

**Josh Harder**

**U.S. House of Representatives – District 10**

**My education and qualifications are:** I grew up in Turlock and my family has been in the Central Valley for five generations. The Valley is my home, and I'm tired of seeing it get left behind. Our families, small businesses, and farmers need real help during this crisis, and I'm fighting to get them results.

After growing several small businesses and teaching at Modesto Junior College, I've seen how decisions made in Washington hurt our Valley. I ran for office when the healthcare of people with preexisting medical conditions, like my younger brother who was born ten weeks premature, was threatened. It wasn't about politics. It was personal.

For too long Politicians have put politics ahead of our community. So I committed to working on bipartisan solutions that put the Valley first.

I'm rated the most bipartisan Representative because of my work with both Republicans and Democrats, including our district's first water storage project in 50 years and a bipartisan bill addressing homelessness.

I've secured \$14 million for local water projects, supported Coronavirus relief that saved 70,000 local jobs, and passed legislation to bring 10,000 new doctors to California. I've fought to get veterans the benefits they earned, and my office recovered over \$3 million owed to seniors and veterans. And I haven't taken a penny from corporate PACs. I work for you, not them.

It's my honor to serve you. We have big challenges ahead. I hope you'll put your faith in me again. I'll continue putting the Valley first.
