San Joaquin County Hospital Intensive Care Units Operating Above 100% Capacity for 39 Straight Days Amid COVID-19

French Camp, Calif. – Hospital Intensive Care Units (ICU) in the County are operating at **133% capacity** while total hospital capacity is **at 71%**. San Joaquin County hospitals report **6 patient deaths** due to COVID in the past 24 hours.

“Hospital admissions for COVID are continuing their downward trend which is an encouraging sign that San Joaquin County residents are doing their part to slow the spread of COVID-19 infections. By staying resilient we can win the war against COVID, relieve the strain on our ICUs, and get kids back on campus,” said Dan Burch, EMS Administrator.

What People Should Do If They Have A Medical Emergency Or Are Sick:

Do not delay seeking care. If you are experiencing a medical emergency such as a heart attack, stroke, difficulty breathing or altered mental status contact 911 to activate the EMS system. If you are ill or sick contact your physician or healthcare provider.

How People Can Protect Themselves:

We are all in this together. Every person has a role to play. Your actions save lives.

DO: Stay home; Avoid people outside your household; Wash hands with soap and water for at least 20 seconds; Wear a face mask when out in public; Cover your cough or sneeze; Frequently clean and disinfect touched objects and surfaces; Maintain physical distance of six feet whenever outside of the house; Stay away from work, school or other people if you become sick with respiratory symptoms like fever and cough.

###

Notes to editors:

- San Joaquin County OES in partnership with San Joaquin County EMS Agency will provide updates daily on the most current hospital statistics Monday-Friday.
- Graphs and tables will be provided showing hospital bed capacity, ICU capacity and historical tracking.
- This document is intended to prevent and control the transmission of COVID-19 by informing the public and serves a public health purpose.
