PURPOSE: The purpose of this policy is to provide procedures for emergency medical services (EMS) personnel to follow when patients, parents, or legal representative refuse indicated medical treatment or ambulance transport.

AUTHORITY: Health and Safety Code, Division 2.5, Sections 1797.220, 1798 et seq.,

DEFINITIONS:

A. “Adult” means a person eighteen years of age or older, or an emancipated minor.
B. “Minor” means a person less than eighteen years of age who is not emancipated.
C. “Emancipated Minor” means a person under the age of 18 years that is:
   1) Married or previously married;
   2) On active military duty;
   3) A court decreed emancipated minor which may be verified by Department of Motor Vehicles (DMV) identification card.
D. “Competent” means a patient who is alert and oriented with the capacity to understand the circumstances surrounding their illness or impairment and the risks associated with refusing treatment or transport.
E. “Emergency” means a condition or situation in which an individual has a need for immediate medical attention, or where the potential for such need is perceived by EMS personnel or a public safety agency.
F. “Implied Consent” means a type of consent involving a presumption that an unconscious or incompetent person would consent to life or limb saving care. Implied consent includes non-emancipated minors with an emergency condition when a parent or legal representative is unavailable.
G. “Patient not requiring transport” or “patient released at scene” means an individual who, after a complete assessment by EMS personnel, does not appear to have an emergency condition that requires immediate treatment or transportation through the EMS system.
H. “Refusing care against medical advice (AMA)” the act of a patient, parent or legal representative declining or refusing indicated medical treatment or transport.
I. “5150 Hold” means a patient who is held against their will for evaluation under the authority of Welfare and Institutions Code, Section 5150, because the patient is a danger to themselves, a danger to others, and/or gravely disabled, e.g., unable to care for self. This is an order placed by a law enforcement officer, County mental health worker, or an emergency physician certified by the County to place an individual on a 5150 hold.
SAN JOAQUIN COUNTY
EMERGENCY MEDICAL SERVICES AGENCY

TITLE: PATIENT REFUSAL OF TREATMENT OR TRANSPORT
AGAINST MEDICAL ADVICE (AMA)

POLICY:

I. A competent adult or a competent emancipated minor has the right to determine the
course of their own medical care including the right to refuse indicated treatment or
ambulance transport. EMS personnel shall advise the patient of the risks and
potential consequences of refusing indicated treatment or transport. In all such
instances EMS personnel shall advise the patient to seek immediate medical care.

II. A patient determined by EMS personnel or base hospital physician to be
incompetent may not refuse care or be released at scene if an emergency condition
exists. A patient’s competence may be impaired by mental illness, drug, or alcohol
intoxication, physical or mental impairment. Patients who have attempted suicide,
verbalized suicidal intent or when other factors lead EMS personnel to suspect
suicidal intent should not be regarded as competent.

III. In the presence of an emergency condition EMS personnel shall treat and transport
a minor patient, except an emancipated minor, based on implied consent unless a
parent or legal representative refuses evaluation, treatment, or transport.

IV. EMS personnel may release at scene a competent adult, emancipated minor, or
minor when no emergency condition exists that requires immediate treatment or
transportation through the EMS system. EMS personnel shall ensure that patients
released at scene or released after initiation of transport are released in a safe
environment. Patients meeting criteria for a 5150 hold cannot be released at scene
without the concurrence of law enforcement.

PROCEDURE:

I. If a competent adult or emancipated minor refuses indicated emergency evaluation
or ambulance transportation EMS personnel shall:

A. Advise the patient of the risks and consequences which may result from refusing
medical evaluation, treatment, or ambulance transport. BLS personnel should
inform the patient of the ETA of responding emergency ambulance and advise
the patient to refrain from refusing treatment or transport until after discussing
the situation with the responding emergency ambulance paramedic.

B. Have the patient or legal representative sign a refusal of care (AMA) form. The
signature shall be witnessed, preferably by a family member. A patient or legal
representative’s refusal to sign the AMA form should be documented on the
patient care record.

Effective: DRAFT May 21, 2010
Supersedes: 540.09

Approved: ___________________________  ___________________________
Medical Director  EMS Administrator
C. Advise the patient that they may re-contact 9-1-1 if their situation changes.

II. If a competent adult or emancipated minor refuses indicated emergency treatment such as a medication or a procedure, EMS personnel shall:

A. Advise the patient of the risks and consequences which may result from refusing the indicated treatment.
B. Document the patient refusal of treatment (medication or procedure) on the patient care record.

III. If EMS personnel determine that a patient with an emergency condition is not competent to refuse evaluation, treatment or transport, the following alternatives exist:

A. Patient should be transported to an appropriate facility under implied consent. In this case, a 5150 hold is not necessary.
B. If EMS personnel determine it is necessary to transport the patient against their will and the patient resists or the EMS personnel believe the patient will resist, assistance from law enforcement shall be requested in transporting the patient. Law enforcement may consider the placement of a 5150 hold on the patient, but this is not required for transport.
C. EMS personnel should seek the assistance of the base hospital if the parent or other legal representative of the patient is acting unreasonably in refusing indicated treatment or transport. If the base hospital physician determines that the patient is in eminent danger based on the refusal of treatment or transport EMS personnel shall contact law enforcement for assistance.
D. At no time are field personnel to put themselves in danger by attempting to transport or treat a patient who refuses. At all times, good judgment should be used and appropriate assistance obtained.

IV. EMS personnel may release a patient at scene after completing a primary and secondary patient assessment and determining that no medical need exists or that that patient’s underlying medical condition does not appear to require immediate medical assistance. When releasing a patient at scene EMS personnel shall:

A. Advise the patient to re-contact 9-1-1 or seek medical assistance if symptoms return or worsen.
B. Document the advice given to the patient on the patient care record.
