

San Joaquin County Probation Department

Positive Youth Justice Initiative

"Growing up I was taught that bangin, slangin, and hangin were my only options; I never had a role model to guide me in the right direction, to teach me right from wrong. In our healing circles I was acknowledged as someone worth caring about, despite my past or my current mindset. Because of my community work I have learned to take pride in my struggles and I have begun to love myself again."

- PYJI Crossover Youth Leader

San Joaquin County Probation Department
