

**NANCY D. YOUNG**

**AGE:**

**Occupation:** Tracy Councilmember, Businesswoman

Our town is where I have raised my family, my kids attended school, and now gone on to college. Like many Tracy residents, I spent many years commuting to work in the Bay Area.

As Mayor, I will address the homeless issue and provide more housing opportunities for our residents.

With more than twenty years of business management experience, higher levels of education, possessing a BA, MBA, and Th.D, I am well positioned to create, develop, and implement new ways to attract and support businesses in Tracy, promote overall economic development, and bring high paying jobs to Tracy while stabilizing our city budget.

I am committed to community safety, providing police and fire personnel the tools, technology, training, and education necessary for the safety of our community. Encourage community involvement and partnerships because your Voice Matters.

Tracy is a family town and we must invest in our youth. Young people need positive outlets for recreation and entertainment, including expanding mentor programs to help our youth reach their full potential to be productive citizens. Providing services for our seniors and advocating for them is a priority.

Together we can make Tracy an even better place to live, work, and do business.
