

Larry R. Madoski

Ripon Consolidated Fire District

Firefighter / Chief Officer

My name is Larry Madoski, and I would be honored for your vote for the Ripon Consolidated Fire Board. My family has long time roots in the Ripon Manteca area. As a third-generation firefighter with over 25 years in the fire service I have had an amazing career in helping people. My decision to run for the fire board was not made lightly. My wife and three children are each involved in our church and community. As their dad, it is time for me to set the example of citizenship by getting involved in the community we love.

My experience started as a volunteer firefighter. In my career, I have worked through the ranks from firefighter to the position of Division Chief. Each promotion has had new challenges, new rewards, and new opportunities. As an administrator at the chief officer level, I have learned that leading an emergency services organization involves many skills like planning, executing strategy, and relationship building. Planning to service growth has been an important discussion for our fire board. If elected, my goal will be to work together to give our citizens the best return on investment for emergency services we can provide.
