solving". In addition, I completed certification for Negotiations from the National Association of Credit Managers, Grant Writing from Portland Community College, a yellow belt from Lean Six Sigma, while caring for 3 children and an ill spouse.

In the current economic environment, we need to be fiscally conservative with our resources while maintaining responsible growth and improvement. We cannot afford to gamble on individual aspirations or a narrow view of the impact on the entire community.

I am asking for the opportunity to protect and improve this community with integrity and concern for all.
