

Stephan Castellanos

Candidate for San Joaquin Delta College Board of Trustees Area 5

I am a California native, born in Stockton. As an architect and business owner for 35 years, my focus is the design and construction of public schools and colleges. For the last 35 years my family has lived in Calaveras County, where we have long time roots.

My experience with schools and my commitment to public education led me to seek a community college position. As an appointee serving as the California State Architect, I gained further experience. Finally, as a longtime trustee, I have learned that it is only with cooperation, collaboration, integrity and honesty that one can be successful.

I am committed to serving all the students of the district, no matter where they live. I believe that with better access to community college, along with excellent support of our students, we can build strong communities, and I believe that as partners, sharing a vision, we will all succeed.

Delta College is a recognized high performing institution with excellent staff. Its focus is student success, as well as building a skilled workforce. I am endorsed by Jack Garamendi, Calaveras County Supervisor; Kathy Miller, San Joaquin County Supervisor; Susan Eggman State Assembly member, and Mike Machado, former State Senator.
