

Marisella Guerrero
Manteca Unified School District Trustee Area 7

My name is Marisella Guerrero, parent, college professor and pharmacist. I am proud to be endorsed by the Manteca Educators Association, representing 1,200 teachers across Manteca Unified School District (MUSD).

Education empowers us to be self-confident, learn our strengths, and provide opportunities to escape poverty. I was fortunate to receive a quality education attending MUSD, opening the door to attend university, pursue my profession as a pharmacist, and give back to students as their professor at the University of the Pacific (UOP). During my career, I noticed health disparities in our underserved communities and lack of outreach to improve their health. This pushed me to co-found the UOP chapter of White Coats for Black Lives, a nationwide movement to improve the health and overall wellbeing of people from disadvantaged backgrounds.

As a parent, I want every child that walks into our classrooms to have the same quality education and opportunity to pursue their dreams. I want teachers and staff to have enough resources to educate our children in a safe, healthy and happy environment.

It is important we elect leaders who will advocate for our children and make decisions that create positive change for our community. I hope to earn your vote on November 3rd.
