

Ryan Mackey

Ripon Consolidated District Fire Board Member

29

Firefighter Engineer; Paramedic

Education and Qualifications:

I began my fire service career eight years ago with the Ripon Consolidated Fire District (RCFD) as a Reserve Firefighter. Of those eight years, seven of them I kept my reserve status while working full-time as a firefighter in another community. I've worked for the City of Davis Fire Department for nearly three years and currently work as an Engineer Paramedic with the City of Modesto Fire Department. I hold a Bachelor's Degree from UC Davis. I have grown up in our wonderful community of Ripon. The protection of this community is very important and serving on the Fire Board, I'm committed advocating for improved emergency services and response time. As this community grows, the need for more resources from the RCFD grows. Establishing these resources is paramount for the community and will help the Fire Department continue to provide ongoing stellar services for years to come. RCFD and the City of Ripon hold a very special place in my heart as they have consistently responded to the needs of our community. I would graciously appreciate your yes vote for me as a Fire Board Member on the Ripon Consolidated Fire District Board. Thank you for your consideration.
