Some Smoke Detectors are Radioactive!

- Some smoke detectors contain small amounts of radioactive material.
- These detectors are not dangerous, but in large quantities they are not safe for the environment.
- The San Joaquin County Household Hazardous Waste Facility is not permitted to accept any radioactive materials. Non-radioactive units are accepted.

How Can I Tell if my Detector is Radioactive?
Check the back of your smoke detector to see if it is marked “radioactive” or look for the radioactive symbol.

If it is Radioactive - How do I Properly Dispose of it?
Turn this card over for information on disposal options that may be available.
